SUPPLEMENTARY INFORMATION: This document announces that, on August 15, 2014, OMB approved the information collection requirements contained in the Commission's *Report and Order*, FCC 13-111, published at 79 FR 8308, February 12, 2014. The OMB Control Number is 3060-0678. While not all the revisions to part 25 adopted in the *Report and Order* required approval by OMB under the PRA, many did. Those requirements could not go into effect until OMB approved the information collection requirements and the Commission published a notice announcing the effective date of those requirements. To avoid confusion, all rule changes adopted in the *Report and Order* will become effective on the same date. The Commission publishes this notice as an announcement of the effective date of the requirements. Publication of this effective date announcement does not alter the revisions and amendments made to the publication of FCC 13-111 at 79 FR 8308 in 79 FR 44312 (47 CFR 25.140(b)); 79 FR 44140 (47 CFR 25.285(a)(2)); 79 FR 27502 (47 CFR 25.149(a)(1)); or 79 FR 27503 (47 CFR 25.113). Additionally, the Definition of Earth Stations Aboard Aircraft in 47 CFR 25.103 adopted April 17, 2014, and released on April 18, 2014 (FCC 14-45), should remain as published at 79 FR 26863, May 12, 2014; effective June 11, 2014. If you have any comments on the burden estimates listed below, or how the Commission can improve the collections and reduce any burdens caused thereby, please contact Cathy Williams, Federal Communications Commission, Room 1-C823, 445 12th Street SW., Washington, DC 20554. Please include the OMB Control Number, 3060-0678, in your correspondence. The Commission will also accept your comments via the Internet if you send them to *PRA@fcc.gov*.

Nature and Extent of Confidentiality: In general, there is no need for confidentiality with this collection of information.

Privacy Impact Assessment: No impact(s).

Needs and Uses: On August 9, 2013, the Federal Communications Commission (Commission) released a Report and Order (R&O) titled, "In the Comprehensive Review of Licensing and Operating Rules for Satellite Services," FCC 13–111. In this R&O, the Commission adopted comprehensive changes to Part 25 of the Commission's rules, which governs licensing and operation of space stations and earth stations for the provision of satellite communication services. Many of the amendments are substantive changes intended to afford licensees as much operational flexibility as possible consistent with minimizing harmful interference and easing administrative burdens on licensees, applicants, and the Commission. Additionally, this information collection is revised by incorporating existing separate information collection requirements under Part 25 into this information collection. Specifically, the revision of OMB Control No. 3060–0678 (Part 25 of the Commission's Rules) consolidated information collections that were approved under OMB Control Nos. 3060–0768 (28 GHz Band Segmentation Plan), 3060–0955 (2 GHz Mobile Satellite Service Reports), 3060–0962 (Redesignation of the 18 GHz Band), 3060–0994 (Flexibility for Delivery of Communications by MSS Providers), 3060–1013 (Mitigation of Orbital Debris), 3060–1014 (Ku-band NGSO FSS), 3060–1059 (Global Mobile Personal Communications by Satellite (GMPCS)/E911 Call Centers), 3060–1061 (Earth Stations on Board Vessels (ESVs)), 3060–1066 (Renewal of Application for Satellite Space and Earth Station Authorization), 3060–1067 (Qualification Questions), 3060–1095 (Surrenders of Authorizations), 3060–1097 (Rules for Broadcasting Satellite Service), 3060–1106 (Vehicle Mounted Earth Stations (VMES)), 3060–1108 (Consummation of Assignments and Transfers of Control), 3060–1153 (Satellite Digital Radio Service (SDARS)), and 3060–1187 (Earth Stations Aboard Aircraft (ESAA)) into collection 3060–0678. Therefore, the number of respondents, number of responses, annual burden hours and annual costs have been amended from the previous submission that was approved by the Office of Management and Budget (OMB) on March 13, 2013.

The information collection requirements accounted for in this

collection are needed to determine the technical and legal qualifications of applicants or licensees to operate a station and to determine whether the authorization is in the public interest, convenience, and necessity. Without such information, the Commission could not determine whether to permit respondents to provide telecommunications services in the United States. Therefore, the Commission would not be able to fulfill its statutory responsibilities in accordance with the Communications Act of 1934, as amended, and the obligations imposed on parties to the World Trade Organization (WTO) Basic Telecom Agreement.

Radio Broadcasting Services; Caseville, Harbor Beach, Lexington, and Pigeon, Michigan

AGENCY: Federal Communications Commission.

ACTION: Final rule; petitions for reconsideration.

SUMMARY: The Audio Division grants Petitions for Reconsideration filed by Edward Czelada ("Czelada") and Sanilac Broadcasting Company ("Sanilac") and reserves Channel 256A at Lexington, Michigan, for noncommercial educational ("NCE") use because no other channels in the reserved FM band are available; and the channel would provide a first or second NCE service to more than 2,000 persons who constitute ten percent of the population within the allotment's 60 dBu contour. *See also* **SUPPLEMENTARY INFORMATION.**

DATES: *Effective* October 6, 2014.

SUPPLEMENTARY INFORMATION: This is a synopsis of the Commission's *Memorandum Opinion and Order*, MB Docket Nos. 01–229 and 01–231; DA 14–1215, adopted August 21, 2014, and released August 22, 2014. The full text of this document is available for

inspection and copying during normal business hours in the FCC Reference Information Center (Room CY–A257), 445 12th Street SW., Washington, DC 20554. The complete text of this document may also be purchased from the Commission's duplicating contractor, Best Copy and Printing, Inc., Portals II, 445 12th Street SW., Room CY–B402, Washington, DC 20554, telephone 1–800–378–3160 or *bcpiweb.com*.

The *Report and Order* in this consolidated proceeding, *inter alia*, allotted Channel 256A at Lexington, Michigan, on an unreserved basis in response to a Counterproposal filed by Czelada. *See* 71 FR 246, January 4, 2006. Czelada seeks reconsideration because the *Report and Order* was silent on his alternative request to reserve Channel 256A at Lexington for NCE use. Liggett Communications, a broadcast licensee that was not previously a party to this proceeding, expresses an interest in Channel 256A on an unreserved basis and argues that the channel should not be reserved for NCE use because Czelada had made "no showing" for the reservation.

In the *Memorandum Opinion and Order*, the staff takes three actions. First, although Czelada's Petition for Reconsideration was improperly addressed and was not received at the Office of the Secretary by the filing deadline, the staff, on its own motion, waives § 1.429(d) and (h) of the Commission's rules in order to reach the merits. Second, contrary to Leggett's contention, the staff finds that Czelada's reservation showing was sufficient and that the public interest would be served by reserving Channel 256A at Lexington for NCE use because the allotment would provide a first or second NCE service to 4,090 persons. Third, the staff concludes that Liggett's expression of interest in Channel 256A at Lexington is late filed and cannot be considered.

Although the *Report and Order* allotted Channel 256A at Lexington, Michigan, on an unreserved basis, we note that the channel was inadvertently removed. *See* 71 FR 76208, December 20, 2006. Accordingly, we add the channel and reserve it for NCE use.

The Commission will send a copy of the *Memorandum Opinion and Order* in a report to Congress and the Government Accountability Office pursuant to the Congressional Review Act, *see* 5 U.S.C. 801(a)(1)(A).
