OMB Control Number: 3060-0484.

Title: Section 4.9, Part 4 of the Commission's Rules Concerning Disruptions to Communications.

Form Number: N/A.

Type of Review: Revision of a currently approved collection.

Respondents: Business or other for-profit entities, not-for profit institutions.

Number of Respondents: Approximately 1,100 respondents; 15,444 responses per year.

Estimated Time per Response: No more than 2.5 hours per occurrence.

Frequency of Response: On occasion and annual reporting requirements,

recordkeeping requirement and third party disclosure requirement.

Obligation to Respond: Mandatory. Statutory authority for this collection of information is contained in 47 U.S.C. 151, 154(i)-(j) & (o), 201(b), 214(d), 218, 251(e)(3), 301, 303(b), 303(g), 303(r), 307, 309(a), 316, 332, 403, 615a-1, and 615c.

Total Annual Burden: 29,870 hours.

Total Annual Cost: \$0.

Privacy Impact Assessment: No impacts.

Nature and Extent of Confidentiality: Network Outage Reporting System (NORS) outage reports filed with the Commission pursuant to Part 4 of its rules are presumed confidential. The information in those filings may be shared with the Department of Homeland Security only under appropriate confidential disclosure provisions. Other persons seeking disclosure must follow the procedures delineated in 47 CFR 0.457 and 0.459 of the Commission's rules for requests for and disclosure of information. The revisions to this information collection require information to be transmitted to third parties, not to the FCC. Accordingly, the Commission cannot, and does not, guarantee confidentiality of information provided directly to public safety answering points (PSAPs). The revisions do not affect the confidential treatment of information provided directly to the FCC through NORS.

Needs and Uses: The Commission is seeking OMB approval for a revision of this information collection in order to obtain the full three year approval from OMB. The Commission is reporting a 223-hour increase in its previous annual burden estimates. The increase is due to adoption of FCC 13-158, a Report and Order establishing more specific outage notification obligations for Covered 911 Service Providers, which are the respondents subject to the revised requirements of this information collection.

Previous FCC rules required certain communications providers to notify PSAPs of 911 outages "as soon as possible" with "all available information that may be useful." The revisions to this information collection respond to the derecho storm that struck the Midwest and Mid-Atlantic United States in June 2012, causing significant disruptions in 911 service. Through its inquiry into these 911 outages, the Commission learned that many PSAPs' efforts to restore service were complicated by inadequate information and ineffective communication by 911 service providers. Consequently, the Commission amended section 4.9 of its
