Disclosure and Public Comment

The Department will disclose to interested parties the calculations performed in connection with these preliminary results within five days of the date of publication of this notice.⁴ Pursuant to 19 CFR 351.309(c), interested parties may submit cases briefs no later than 30 days after the date of publication of this notice.⁵ Rebuttal briefs, limited to issues raised in the case briefs, may be filed not later than five days after the date for filing case briefs.⁶ Parties who submit case briefs or rebuttal briefs in this proceeding are encouraged to submit with each argument: (1) A statement of the issue; (2) a brief summary of the argument; and (3) a table of authorities.⁷ Case and rebuttal briefs should be filed using IA ACCESS.⁸ In order to be properly filed, IA ACCESS must successfully receive an electronically-filed document in its entirety by 5 p.m. Eastern Time.

Pursuant to 19 CFR 351.310(c), interested parties who wish to request a hearing, or to participate if one is requested, must submit a written request to the Assistant Secretary for Enforcement and Compliance, filed electronically via IA ACCESS, within 30 days after the date of publication of this notice.⁹ Requests should contain: (1) The party's name, address, and telephone number; (2) the number of participants; and (3) a list of issues to be discussed. Issues raised in the hearing will be limited to those raised in the respective case briefs.

The Department will issue the final results of this administrative review, including the results of its analysis of the issues raised in any written briefs, not later than 120 days after the date of publication of this notice, pursuant to section 751(a)(3)(A) of the Act, unless that time is extended.

Assessment Rates

Upon completion of the administrative review, the Department shall determine, and U.S. Customs and Border Protection (CBP) shall assess, antidumping duties on all appropriate

entries in accordance with 19 CFR 351.212(b)(1). We intend to issue instructions to CBP 15 days after the date of publication of the final results of this review.

If Jindal's or SRF's weighted-average dumping margins are not zero or *de minimis* (i.e., less than 0.5 percent) in the final results of this review, we will calculate an importer-specific assessment rate on the basis of the ratio of the total amount of dumping calculated for the importer's examined sales and the total entered value of the sales in accordance with 19 CFR 351.212(b)(1). Where the respondents' weighted-average dumping margin is zero or *de minimis*, or an importer-specific assessment rate is zero or *de minimis*, we will instruct CBP to liquidate the appropriate entries without regard to antidumping duties.

Cash Deposit Requirements

The following deposit requirements will be effective for all shipments of PET Film from India entered, or withdrawn from warehouse, for consumption on or after the date of publication of the final results of this administrative review, as provided for by section 751(a)(2)(C) of the Act: (1) The cash deposit rate for the company under review will be the rate established in the final results of this review (except, if the rate is zero or *de minimis*, i.e., less than 0.5 percent, no cash deposit will be required); (2) for previously reviewed or investigated companies not listed above, the cash deposit rate will continue to be the company-specific rate published for the most recent period; (3) if the exporter is not a firm covered in this review, a prior review, or the less-than-fair-value investigation, but the manufacturer is, the cash deposit rate will be the rate established for the most recent period for the manufacturer of the merchandise; and (4) if neither the exporter nor the manufacturer is a firm covered in this or any previous review, the cash deposit rate will be the all others rate for this proceeding, 5.71 percent. These deposit requirements, when imposed, shall remain in effect until further notice.

Notification to Interested Parties

This notice also serves as a preliminary reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Secretary's presumption that

reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

We are issuing and publishing these results in accordance with sections 751(a)(1) and 777(i)(1) of the Act.

Dated: August 18, 2014.

Ronald K. Lorentzen,

Acting Assistant Secretary for Enforcement and Compliance.

DEPARTMENT OF COMMERCE

International Trade Administration

Reestablishment of the Renewable Energy and Energy Efficiency Advisory Committee and Solicitation of Nominations for Membership; Amendment

AGENCY: Renewable Energy and Energy Efficiency Advisory Committee; International Trade Administration, Department of Commerce.

ACTION: Notice of Reestablishment of the Renewable Energy and Energy Efficiency Advisory Committee and Solicitation of Nominations for Membership; Amendment.

SUMMARY: This notice amends the Department of Commerce, International Trade Administration Notice of Reestablishment of the Renewable Energy and Energy Efficiency Advisory Committee (the Committee) and Solicitation of Nominations for Membership of June 23, 2014 (79 FR 35524) to revise the eligibility criteria to permit federally-registered lobbyists to apply for membership on the Committee. The Department of Commerce recently revised its policy regarding appointment of federally-registered lobbyists to Department advisory committees following a policy clarification by the Office of Management and Budget that the eligibility restriction does not apply to advisory committee members who serve in a representative capacity (see 79 FR 47482). Notwithstanding the language in the Committee charter, the Secretary of Commerce (the Secretary) will now consider nominations of federally-registered lobbyists for appointment on the Committee. We are in the process of amending the charter. This notice also extends the deadline for submitting applications to August 29, 2014. All

other eligibility criteria continue to apply.

In June 2014, the Department of Commerce reestablished the Committee. The Committee advises the Secretary regarding the development and administration of programs and policies to expand the competitiveness of U.S. exports of renewable energy and energy efficiency goods and services, in accordance with applicable United States regulations. The Committee's work on energy efficiency focuses on technologies, services, and platforms that provide system-level energy efficiency to electricity generation, transmission, and distribution. These include smart grid technologies and services, as well as equipment and systems that increase the resiliency of power infrastructure. For the purposes of this Committee, covered goods and services will not include vehicles, feedstock for biofuels, or energy efficiency at it relates to consumer goods. Non-fossil fuels that are considered renewable fuels (e.g., liquid biofuels and pellets) are included.

DATES: Nominations must be received on or before 4 p.m. Eastern Daylight Time (EDT) on August 29, 2014.

FOR FURTHER INFORMATION CONTACT: Ryan Mulholland, Office of Energy & Environmental Industries, Room 4053, U.S. Department of Commerce, 1401 Constitution Avenue NW., Washington, DC 20230; phone 202–482–4693; fax 202–482–5665; email Ryan.Mulholland@trade.gov.

SUPPLEMENTARY INFORMATION: As announced previously, pursuant to the provisions of the Federal Advisory Committee Act, 5 U.S.C. App., the Department of Commerce reestablished the Committee on June 12, 2014 for a period of two years.

The Committee consists of approximately 35 members appointed by the Secretary in accordance with applicable Department of Commerce guidance and based on their ability to carry out the objectives of the Committee. Members represent U.S. companies, U.S. trade associations, and U.S. private sector organizations with activities focused on the export competitiveness of U.S. renewable energy and energy efficiency goods and services. In selecting members, Commerce considers whether the members reflect the diversity of this sector, including in terms of entity or organization size, geographic location, and subsector represented, and represent the diversity of company or organizational roles in the development of renewable energy and energy efficiency projects, including project
