The City of Mobile, grantee of FTZ 82, submitted a notification of proposed production activity to the FTZ Board on behalf of Airbus Americas, Inc. (Airbus), located in Mobile, Alabama. The notification conforming to the requirements of the regulations of the FTZ Board (15 CFR 400.22) was received on August 21, 2014.

The Airbus facility is located within Site 1 of FTZ 82. The facility is used for the manufacture of commercial passenger aircraft. Pursuant to 15 CFR 400.14(b), FTZ activity would be limited to the specific foreign-status materials and components and specific finished products described in the submitted notification (as described below) and subsequently authorized by the FTZ Board.

Production under FTZ procedures could exempt Airbus from customs duty payments on the foreign status components used in export production. On its domestic sales, Airbus would be able to choose the duty rates during customs entry procedures that apply to commercial passenger aircraft (duty rate 0%) for the foreign status inputs noted below. Customs duties also could possibly be deferred or reduced on foreign status production equipment.

The components and materials sourced from abroad include: plastic handles and knobs; plastic washers; hex-head screws; lock washers; steel cotter pins; steel pins; aluminum rivets, pins, nuts and washers; plates, shims and other aircraft parts made of aluminum; metal mountings and brackets; check valves; safety valves;

copper and steel thermostat valves; electric motors and generators; transformers; microphones; loudspeakers; electrical overload protectors; electrical switches; electrical connectors; wiring harnesses; wires with connectors; electrical cables; optical navigational equipment and autopilots; first aid kits; food and beverage preparation equipment; fire extinguishers; aircraft assemblies and parts; aircraft seats; and, trolleys (duty rate ranges from 0% to 8.5%).

Public comment is invited from interested parties. Submissions shall be addressed to the Board's Executive Secretary at the address below. The closing period for their receipt is October 14, 2014.

A copy of the notification will be available for public inspection at the Office of the Executive Secretary, Foreign-Trade Zones Board, Room 21013, U.S. Department of Commerce, 1401 Constitution Avenue NW., Washington, DC 20230-0002, and in the "Reading Room" section of the Board's Web site, which is accessible via www.trade.gov/ftz.

SUPPLEMENTARY INFORMATION: Foreign policy-based controls in the Export Administration Regulations (EAR) are implemented pursuant to section 6 of the Export Administration Act of 1979, as amended, (50 U.S.C. app. sections 2401-2420 (2000)) (EAA). The current foreign policy-based export controls maintained by the Bureau of Industry and Security (BIS) are set forth in the EAR (15 CFR parts 730-774), including in parts 742 (CCL Based Controls), 744 (End-User and End-Use Based Controls) and 746 (Embargoes and Other Special Controls). These controls apply to a range of countries, items, activities and persons, including:

- Entities acting contrary to the national security or foreign policy interests of the United States (§ 744.11);
- Certain general purpose microprocessors for "military end-uses" and "military end-users" (§ 744.17);
- Significant items (SI) (§ 742.14);

- Hot section technology for the development, production, or overhaul of commercial aircraft engines, components, and systems (§ 742.14);
- Encryption items (§ 742.15);
- Crime control and detection items (§ 742.7);
- Specially designed implements of torture (§ 742.11);
- Certain firearms and related items based on the Organization of American States Model Regulations for the Control of the International Movement of Firearms, their Parts and Components and Munitions included within the Inter-American Convention Against the Illicit Manufacturing of and Trafficking in Firearms, Ammunition, Explosives, and Other Related Materials (§ 742.17);
- Regional stability items (§ 742.6);
- Equipment and related technical data used in the design, development, production, or use of certain rocket systems and unmanned air vehicles (§§ 742.5 and 744.3);
- Chemical precursors and biological agents, associated equipment, technical data, and software related to the production of chemical and biological agents (§§ 742.2 and 744.4) and various chemicals included on the list of those chemicals controlled pursuant to the Chemical Weapons Convention (§ 742.18);
- Communication intercepting devices, software and technology (§ 742.13);
- Nuclear propulsion (§ 744.5);
- Aircraft and vessels (§ 744.7);
- Restrictions on exports and reexports to certain persons designated as proliferators of weapons of mass destruction (§ 744.8);
- Certain cameras to be used by military end-users or incorporated into a military commodity (§ 744.9);
- Countries designated as Supporters of Acts of International Terrorism (§§ 742.8, 742.9, 742.10, 742.19, 746.2, 746.4, 746.7, and 746.9);
- Certain entities in Russia (§ 744.10);
- Individual terrorists and terrorist organizations (§§ 744.12, 744.13 and 744.14);
- Certain persons designated by Executive Order 13315 (“Blocking Property of the Former Iraqi Regime, Its Senior Officials and Their Family Members”) (§ 744.18);
- Certain sanctioned entities (§ 744.20);
- Embargoed countries (Part 746); and
- U.S. and U.N. arms embargoes (§ 746.1 and Country Group D:5 of Supplement No. 1 to Part 740).

