

would authorize Foundation observers aboard commercial hook-and-line snapper-grouper vessels to temporarily possess all necessary specimens from the catch for documentation and to permanently retain approximately 500 specimens of federally managed finfishes and invertebrates that would otherwise be prohibited from possession and retention through the duration of the EFP. All other fish collected will either be returned to the water or retained if they are able to be included as part of the legal commercial catch. Data collections for this study would support improved information about the catch, bycatch, discards, and discard mortality for species in the snapper-grouper complex. These data would provide insight on a stock's resilience to fishing, and would help provide improved estimates of long-term biological productivity of the stocks. Currently, these data are limited, and project results are anticipated to yield valuable data within this fishery.

NMFS finds this application warrants further consideration. The limited sampling program and associated sampling methodology listed in the EFP is not expected to impact the fishery stocks; the estimated 500 fish to be retained in the 24-month period represents a small fraction of the average annual landings. Possible conditions the agency may impose on this permit, if it is granted, include but are not limited to, a prohibition of conducting research within marine protected areas, marine sanctuaries, or special management zones, without additional authorization. Additionally, NMFS will prohibit the possession of Nassau or goliath grouper, and require any sea turtles taken incidentally during the course of fishing or scientific research activities to be handled with due care to prevent injury to live specimens, observed for activity, and returned to the water. All Foundation-associated personnel who conduct onboard sampling activities have undergone formal sea turtle handling training through NMFS, and are considered NMFS-designated agents while conducting work under the identified Cooperative Agreements.

A final decision on issuance of the EFP will depend on a NMFS review of public comments received on the application, consultations with the affected states, the South Atlantic Fishery Management Council, and the U.S. Coast Guard, and a determination that the EFP is consistent with all applicable laws.

## DEPARTMENT OF COMMERCE

### National Oceanic and Atmospheric Administration

**RIN 0648-XD466**

#### North Pacific Fishery Management Council; Public Meeting

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Notice of a public meeting.

**SUMMARY:** The North Pacific Fishery Management Council's (NPFMC) Bering Sea Aleutian Islands (BSAI) Crab Plan Team (CPT) in Seattle, WA.

**DATES:** The meeting will be held September 15-18, 2014. The meeting will be held from 9 a.m. until 5 p.m., each day.

**ADDRESSES:** The meeting will be held at the Alaska Fishery Science Center, 7600 Sand Point Way NE., Building 4, Seattle, WA.

*Council address:* North Pacific Fishery Management Council, 605 W. 4th Avenue, Suite 306, Anchorage, AK 99501-2252.

**FOR FURTHER INFORMATION CONTACT:** Diana Stram, telephone: (907) 271-2809.

**SUPPLEMENTARY INFORMATION:** The Plan Team will review and make final 2014/15 recommendations on specifications (Over Fishing Levels (OFLs) and Acceptable Biological Catch (ABCs) for 7 BSAI crab stocks as well as review developing stock assessment models, and make recommendations for the next assessment cycle.

The Agenda is subject to change, and the latest version will be posted at <http://www.npfmc.org/>.

Although non-emergency issues not contained in this agenda may come before this group for discussion, in accordance with the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act), those issues may not be the subject of formal action during this meeting. Actions will be restricted to those issues specifically identified in this notice and any issues arising after publication of this notice that require emergency action under Section 305(c) of the Magnuson-Stevens Act, provided the public has been notified of the Council's intent to take final action to address the emergency.

## Special Accommodations

These meetings are physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to Gail Bendixen at (907) 271-2809 at least 7 working days prior to the meeting date.

Dated: August 25, 2014.

#### New England Fishery Management Council; Public Meeting

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Notice; public meeting.

**SUMMARY:** The New England Fishery Management Council's (Council) Scientific and Statistical Committee (SSC) will meet to consider actions affecting New England fisheries in the exclusive economic zone (EEZ).

**DATES:** The meeting will be held on Monday, September 15, 2014 at 8 a.m.

**ADDRESSES:** The meeting will be held at the Courtyard by Marriott/Boston Logan Airport, 225 McClellan Highway, Boston, MA 02128; telephone: (617) 569-5250.

*Council address:* New England Fishery Management Council, 50 Water Street, Mill 2, Newburyport, MA 01950.

**FOR FURTHER INFORMATION CONTACT:** Thomas A. Nies, Executive Director, New England Fishery Management Council; telephone: (978) 465-0492.

**SUPPLEMENTARY INFORMATION:**

#### Agenda Items

The New England Fishery Management Council's Scientific and Statistical Committee (SSC) will meet to review stock assessment information, consider information provided by the Scallop Plan Development Team (PDT) and develop overfishing level (OFL) and acceptable biological catch (ABC) recommendations for Atlantic sea scallops for fishing years 2015-16. They will review stock assessment information, consider information provided by the Groundfish PDT and
