

Defendants will sell property at the Site and pay the net proceeds of that sale to the United States. In addition, the Defendants have agreed to certain access requirements and use restrictions at the Site designed to protect the Site remedy, and are required to record an environmental covenant on the Site property that they own so that the access requirements and use restrictions will run with the land in perpetuity. The proposed Consent Decree is based on Defendants' limited ability to pay, as determined by a qualified financial analyst.

DEPARTMENT OF JUSTICE

Notice of Lodging of Settlement Agreement Under the Clean Air Act

Notice is hereby given that on August 7, 2014, a proposed Consent Decree in *United States v. Coyne International Enterprises Corp.*, No. 1:14-cv-13260, was lodged with the United States District Court for the District of Massachusetts. The United States filed this action, on the same day that the Consent Decree was lodged with the Court, under the Clean Air Act, 42 U.S.C. 7401 *et seq.* Coyne International Enterprises Corp. (“Coyne”) operates an industrial laundry facility in New Bedford, Massachusetts (“Facility”). The Complaint alleges that Coyne violated the Clean Air Act by constructing the Facility in 1994, and by modifying the Facility in 2005, without first obtaining a permit authorizing such construction or modification in accordance with the nonattainment New Source Review provisions of the Clean Air Act, 42 U.S.C. 7501-7515.

The Consent Decree requires Coyne to pay a \$50,000 civil penalty. The Consent Decree also requires Coyne to commence the operation of a Volatile Organic Compound (“VOC”) control system at the Facility that will achieve at least a 50% reduction of VOC emissions associated with the laundering of print and furniture towels by December 31, 2014 or, in the alternative, to cease the laundering of print and furniture towels at the Facility as of that date until such a control system is installed. The Consent Decree resolves the civil claims of the United States for the violations alleged in the Complaint as well as in the Notice of Violation issued by the Environmental Protection Agency to Coyne on August 11, 2011, through the date of lodging of the Consent Decree.

The publication of this notice opens a period for public comment on the Consent Decree. Comments should be addressed to the Assistant Attorney General, Environment and Natural Resources Division, and should refer to *United States v. Coyne International Enterprises Corp.*, D.J. Ref. No. 90-5-2-1-10426. All comments must be submitted no later than 30 days after the

publication date of this notice. Comments may be submitted either by email or by mail:

DEPARTMENT OF LABOR

Office of the Secretary

Agency Information Collection Activities; Submission for OMB Review; Comment Request; Examinations and Testing of Electrical Equipment Including Examination, Testing, and Maintenance of High Voltage Longwalls

ACTION: Notice.

SUMMARY: The Department of Labor (DOL) is submitting the Mine Safety and Health Administration (MSHA) sponsored information collection request (ICR) titled, “Examinations and Testing of Electrical Equipment Including Examination, Testing, and Maintenance of High Voltage Longwalls,” to the Office of Management and Budget (OMB) for review and approval for continued use, without change, in accordance with the Paperwork Reduction Act of 1995 (PRA), 44 U.S.C. 3501 et seq. Public comments on the ICR are invited.

DATES: The OMB will consider all written comments that agency receives on or before September 12, 2014.

ADDRESSES: A copy of this ICR with applicable supporting documentation; including a description of the likely respondents, proposed frequency of response, and estimated total burden may be obtained free of charge from the RegInfo.gov Web site at http://www.reginfo.gov/public/do/PRAViewICR?ref_nbr=201403-1219-007 (this link will only become active on the day following publication of this notice) or by contacting Michel Smyth by telephone at 202–693–4129, TTY 202–693–8064, (these are not toll-free numbers) or by email at DOL_PRA_PUBLIC@dol.gov.

Submit comments about this request by mail or courier to the Office of Information and Regulatory Affairs, Attn: OMB Desk Officer for DOL–MSHA, Office of Management and Budget, Room 10235, 725 17th Street NW., Washington, DC 20503; by Fax: 202–395–6881 (this is not a toll-free number); or by email: OIRA_submission@omb.eop.gov. Commenters are encouraged, but not required, to send a courtesy copy of any comments by mail or courier to the U.S. Department of Labor–OASAM, Office of the Chief Information Officer, Attn: Departmental Information Compliance Management Program, Room N1301, 200 Constitution Avenue NW., Washington, DC 20210; or by email: DOL_PRA_PUBLIC@dol.gov.

FOR FURTHER INFORMATION CONTACT:

Contact Michel Smyth by telephone at 202–693–4129, TTY 202–693–8064, (these are not toll-free numbers) or by email at DOL_PRA_PUBLIC@dol.gov.

Authority: 44 U.S.C. 3507(a)(1)(D).

SUPPLEMENTARY INFORMATION: This ICR seeks to extend PRA authority for the Examinations and Testing of Electrical Equipment Including Examination, Testing, and Maintenance of High Voltage Longwalls information collection. MSHA regulations require records to be kept on the examination, testing, calibration, and maintenance of covered atmospheric monitoring systems, electric equipment, grounding offtrack direct-current machines and enclosures of related detached components, circuit breakers, electrical work, and devices for overcurrent protection. The records are intended to verify that examinations and tests were conducted and give insight into the hazardous conditions that have been encountered and those that may be encountered. These records greatly assist those who use them in making decisions during accident investigations to establish root causes and to prevent similar occurrences. These decisions will ultimately affect the safety and

health of miners. Federal Mine Safety and Health Act of 1977 section 103(h) authorizes this information collection. *See* 30 U.S.C. 813(h).

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless it is approved by the OMB under the PRA and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid Control Number. *See* 5 CFR 1320.5(a) and 1320.6. The DOL obtains OMB approval for this information collection under Control Number 1219–0116.

OMB authorization for an ICR cannot be for more than three (3) years without renewal, and the current approval for this collection is scheduled to expire on August 31, 2014. The DOL seeks to extend PRA authorization for this information collection for three (3) more years, without any change to existing requirements. The DOL notes that existing information collection requirements submitted to the OMB receive a month-to-month extension while they undergo review. For additional substantive information about this ICR, see the related notice published in the **Federal Register** on April 8, 2014 (79 FR 19386).

Interested parties are encouraged to send comments to the OMB, Office of Information and Regulatory Affairs at the address shown in the **ADDRESSES** section within thirty (30) days of publication of this notice in the **Federal Register**. In order to help ensure appropriate consideration, comments should mention OMB Control Number 1219–0116. The OMB is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency’s estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other