In addition, the EAR impose foreign policy-based export controls on certain nuclear-related commodities, technology, end-uses and end-users

(§§ 742.3 and 744.2), in part, implementing section 309(c) of the Nuclear Non Proliferation Act (42 U.S.C. 2139a).

Under the provisions of section 6 of the EAA, export controls maintained for foreign policy purposes require annual extension. Section 6 of the EAA requires a report to Congress when foreign policy-based export controls are extended. The EAA expired on August 20, 2001. Executive Order 13222 of August 17, 2001 (3 CFR, 2001 Comp., p. 783 (2002)), as amended by Executive Order 13637 of March 8, 2013, 78 FR 16129 (March 13, 2013), which has been extended by successive Presidential Notices, the most recent being that of August 7, 2014 (79 FR 46959 (Aug. 11, 2014)), continues the EAR and, to the extent permitted by law, the provisions of the EAA, in effect under the International Emergency Economic Powers Act (50 U.S.C. 1701–1706 (2000)). The Department of Commerce, as appropriate, follows the provisions of section 6 of the EAA by reviewing its foreign policy-based export controls, conducting consultations with industry through public comments on such controls, and preparing a report to be submitted to Congress. In January 2014, the Secretary of Commerce, on the recommendation of the Secretary of State, extended for one year all foreign policy-based export controls then in effect. BIS is now soliciting public comment on the effects of extending the existing foreign policy-based export controls from January 2015 to January 2016. Among the criteria considered in determining whether to extend U.S. foreign policy-based export controls are the following:

1. The likelihood that such controls will achieve their intended foreign policy purposes, in light of other factors, including the availability from other countries of the goods, software or technology proposed for such controls;
2. Whether the foreign policy objective of such controls can be achieved through negotiations or other alternative means;
3. The compatibility of the controls with the foreign policy objectives of the United States and with overall U.S. policy toward the country subject to the controls;
4. Whether the reaction of other countries to the extension of such controls is not likely to render the controls ineffective in achieving the intended foreign policy objective or be counterproductive to U.S. foreign policy interests;
5. The comparative benefits to U.S. foreign policy objectives versus the effect of the controls on the export

performance of the United States, the competitive position of the United States in the international economy, the international reputation of the United States as a supplier of goods and technology; and

6. The ability of the United States to effectively enforce the controls.

BIS is particularly interested in receiving comments on the economic impact of proliferation controls. BIS is also interested in industry information relating to the following:

1. Information on the effect of foreign policy-based export controls on sales of U.S. products to third countries (*i.e.*, those countries not targeted by sanctions), including the views of foreign purchasers or prospective customers regarding U.S. foreign policy-based export controls.

2. Information on controls maintained by U.S. trade partners. For example, to what extent do U.S. trade partners have similar controls on goods and technology on a worldwide basis or to specific destinations?

3. Information on licensing policies or practices by our foreign trade partners that are similar to U.S. foreign policy based export controls, including license review criteria, use of conditions, and requirements for pre- and post-shipment verifications (preferably supported by examples of approvals, denials and foreign regulations).

4. Suggestions for bringing foreign policy-based export controls more into line with multilateral practice.

5. Comments or suggestions to make multilateral controls more effective.

6. Information that illustrates the effect of foreign policy-based export controls on trade or acquisitions by intended targets of the controls.

7. Data or other information on the effect of foreign policy-based export controls on overall trade at the level of individual industrial sectors.

8. Suggestions for measuring the effect of foreign policy-based export controls on trade.

9. Information on the use of foreign policy-based export controls on targeted countries, entities, or individuals. BIS is also interested in comments relating generally to the extension or revision of existing foreign policy-based export controls.

Parties submitting comments are asked to be as specific as possible. All comments received before the close of the comment period will be considered by BIS in reviewing the controls and in developing the report to Congress. All comments received in response to this notice will be displayed on BIS's Freedom of Information Act (FOIA) Web site at <http://efoia.bis.doc.gov/> and on

the Federal e-Rulemaking portal at www.Regulations.gov. All comments will also be included in a report to Congress, as required by section 6 of the EAA, which directs that BIS report to Congress the results of its consultations with industry on the effects of foreign policy-based controls.

Dated: August 28, 2014.

Matthew S. Borman,

Deputy Assistant Secretary for Export Administration.
