flight and landing. Unrecoverable loss of all engines may be excluded when showing that unrecoverable loss of critical portions of the electrical system is extremely improbable.

2. Regardless of any electrical generation-and-distribution system-recovery capability shown under paragraph 1, above, sufficient electrical-system capability must be provided to—

a. allow time to descend, with all engines inoperative, at the speed that provides the best glide distance, from the maximum operating altitude to the top of the engine-restart envelope, and

b. subsequently allow multiple start attempts of the engines and APU. This capability must be provided in addition to the electrical capability required by existing part 25 requirements related to operation with all engines inoperative.

3. The electrical energy the airplane uses in descending with engines inoperative, from the maximum operating altitude at the best glide speed, and in making multiple attempts to start the engines and APU, must be considered when showing compliance with paragraphs 1 and 2 of these special conditions, and with existing 14 CFR part 25 requirements related to continued safe flight and landing.

AGENCY: Federal Aviation Administration (FAA), DOT. **ACTION:** Final rule, technical amendment.

SUMMARY: This action incorporates certain amendments into FAA Order 7400.9X, dated September 8, 2013, and effective September 15, 2013, for incorporation by reference in 14 CFR 71.1.

DATES: Effective date 0901 UTC August 7, 2014. The Director of the **Federal Register** approves this incorporation by reference action under 1 CFR part 51,

subject to the annual revision of FAA Order 7400.9 and publication of conforming amendments.

SUPPLEMENTARY INFORMATION:

History

Federal Aviation Administration
Airspace Order 7400.9, Airspace
Designations and Reporting Points,
incorporated by reference in 14 CFR
71.1, is published yearly. Amendments
referred to as "effective date straddling
amendments" were published under
Order 7400.9W (dated August 8, 2012,
and effective September 15, 2012), but
became effective under Order 7400.9X
(dated August 7, 2013, and effective
September 15, 2013). This action
incorporates these rules into the current
FAA Order 7400.9X.

Accordingly, as this is an administrative correction to update final rule amendments into FAA Order 7400.0X, notice and public procedure under 5 U.S.C. 553(b) are unnecessary. Also, to bring these rules and legal descriptions current, I find that good cause exists, under 5 U.S.C. 553(d), for making this amendment effective in less than 30 days.

The Rule

This action amends title 14 Code of Federal Regulations (14 CFR) Part 71 to incorporate certain final rules into the current FAA Order 7400.9X, Airspace Designations and Reporting Points, dated August 7, 2013, and effective September 15, 2013, which are depicted on aeronautical charts.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this regulation: (1) Is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that only affects air traffic procedures and air navigation, it is certified that this rule, when promulgated, does not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority.

This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of the airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it makes the necessary updates for airspace areas within the National Airspace System.

14 CFR Part 71

[Docket No. FAA-2014-0082; Airspace Docket No. 14-ASO-3]

Amendment and Revocation of Class E Airspace; Tuskegee, AL

AGENCY: Federal Aviation Administration (FAA), DOT. **ACTION:** Final rule, technical amendment.

SUMMARY: This action amends the Class E airspace designation for Moton Field Municipal Airport, Tuskegee, AL, by correcting the state from TN to AL. This action also removes reference to the Class E airspace, Tuskegee, AL, which was never amended due to the incorrect state error.

DATES: Effective 0901 UTC, September 18, 2014. The Director of the Federal Register approves this incorporation by reference action under title 1, Code of Federal Regulations, part 51, subject to the annual revision of FAA Order 7400.9 and publication of conforming amendments.

ADDRESSES: FAA Order 7400.9X, Airspace Designations and Reporting Points, and subsequent amendments can be viewed online at http://www.faa.gov/air_traffic/publications/. SUPPLEMENTARY INFORMATION:

History

On June 18, 2013, the FAA published in the **Federal Register** a final rule amending Class E airspace at Moton Field Municipal Airport, Tuskegee, AL (78 FR 36411). The airspace designation title incorrectly listed the state as TN, instead of AL, and therefore was listed incorrectly FAA Order 7400.9X. By listing the amendment under TN, it then left the Class E airspace for Tuskegee, AL, unchanged in the Order. This action makes the corrections.

Class E airspace designations are published in paragraph 6005 of FAA Order 7400.9X dated August 7, 2013, and effective September 15, 2013, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designations listed in this document will be published subsequently in the Order.

The Rule

This amendment to Title 14, Code of Federal Regulations (14 CFR) part 71 removes the Class E airspace designation and description for Tuskegee Municipal Airport, Tuskegee, AL. This action also corrects the Class E airspace designation title for Moton Field Municipal Airport, Tuskegee, AL, from ASO TN E5, Tuskegee, AL, to ASO AL E5, Tuskegee, AL. This is an administrative change and does not affect the boundaries, altitudes, or operating requirements of the airspace, therefore, notice and public procedure under 5 U.S.C. 553(b) is unnecessary.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current, is non-controversial and unlikely to result in adverse or negative comments. It, therefore, (1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a Regulatory Evaluation as the anticipated impact is so minimal. Since this is a routine matter that only affects air traffic procedures and air navigation, it is

certified that this rule, when promulgated, does not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I. Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority. This rulemaking is promulgated under the authority described in Subtitle VII. Part A. Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it amends the airspace at Tuskegee Municipal Airport, Tuskegee, AL.
