

adopted by voluntary consensus standards bodies. NTTAA directs the EPA to provide Congress, through OMB, explanations when the Agency decides not to use available and applicable voluntary consensus standards.

This proposed rulemaking does not involve technical standards. Therefore, the EPA is not considering the use of any voluntary consensus standards.

J. Executive Order 12898: Federal Actions To Address Environmental Justice in Minority Populations and Low-Income Populations

Executive Order (E.O.) 12898 (59 FR 7629 (Feb. 16, 1994)) establishes federal executive policy on environmental justice. Its main provision directs federal agencies, to the greatest extent practicable and permitted by law, to make environmental justice part of their mission by identifying and addressing, as appropriate, disproportionately high and adverse human health or environmental effects of their programs, policies, and activities on minority populations and low-income populations in the United States.

The EPA has determined that this proposed rule would not have disproportionately high and adverse human health or environmental effects because it would not affect the level of protection provided to human health or the environment. This proposed action would not relax the control measures on sources regulated by the RFS regulations and therefore would not cause emissions increases from these sources.

V. Statutory Authority

Statutory authority for this action comes from sections 211 and 301(a) of the Clean Air Act, 42 U.S.C. 7545 and 7601(a).

List of Subjects in 40 CFR Part 80

Environmental protection, Administrative practice and procedure, Air pollution control, Diesel fuel, Fuel additives, Gasoline, Imports, Oil imports, Petroleum, Renewable fuel.

Dated: July 31, 2014.

Gina McCarthy,
Administrator.

For the reasons set forth in the preamble, title 40, chapter I of the Code of Federal Regulations is proposed to be amended as follows:

PART 80—REGULATION OF FUELS AND FUELS ADDITIVES

■ 1. The authority citation for part 80 continues to read as follows:

Authority: 42 U.S.C., 7414, 7521, 7542, 7545, and 7601(a).

Subpart M—Renewable Fuel Standard

■ 2. Section 80.1451 is amended by revising paragraph (a)(1)(xiv) to read as follows:

§ 80.1451 What are the reporting requirements under the RFS program?

- (a) * * *
- (1) * * *

(xiv) For the 2013 compliance year, annual compliance reports shall be submitted within 30 days after publication in the **Federal Register** of the final rule establishing the 2014 renewable fuel percentage standards for cellulosic biofuel, biomass-based diesel, advanced biofuel and total renewable fuel.

* * * * *

■ 3. Section 80.1464 is amended by revising paragraph (g) to read as follows:

§ 80.1464 What are the attest engagement requirements under the RFS program?

* * * * *

(g) For the 2013 compliance year, reports required under this section shall be submitted to the EPA within 90 days after publication in the **Federal Register** of the final rule establishing the 2014 renewable fuel percentage standards for cellulosic biofuel, biomass-based diesel, advanced biofuel and total renewable fuel.

BILLING CODE 6560–50–P

DEPARTMENT OF HOMELAND SECURITY

Federal Emergency Management Agency

44 CFR Part 67

[Docket ID FEMA–2014–0002; Internal Agency Docket No. FEMA–B–1175]

Proposed Flood Elevation Determinations

AGENCY: Federal Emergency Management Agency, DHS.

ACTION: Proposed rule; correction.

SUMMARY: On February 16, 2011, the Federal Emergency Management Agency (FEMA) published in the **Federal Register** a proposed rule that contained an erroneous table. This document provides corrections to that table, to be used in lieu of the information published on February 16, 2011. The table provided here represents the flooding sources, location of referenced elevations, effective and modified

elevations, and communities affected for Montgomery County, Pennsylvania (All Jurisdictions).

DATES: Comments are to be submitted on or before November 6, 2014.

ADDRESSES: You may submit comments, identified by Docket No. FEMA–B–1175, to Luis Rodriguez, Chief, Engineering Management Branch, Federal Insurance and Mitigation Administration, Federal Emergency Management Agency, 500 C Street SW., Washington, DC 20472, (202) 646–4064 or (email) Luis.Rodriguez3@fema.dhs.gov.

