Southwestern Power Administration

Robert D. Willis Power Rate

AGENCY: Southwestern Power Administration, DOE.

ACTION: Notice of public review and comment.

SUMMARY: The Administrator, Southwestern Power Administration (Southwestern), has prepared Current and Revised 2014 Power Repayment Studies for the Robert D. Willis project which show the need for an increase in annual revenues to meet cost recovery criteria. Such increased revenues are needed primarily to cover the costs associated with increased investments and replacements in the hydroelectric generating facilities and increased operations and maintenance costs. The Administrator of Southwestern has developed a proposed Robert D. Willis Rate Schedule, which is supported by power repayment studies, to recover the required revenues. The Revised 2014 Power Repayment Study indicates that the proposed Rate Schedule would increase annual revenues approximately 10.2 percent from \$1,072,332 to

\$1,181,496 effective January 1, 2015 through September 30, 2018.¹

DATES: The consultation and comment period will begin on the date of publication of this **Federal Register** notice and will end on October 20, 2014. If requested, a combined Public Information and Comment Forum (Forum) will be held in Tulsa, Oklahoma at 9:00 a.m. on October 8, 2014. Persons desiring the Forum to be held must send a written request for such Forum to the Acting Vice President, Chief Operating Officer (see **FOR FURTHER INFORMATION CONTACT**) by September 11, 2014. If no request is received, the Forum will not be held.

ADDRESSES: If requested, the Forum will be held in Southwestern's offices, Room 1460, Williams Center Tower I, One West Third Street, Tulsa, Oklahoma 74103.

FOR FURTHER INFORMATION CONTACT: Tracey Stewart, Acting Vice President, Chief Operating Officer, Office of Corporate Operations, Southwestern Power Administration, U.S. Department of Energy, One West Third Street, Tulsa, Oklahoma 74103, (918) 595-6677, tracey.stewart@swpa.gov.

SUPPLEMENTARY INFORMATION: Originally established by Secretarial Order No. 1865 dated August 31, 1943, Southwestern is an agency within the U.S. Department of Energy (DOE) created by the Department of Energy Organization Act, Public Law 95-91, dated August 4, 1977.

Southwestern markets power from 24 multi-purpose reservoir projects with hydroelectric power facilities constructed and operated by the U.S. Army Corps of Engineers (Corps). These projects are located in the states of Arkansas, Missouri, Oklahoma, and Texas. Southwestern's marketing area includes these states plus Kansas and Louisiana. The costs associated with the hydropower facilities of 22 of the 24 projects are repaid via revenues received under the Integrated System rates, as are those of Southwestern's transmission facilities, which consist of 1,380 miles of high-voltage transmission lines, 25 substations, and 46 microwave and VHF radio sites. Costs associated with the Sam Rayburn and Robert D. Willis Dams, two Corps projects that are isolated hydraulically, electrically, and financially from the Integrated System, are repaid by separate rate schedules.

Following DOE guidelines, Southwestern prepared a 2014 Current

¹ FERC on April 29, 2013 confirmed and approved the existing Robert D. Willis rate for the period October 1, 2012 through September 30, 2016. See 143 *FERC* ¶ 62,067.
