RIN 0648–XD412

Pacific Island Fisheries; Marine Conservation Plan for Guam

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of agency decision.

SUMMARY: NMFS announces approval of a Marine Conservation Plan (MCP) for Guam.

DATES: This agency decision is effective from August 4, 2014, through August 3, 2017.

ADDRESSES: You may obtain a copy of the MCP, identified by NOAA–NMFS–2014–0094, from the Federal e-Rulemaking Portal, www.regulations.gov/#!/docketDetail;D=NOAA-NMFS-2014-0094, or from the Western Pacific Fishery Management Council (Council), 1164 Bishop St., Suite 1400, Honolulu, HI 96813, 808–522–8220, www.wpcouncil.org.

FOR FURTHER INFORMATION CONTACT: Jarad Makaiau, Sustainable Fisheries, NMFS Pacific Islands Regional Office, 808–725–5176.

SUPPLEMENTARY INFORMATION: Section 204(e) of the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act) authorizes the Secretary of State, with the concurrence of the Secretary of Commerce (Secretary) and in consultation with the Council, to negotiate and enter into a Pacific Insular Area fishery agreement (PIAFA). A PIAFA would allow foreign fishing within the U.S. Exclusive Economic Zone (EEZ) adjacent to American Samoa, Guam, or the Northern Mariana Islands with the concurrence of, and in consultation with, the Governor of the Pacific Insular Area to which the PIAFA applies. Before entering into a PIAFA, the appropriate Governor, with the concurrence of the Council, must develop a 3-year MCP providing details on uses for any funds collected by the Secretary under the PIAFA.

The Magnuson-Stevens Act requires payments received under a PIAFA to be deposited into the United States Treasury and then conveyed to the Treasury of the Pacific Insular Area for which funds were collected. In the case of violations by foreign fishing vessels in the EEZ around any Pacific Insular Area, amounts received by the Secretary

attributable to fines and penalties imposed under the Magnuson-Stevens Act, including sums collected from the forfeiture and disposition or sale of property seized subject to its authority, shall be deposited into the Treasury of the Pacific Insular Area adjacent to the EEZ in which the violation occurred, after direct costs of the enforcement action are subtracted. The government may use funds deposited into the Treasury of the Pacific Insular Area for fisheries enforcement and for implementation of an MCP.

An MCP must be consistent with the Council's fishery ecosystem plans, must identify conservation and management objectives (including criteria for determining when such objectives have been met), and must prioritize planned marine conservation projects. Although no foreign fishing is being considered at this time, at its 160th meeting held June 24–27, 2014, in Honolulu, the Council reviewed and approved the MCP for Guam and recommended its submission to the Secretary for approval. On July 24, 2014, the Governor of Guam submitted the MCP to NMFS, the designee of the Secretary, for review and approval.

The Guam MCP contains six conservation and management objectives, listed below. Please refer to the MCP for planned projects and activities designed to meet each objective, the evaluative criteria, and priority rankings.

MCP Objectives:

1. Fisheries resource assessment, research and monitoring;
2. Effective surveillance and enforcement mechanisms;
3. Promote ecosystems approach to fisheries management, climate change adaptation and mitigation, and regional cooperation;
4. Public participation, education and outreach, and local capacity building;
5. Domestic fisheries development; and
6. Recognizing the importance of island cultures and traditional fishing practices and community based management.

This notice announces that NMFS has determined that the Guam MCP satisfies the requirements of the Magnuson-Stevens Act and approves the MCP for the 3-year period from August 4, 2014, through August 3, 2017. This MCP supersedes the one approved for the period June 28, 2011, through June 27, 2014 (76 FR 39858, July 7, 2011).

Dated: August 6, 2014.

Emily H. Menashes,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

k. Description of Request: The licensee requests a temporary variance to reduce minimum flows required by article 105 of the project's license. The licensee states that water conditions in the North Fork of the Middle Fork Tule River are critically dry, and requests that it be allowed to reduce the minimum flow release from Tule Diversion Dam and Doyle Springs Diversion Dam from 4 and 2 cubic feet per second (cfs), respectively, to 1 cfs. The purpose of this flow reduction is to maintain the integrity of, and prevent permanent damage to, the project's 1,021-foot-long redwood penstock by maintain a 2 cfs flow through the penstock. Due to the urgent nature of this request and to prevent permanent damage to the project's the Commission approved the licensee's request with conditions by order dated August 1, 2014. The approved temporary variance expires no later than 6 months from the date of the order. However, should the licensee request another temporary variance due to continued drought conditions once the current variance expires, the Commission will take into account any comments received, intervention requests, and protests received in its analysis of any future variance request.

m. Individuals desiring to be included on the Commission's mailing list should so indicate by writing to the Secretary of the Commission.

n. Comments, Protests, or Motions to Intervene: Anyone may submit

comments, a protest, or a motion to intervene in accordance with the requirements of Rules of Practice and Procedure, 18 CFR 385.210, .211, .214. In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but only those who file a motion to intervene in accordance with the Commission's Rules may become a party to the proceeding. Any comments, protests, or motions to intervene must be received on or before the specified comment date for the particular application.

o. Filing and Service of Responsive Documents: Any filing must (1) bear in all capital letters the title "COMMENTS", "PROTEST", or "MOTION TO INTERVENE" as applicable; (2) set forth in the heading the name of the applicant and the project number of the application to which the filing responds; (3) furnish the name, address, and telephone number of the person protesting or intervening; and (4) otherwise comply with the requirements of 18 CFR 385.2001 through 385.2005. All comments, motions to intervene, or protests must set forth their evidentiary basis and otherwise comply with the requirements of 18 CFR 4.34(b). All comments, motions to intervene, or protests should relate to project works which are the subject of the license surrender. Agencies may obtain copies of the application directly from the applicant. A copy of any protest or motion to intervene must be served upon each representative of the applicant specified in the particular application. If an intervener files comments or documents with the Commission relating to the merits of an issue that may affect the responsibilities of a particular resource agency, they must also serve a copy of the document on that resource agency.
