## DEPARTMENT OF ENERGY

### Federal Energy Regulatory Commission

[Docket No. CP14-532-000]

#### Tennessee Gas Pipeline Company, L.L.C.; Notice of Request Under Blanket Authorization

Take notice that on August 8, 2014, Tennessee Gas Pipeline Company, L.L.C. (Tennessee), 1001 Louisiana Street, Houston, Texas 77002, filed in Docket No. CP14-532-000, a prior notice request pursuant to sections 157.205 and 157.216 of the Commission's regulations under the Natural Gas Act (NGA) as amended, requesting authorization to abandon an inactive injection and withdrawal well (Well 4789) and related lateral pipeline and appurtenances in the Hebron Storage Field in Potter County, Pennsylvania, all as more fully set forth in the application which is on file with the Commission and open to public inspection. The filing may also be viewed on the web at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance, please contact FERC Online Support at [FERCOnlineSupport@ferc.gov](mailto:FERCOnlineSupport@ferc.gov) or toll free at (866) 208-3676, or TTY, contact (202) 502-8659.

Specifically, Tennessee proposes to plug and abandon Well 4789 and abandon by removal the related well head, a meter run, approximately 350 feet of 6-inch diameter lateral pipeline and riser. Tennessee states that it has made numerous attempts to clean and repair Well 4789, which have proved unsuccessful. Tennessee asserts that Well 4789 is inactive and, due to its mechanical condition, cannot be utilized as an injection and withdrawal well. Tennessee avers that the proposed abandonment of Well 4789 will not affect either the capacity or deliverability of the Hebron Storage Field and has not been used to provide service to any customer for more than 12 months. Tennessee estimates the cost of the proposed project to be \$545,860.

Any questions concerning this application may be directed to Thomas G. Joyce, Manager, Certificates, Tennessee Gas Pipeline Company, L.L.C., 1001 Louisiana Street, Houston, Texas 77002, by telephone at (713) 420-3299, or by email [tom\\_joyce@kindermorgan.com](mailto:tom_joyce@kindermorgan.com); John E. Griffin, Assistant General Counsel, Tennessee Gas Pipeline Company, L.L.C., 1001 Louisiana Street, Houston, Texas 77002, by telephone at (713) 420-5751, or by email at [john\\_griffin2@kindermorgan.com](mailto:john_griffin2@kindermorgan.com); or Debbie Kalisek, Regulatory Analyst, Tennessee Gas Pipeline Company, L.L.C., 1001 Louisiana Street, Houston, Texas 77002, by telephone at (713) 420-3292, or by email at [debbie\\_kalisek@kindermorgan.com](mailto:debbie_kalisek@kindermorgan.com).

Any person or the Commission's staff may, within 60 days after issuance of the instant notice by the Commission, file pursuant to Rule 214 of the Commission's Procedural Rules (18 CFR 385.214) a motion to intervene or notice of intervention and pursuant to section 157.205 of the regulations under the NGA (18 CFR 157.205), a protest to the request. If no protest is filed within the time allowed therefore, the proposed activity shall be deemed to be authorized effective the day after the time allowed for filing a protest. If a protest is filed and not withdrawn within 30 days after the allowed time for filing a protest, the instant request shall be treated as an application for authorization pursuant to section 7 of the NGA.

Pursuant to section 157.9 of the Commission's rules, 18 CFR 157.9, within 90 days of this Notice the Commission staff will either: complete its environmental assessment (EA) and place it into the Commission's public record (eLibrary) for this proceeding, or issue a Notice of Schedule for Environmental Review. If a Notice of Schedule for Environmental Review is issued, it will indicate, among other milestones, the anticipated date for the Commission staff's issuance of the final environmental impact statement (FEIS) or EA for this proposal. The filing of the EA in the Commission's public record for this proceeding or the issuance of a Notice of Schedule for Environmental Review will serve to notify federal and state agencies of the timing for the completion of all necessary reviews, and the subsequent need to complete all federal authorizations within 90 days of the date of issuance of the Commission staff's FEIS or EA.

Persons who wish to comment only on the environmental review of this project should submit an original and two copies of their comments to the

Environmental commenter's will not be required to serve copies of filed documents on all other parties. However, the non-party commentary, will not receive copies of all documents filed by other parties or issued by the Commission (except for the mailing of environmental documents issued by the Commission) and will not have the right to seek court review of the Commission's final order.

The Commission strongly encourages electronic filings of comments, protests and interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and 7 copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426.

**What information is EPA particularly interested in?**

Pursuant to section 3506(c)(2)(A) of the PRA, EPA specifically solicits comments and information to enable it to:

(i) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(ii) Evaluate the accuracy of the Agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(iii) Enhance the quality, utility, and clarity of the information to be collected; and

(iv) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses. In particular, EPA is requesting comments from very small businesses (those that employ less than 25) on examples of specific additional efforts that EPA could make to reduce the paperwork

burden for very small businesses affected by this collection.

