

the Compact, the GoG has met each of these milestones, as described below.

- *Approval of the Gas Sector Action Plan.* An acceptable short-term Gas Sector Action Plan was submitted to MCC by the Minister of Energy and Petroleum. The GoG, with the support of the World Bank, is currently drafting a comprehensive long-term gas sector master plan, which will be complete by the end of 2014. Approval of the terms of that gas sector master plan by MCC and its adoption by the GoG are conditions to entry into force of the Compact.

- *Finalize the Jubilee gas supply agreement.* The Ghana National Gas Company (“GNGC”) and Jubilee Partners have signed the agreement related to infrastructure needed for gas supply from the Jubilee gas fields. This agreement facilitates the completion of infrastructure by GNGC that complements private sector infrastructure and is a necessary predicate to commercial agreements to be signed in the future.

- *Agree to PSP option for ECG and NEDCo.* The details of the agreement were discussed during Compact negotiations and are memorialized in the compact document.

- *Submit an action plan to substantially reduce GoG arrears to ECG and implement plan to move Government Ministries, Departments and Agencies to regular and current payment of utility bills.* The Minister of Finance provided a letter to MCC on June 30, 2014 detailing the total amount of arrears owed to ECG by the GoG and outlining a projected path to repayment.

- *Continue quarterly tariff adjustments.* Ghana’s utility regulator, the Public Utilities Regulatory Commission, announced a quarterly tariff adjustment on June 27, 2014. The new tariff took effect on July 1, 2014.

These were not easy milestones to meet, and they are instrumental to achieving the deep and lasting change MCC and the GoG want to achieve in the energy sector through the Compact. MCC is confident that the GoG’s strong commitment to reform will continue as the Program moves forward.
