Lockhart Power Company, Inc.; Notice of Availability of Final Environmental Assessment

In accordance with the National Environmental Policy Act of 1969 (NEPA) and the Federal Energy Regulatory Commission's (Commission or FERC) regulations, 18 CFR pt. 380, the Office of Energy Projects has reviewed Lockhart Power Company, Inc.'s application for license for the Riverdale Hydroelectric Project (FERC Project No. 13590-001), located on the Enoree River, near the town of Enoree, in Spartanburg and Laurens Counties, South Carolina. The project does not occupy federal lands.

Staff prepared a final environmental assessment (FEA), which analyzes the potential environmental effects of licensing the project, and concludes that licensing the project, with appropriate environmental protective measures, would not constitute a major federal action that would significantly affect the quality of the human environment.

A copy of the FEA is available for review at the Commission in the Public Reference Room or may be viewed on the Commission's Web site at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance, contact FERC Online Support at FERCOnlineSupport@ferc.gov, at (866) 208-3676 (toll free), or, 202-502-8659 (TTY).

You may also register online at <http://www.ferc.gov/docs-filing/esubscription.asp> to be notified via email of new filings and issuances related to this or other pending projects. For assistance, contact FERC Online Support.

[Docket No. CP14-514-000]

ANR Pipeline Company; Notice of Intent To Prepare an Environmental Assessment for the Proposed Sulphur Springs Compression Project and Request for Comments on Environmental Issues

August 15, 2014.

The staff of the Federal Energy Regulatory Commission (FERC or Commission) will prepare an environmental assessment (EA) that will discuss the environmental impacts of the Sulphur Springs Compression Project involving construction and operation of facilities by ANR Pipeline Company (ANR) in Henry County, Indiana. The Commission will use this EA in its decision-making process to determine whether the project is in the public convenience and necessity.

This notice announces the opening of the scoping process the Commission will use to gather input from the public and interested agencies on the project. Your input will help the Commission staff determine what issues they need to evaluate in the EA. Please note that the scoping period will close on September 15, 2014.

This notice is being sent to the Commission's current environmental mailing list for this project. State and local government representatives should notify their constituents of this proposed project and encourage them to comment on their areas of concern.

ANR provided landowners with a fact sheet prepared by the FERC entitled "An Interstate Natural Gas Facility On My Land? What Do I Need To Know?" This fact sheet addresses a number of typically-asked questions, including the use of eminent domain and how to participate in the Commission's proceedings. It is also available for viewing on the FERC Web site (www.ferc.gov).

Summary of the Proposed Project

ANR proposes to construct and operate one new compressor unit and appurtenant facilities at its existing Sulphur Springs Compressor Station in Henry County, Indiana. The Sulphur Springs Compression Project would provide about 133.6 million standard cubic feet of natural gas per day to ANR's wholly owned portion of the Lebanon Lateral which connects the Glen Karn meter facilities in Darke County, Ohio to the Sulphur Springs Compressor Station.