**What should I consider when I prepare my comments for EPA?**

You may find the following suggestions helpful for preparing your comments:

1. Explain your views as clearly as possible and provide specific examples.

2. Describe any assumptions that you used.

3. Provide copies of any technical information and/or data you used that support your views.

4. If you estimate potential burden or costs, explain how you arrived at the estimate that you provide.

5. Offer alternative ways to improve the collection activity.

6. Make sure to submit your comments by the deadline identified under **DATES**.

7. To ensure proper receipt by EPA, be sure to identify the docket ID number assigned to this action in the subject line on the first page of your response. You may also provide the name, date, and **Federal Register** citation.

**What information collection activity or ICR does this apply to?**

**Affected entities:** Entities potentially affected by this action are State, Local, Territorial, Indian Nations, and Commonwealth governments.

**Title:** Air Stationary Source Compliance and Enforcement Information Reporting.

**ICR numbers:** EPA ICR No. 0107.011, OMB Control No. 2060–0096.

**ICR status:** This ICR is currently scheduled to expire on Jan. 31, 2015. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, and are displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

**Abstract:** Air Stationary Source Compliance and Enforcement Information Reporting is an activity whereby State, Local, Native American, Territorial, and Commonwealth governments (hereafter referred to as either "states/locals" or "state and local agencies") make air stationary source compliance and enforcement information available to the U.S.

Environmental Protection Agency (EPA or the Agency) on a cyclic basis via input to the Air Facility System (AFS), until mid October 2014, and via input to the modernized AFS—the Air component of the Integrated Compliance Information System (ICIS-Air), from late October 2014 forward. The Agency, with support from state and local agencies, is nearing completion of the modernization of AFS into ICIS-Air. The planned date of the implementation of ICIS-Air is October 27, 2014.

ICIS-Air supports EPA and state and local agency efforts to ensure compliance with the nation's environmental laws pertaining to air, via the collection and management of important Clean Air Act (CAA or the "Act") compliance and enforcement information. The information to be provided to EPA via ICIS-Air includes source characterization, compliance monitoring, and enforcement activities. EPA will use this information to assess progress toward meeting emission requirements developed under the authority of the CAA, and to protect and maintain air quality, public health, and the environment. Agencies receive delegation of the CAA through regulated grant authorities, and report compliance/enforcement activities undertaken at stationary sources pursuant to the Minimum Data Requirements (MDRs) as outlined in this ICR. The provisions of Section 114(a)(1) of the Clean Air Act, 42 U.S.C. Section 7414(a)(1) provide the broad authority for the reporting of compliance monitoring and enforcement information, along with Subpart Q-Reports in 40 CFR 51: Sections 51.324(a) and (b), and 51.327. This renewal requires the continuation of reporting of previously established MDRs via a new information system solution—ICIS-Air instead of AFS. Since AFS will be replaced by ICIS-Air prior to the official renewal of this ICR, we are including in the Supporting Statement a crosswalk between the MDRs expressed as the current AFS data elements and as the new ICIS-Air data elements.

#### **Are there changes in the estimates from the last approval?**

The current EPA database for which these data are reported (i.e., AFS) will not exist at the time of this ICR renewal; therefore, EPA will not perform a new burden estimate based on reporting to AFS. Since the new, replacement system, ICIS-Air, is not yet implemented in a production environment, we cannot use the new system to develop a new burden estimate for future reporting to ICIS-Air at the current time. EPA will

estimate burden in the **Federal Register** notice with the ICR to the best of its ability and will take comment on those estimates.

While transition to the new ICIS-Air system will require some investment at the federal, state and local levels, EPA believes that by providing a modern and more capable information system, states and locals as a group will experience a significant overall reduction in reporting burden. This will occur for states/locals that are direct users, as well as for those using electronic data transfer (EDT) to report MDRs to ICIS-Air. In addition to the anticipated burden reduction associated with completion of AFS modernization to ICIS-Air, EPA is nearing completion of two major policy revisions—the High Priority Violations (HPV) and Federally Reportable Violations (FRV) policies—that will result in a narrowing of the scope of CAA enforcement and compliance reporting as compared to the previous ICR renewal cycle. These policy revisions will result in additional burden reduction for state and local agencies.

EPA does anticipate that operational and maintenance costs associated with state and local agency reporting will increase modestly due to inflationary pressures (e.g., increased hourly resource costs for management, professional, and related occupational groups). The labor rates used in the ICR estimates will be taken from the Department of Labor Employment Compensation and Costs (ECEC) Web site. These changes will be reflected in the final supporting statement for this ICR.

#### **What is the next step in the process for this ICR?**

EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will be submitted by EPA to OMB for review and approval pursuant to 5 CFR 1320.12. At that time, EPA will issue another **Federal Register** notice pursuant to 5 CFR 1320.5(a)(1)(iv) to announce the submission of the ICR to OMB, and a second opportunity to submit additional comments to OMB. If you have any questions about this ICR, or the approval process, please contact the technical person listed under **FOR FURTHER INFORMATION CONTACT**.

Dated: August 15, 2014.