FOR FURTHER INFORMATION CONTACT: Luis Rodriguez, Chief, Engineering Management Branch, Federal Insurance and Mitigation Administration, Federal Emergency Management Agency, 500 C Street SW., Washington, DC 20472, (202) 646–4064 or (email) Luis.Rodriguez3@fema.dhs.gov.

SUPPLEMENTARY INFORMATION: FEMA publishes proposed determinations of Base (1% annual-chance) Flood Elevations (BFEs) and modified BFEs for communities participating in the National Flood Insurance Program (NFIP), in accordance with section 110 of the Flood Disaster Protection Act of 1973, 42 U.S.C. 4104, and 44 CFR 67.4(a).

These proposed BFEs and modified BFEs, together with the floodplain management criteria required by 44 CFR 60.3, are minimum requirements. They should not be construed to mean that the community must change any existing ordinances that are more stringent in their floodplain management requirements. The community may at any time enact stricter requirements of its own or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations are used to meet the floodplain management requirements of the NFIP and also are used to calculate the appropriate flood insurance premium rates for new buildings built after these elevations are made final, and for the contents in those buildings.

In the proposed rule published at 76 FR 8982–8984, in the February 16, 2011, issue of the **Federal Register**, FEMA published a table under the authority of 44 CFR 67.4. The table, entitled “Montgomery County, Pennsylvania all Jurisdictions” addressed the flooding sources: Blair Mill Run, Blair Mill Run Tributary, Huntingdon Valley Creek, Meadow Brook, Pennypack Creek, Pennypack Creek Branch, Pennypack Creek Tributary No. 1, Pine Run, Rapp Run, Sandy Run, Sandy Run Tributary No. 1, Sandy Run Tributary No. 1a

(downstream), Sandy Run Tributary No. 1a (upstream), Southampton Creek, Tributary No. 2 to Pine Run, and War Memorial Creek. That table contained inaccurate information as to the location of referenced elevation, effective and modified elevation in feet, and/or communities affected for the flooding sources Sandy Run, Sandy Run Tributary No. 1 and Sandy Run Tributary No. 1a (downstream). In

addition, the proposed modifications listed for Sandy Run Tributary No. 1a (upstream) has been removed from the table. FEMA is no longer proposing any flood elevation determination changes along Sandy Run Tributary No. 1a (upstream) as identified in the above-referenced rulemaking publication. In this document, FEMA is publishing a table containing the accurate information, to address these prior

errors. The information provided below should be used in lieu of that previously published.

Correction

In Proposed rule FR Doc. 2011–3420, beginning on page 8978 in the issue of February 16, 2011, make the following correction. On pages 8982–8984, correct the Montgomery County, Pennsylvania table as follows:

Flooding source(s)	Location of referenced elevation**	* Elevation in feet (NGVD) + Elevation in feet (NAVD) # Depth in feet above ground ^ Elevation in meters (MSL)		Communities affected
		Effective	Modified	

Montgomery County, Pennsylvania (All Jurisdictions)

Blair Mill Run	At the Pennypack Creek confluence	+212	+211	Borough of Hatboro, Township of Horsham, Township of Upper Moreland.
Blair Mill Run Tributary	At the downstream side of County Line Road	+259	+261	Borough of Hatboro.
	At the upstream side of West Monument Avenue	+227	+228	
Huntingdon Valley Creek	At the downstream side of East County Line Road	+247	+252	Borough of Bryn Athyn, Township of Lower Moreland.
	Approximately 800 feet downstream of Red Lion Road.	+119	+120

Endangered and Threatened Species; Designation of Critical Habitat for Steller Sea Lions; Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of public meeting; request for presentations.

SUMMARY: NMFS will host a meeting to elicit scientific information related to the designation of Steller sea lion critical habitat under the Endangered Species Act (ESA). NMFS is considering revisions to the critical habitat designation to take into account new information that has become available since NMFS designated critical habitat in 1993. This meeting will provide an opportunity for NMFS to receive presentations from the public concerning new and relevant scientific
