Submission for OMB Review; Comment Request

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

Agency: National Oceanic and Atmospheric Administration (NOAA).

Title: Economic Surveys of American Samoa, Guam and the Commonwealth of the Northern Mariana Islands (CNMI) Small Boat-Based Fisheries.

OMB Control Number: 0648-0635.

Form Number(s): NA.

Type of Request: Regular submission (extension of a current information collection).

Number of Respondents: 180.

Average Hours per Response: 10 minutes.

Burden Hours: 80.

Needs and Uses: This request is for extension of a currently approved information collection.

The National Marine Fisheries Service (NMFS) collects information about fishing expenses in the American Samoa, Guam, and the Commonwealth of the Northern Mariana Islands (CNMI) boat-based reef fish, bottomfish, and pelagics fisheries with which to conduct economic analyses that will improve fishery management in those fisheries; satisfy NMFS' legal mandates under Executive Order 12866, the Magnuson-Steven Fishery Conservation and Management Act (U.S.C. 1801 et seq.), the Regulatory Flexibility Act, the Endangered Species Act, and the National Environmental Policy Act; and quantify achievement of the performances measures in the NMFS Strategic Operating Plans. An example of these performance measures: the economic data collected will allow quantitative assessment of the fisheries

sector's social and economic contribution, linkages and impacts of the fisheries sector to the overall economy through Input-output (I-O) models analyses. Results from I-O analyses will not only provide indicators of social-economic benefits of the marine ecosystem, a performance measure in the NMFS Strategic Operating Plans, but also be used to assess how fishermen and economy will be impacted by and respond to regulations likely to be considered by fishery managers. These data are collected in conjunction with catch and effort data already being collected in this fishery as part of its creel survey program.¹ Participation in the economic data collection is voluntary.

Affected Public: Individuals or households.

Frequency: On occasion.

Respondent's Obligation: Voluntary.
