EPA intends to grant these requests at the close of the comment period for this announcement unless the Agency receives substantive comments within the comment period that would merit its further review of the requests, or unless the registrants withdraw its requests. If these requests are granted, any sale, distribution, or use of products listed in this notice will be permitted after the registration has been cancelled only if such sale, distribution, or use is consistent with the terms as described in the final order.

**DATES:** Comments must be received on or before February 11, 2015.

**ADDRESSES:** Submit your comments, identified by docket identification (ID) number EPA-HQ-OPP-2014-0440, by one of the following methods:

**SUPPLEMENTARY INFORMATION:**

**I. General Information**

*A. Does this action apply to me?*

This action is directed to the public in general, and may be of interest to a wide range of stakeholders including environmental, human health, and agricultural advocates; the chemical industry; pesticide users; and members of the public interested in the sale, distribution, or use of pesticides.

*B. What should I consider as I prepare my comments for EPA?*

1. *Submitting CBI.* Do not submit this information to EPA through regulations.gov or email. Clearly mark the part or all of the information that you claim to be CBI. For CBI information in a disk or CD-ROM that you mail to EPA, mark the outside of the disk or CD-ROM as CBI and then identify electronically within the disk or CD-ROM the specific information that is claimed as CBI. In addition to one complete version of the comment that includes information claimed as CBI, a copy of the comment that does not

contain the information claimed as CBI must be submitted for inclusion in the public docket. Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2.

2. *Tips for preparing your comments.* When submitting comments, remember to:

- i. Identify the document by docket ID number and other identifying information (subject heading, **Federal Register** date and page number).
- ii. Follow directions. The Agency may ask you to respond to specific questions or organize comments by referencing a Code of Federal Regulations (CFR) part or section number.
- iii. Explain why you agree or disagree; suggest alternatives and substitute language for your requested changes.
- iv. Describe any assumptions and provide any technical information and/or data that you used.
- v. If you estimate potential costs or burdens, explain how you arrived at your estimate in sufficient detail to allow for it to be reproduced.

vi. Provide specific examples to illustrate your concerns and suggest alternatives.

vii. Explain your views as clearly as possible, avoiding the use of profanity or personal threats.

viii. Make sure to submit your comments by the comment period deadline identified.

**II. What action is the Agency taking?**

This notice announces receipt by the Agency of requests from registrants to cancel 209 pesticide products registered under FIFRA section 3 or 24(c). These registrations are listed in sequence by registration number (or company number and 24(c) number) in Table 1 of this unit.

Unless the Agency determines that there are substantive comments that warrant further review of the requests or the registrants withdraw their requests, EPA intends to issue an order in the **Federal Register** canceling all of the affected registrations.

**III. What is the agency's authority for taking this action?**

Section 6(f)(1) of FIFRA provides that a registrant of a pesticide product may at any time request that any of its pesticide registrations be canceled. FIFRA further provides that, before acting on the request, EPA must publish a notice of receipt of any such request in the **Federal Register**.

Section 6(f)(1)(B) of FIFRA requires that before acting on a request for voluntary cancellation, EPA must provide a 30-day public comment period on the request for voluntary cancellation or use termination. In addition, FIFRA section 6(f)(1)(C) requires that EPA provide a 180-day comment period on a request for voluntary cancellation or termination of any minor agricultural use before granting the request, unless:

1. The registrants request a waiver of the comment period, or
2. The EPA Administrator determines that continued use of the pesticide would pose an unreasonable adverse effect on the environment.

The registrants in Table 2 of Unit II. have not requested that EPA waive the 180-day comment period. Accordingly, EPA will provide a 180-day comment period on the proposed requests.

**IV. Procedures for Withdrawal of Request**

Registrants who choose to withdraw a request for cancellation should submit such withdrawal in writing to the person listed under **FOR FURTHER INFORMATION CONTACT**. If the products

have been subject to a previous cancellation action, the effective date of cancellation and all other provisions of any earlier cancellation action are controlling.

