

with disabilities for the purchase of computers and other equipment that support teleworking for an employer or self-employment on a full or part-time basis. These grantees are required to report annual data on their programs to the Rehabilitation Services Administration. This information collection provides a standard format for the submission of those annual performance reports and a follow-up survey to be administered to individuals who receive loans.

The proposed instrument eliminates an entire section of optional information that is not required for submission by the Telework grantees, further reducing the burden from approximately 12.5 hours to 11 hours per state. Section C. Telework Optional Data Elements, which are not annual reporting requirements for the Telework grantees, has been proposed for removal from the current instrument. The information collected in this optional data section includes: 1. Types of Telework programs (partnership loans or revolving loans), 2. Interest Rates (lowest and highest interest rates established by policy), 3. Loan Amounts (lowest and highest loan amounts established by policy), 4. Repayment Terms (shortest and longest repayment terms established by policy), and Loan Guarantee Requirement, the percentage of the loans that must be repaid by the alternative financing program (AFP) to the lender in case of default as established by the agreement with the lender. Since the data reported under C. Telework Optional Data Elements of the current instrument is not required, grantees did not report this information uniformly across programs. If every grantee doesn't report in this section, then the data can't be reported in aggregate form. This optional section contains information about program features and descriptions that may or may not change on an annual basis. Since there is limited utility to the annual reporting of this optional information, the decision was made to further reduce the burden to all grantees by eliminating this section from the current instrument in the Management Information System (MIS).

Abstract: This submission requests approval to collect data in support of the National Evaluation of the Investing in Innovation (i3) Program. The i3 Program is designed to support school districts and nonprofit organizations in expanding, developing, and evaluating evidence-based practices and promising efforts to improve outcomes for the nations' students, teachers, and schools. Each i3 grantee is required to fund an independent evaluation. The National Evaluation of i3 (NEi3) requires data collection to assess the strength of the evidence produced under the grantees independent evaluations as well as provide a cross-site summary of the findings. Specifically, the data collected for the NEi3 will be used to support reviews and reports to ED that: describe the intervention implemented by each i3 grantee; assess the strength of the evidence produced by each i3 evaluation; present the evidence produced by each i3 evaluation; identify effective and promising interventions; and, assess the results of the i3 Program. The NEi3 will collect data from the universe of all 117 i3 projects funded under the i3 Program through FY 2013.