#### V. Provisions for Disposition of Existing Stocks

Existing stocks are those stocks of registered pesticide products that are currently in the United States and that were packaged, labeled, and released for shipment prior to the effective date of the cancellation action. Because the Agency has identified no significant potential risk concerns associated with these pesticide products, upon cancellation of the products identified in Table 1 of Unit II., EPA anticipates allowing registrants to sell and distribute existing stocks of these products until January 15, 2015. Thereafter, registrants will be prohibited from selling or distributing the pesticides identified in Table 1 of Unit II., except for export consistent with FIFRA section 17 or for proper disposal. Persons other than registrants will generally be allowed to sell, distribute, or use existing stocks until such stocks are exhausted, provided that such sale, distribution, or use is consistent with the terms of the previously approved labeling on, or that accompanied, the canceled products.

#### Re-Proposal of an NPDES General Permit for Oil and Gas Geotechnical Surveying and Related Activities in Federal Waters of the Beaufort and Chukchi Seas

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice of re-proposal of general permit.

**SUMMARY:** Environmental Protection Agency Region 10 (EPA) re-proposes a National Pollutant Discharge Elimination System (NPDES) General Permit for Oil and Gas Geotechnical Surveying and Related Activities in

Federal Waters of the Beaufort and Chukchi Seas (Permit No. AKG-28-4300). On November 22, 2013, EPA released a draft NPDES general permit for oil and gas geotechnical surveys and related activities in federal waters of the Beaufort and Chukchi Seas for public review. The public comment period closed on February 19, 2014. Based on the comments received, EPA has made revisions to the draft Geotechnical General Permit and re-proposes a revised draft for public review accompanied by a Fact Sheet describing the revisions and a revised Ocean Discharge Criteria Evaluation.

EPA seeks public comment only on the following proposed changes: (1) Inclusion of seasonal prohibitions on wastewater discharges specific to the 3-25 mile lease deferral area in the Chukchi Sea; (2) Clarification of drilling fluid testing requirements (Discharge 001); (3) Clarification of Environmental Monitoring Program requirements and inclusion of language regarding pre-existing baseline data; (4) Revision of sampling frequencies for fecal coliform and total residual chlorine (Sanitary Wastewater, Discharge 003); and (5) Clarification of Notice of Intent submission requirements.

As proposed, the Geotechnical General Permit authorizes twelve types of discharges from facilities engaged in oil and gas geotechnical surveys to evaluate the subsurface characteristics of the seafloor and related activities in federal waters of the Beaufort and Chukchi Seas. Geotechnical borings are collected to assess the structural properties of subsurface soil conditions for potential placement of oil and gas installations, which may include production and drilling platforms, ice islands, anchor structures for floating exploration drilling vessels, and potential buried pipeline corridors. Geotechnical surveys result in a disturbance of the seafloor and produce discharges consisting of soil, rock and cuttings materials, in addition to facility-specific waste streams authorized under this general permit. Geotechnical related activities also result in a disturbance of the seafloor and produce similar discharges. These activities may include feasibility testing of equipment that disturbs the seafloor, and testing and evaluation of trenching technologies.

**DATES:** *Comments.* The public comment period for the re-proposed Geotechnical General Permit will be from the date of publication of this document until September 15, 2014. Comments must be received or post-marked by no later than midnight Pacific Standard Time on

September 15, 2014. EPA will only consider comments on the re-proposed permit provisions. Comments submitted previously on the initial draft Geotechnical General Permit need not be resubmitted; comments addressing permit provisions or issues beyond the scope of this re-proposal will not be considered.

**ADDRESSES:** EPA will consider comments on the re-proposed permit provisions before making its final decision. You may submit comments by any of the following methods.

*Mail:* Send paper comments to Erin Seyfried, Office of Water and Watersheds, Mail Stop OWW-130, 1200 6th Avenue, Suite 900, Seattle, WA 98101-3140.

**SUPPLEMENTARY INFORMATION:** On November 22, 2013, EPA issued a draft Geotechnical General Permit for public review, and established a comment deadline of January 27, 2014 (78 FR 70042). In response to requests for an extension of the deadline from the Alaska Eskimo Whaling Commission and the Inupiat Community of the Arctic Slope, EPA extended the comment period for an additional 23 days, from January 27, 2014 to February 19, 2014 (79 FR 4344).

Based on the comments received during the public review of the draft Geotechnical General Permit, EPA determined that certain permit
