

of the Patents Ombudsman Program are: (1) To facilitate complaint-handling for pro se applicants and applicant's representatives whose applications have stalled in the examination process; (2) to track complaints to ensure each is handled within ten business days; (3) to provide feedback and early warning alerts to USPTO management regarding training needs based on complaint trends; and (4) to build a database of frequently asked questions accessible to the public that give commonly seen problems and effective resolutions.

The USPTO Ombudsman survey is a key component of the process evaluation, providing a program monitoring system and identifying potential opportunities for program enhancement. This survey is being conducted by the USPTO's Ombudsman Program and will be developed, administered, and summarized by USPTO personnel. A survey is the only way the USPTO can gain consistent, reliable, and representative information from the customers choosing to use the Ombudsman Program.

There are no statutes or regulations requiring the USPTO to conduct this usage and satisfaction measurement. The USPTO will use the survey

instrument to implement Executive Order 12862 of September 11, 1993, Setting Customer Service Standards, published in the **Federal Register** on September 14, 1993 (Vol. 58, No. 176).

II. Method of Collection

Electronic email submission to the USPTO.

III. Data

OMB Number: 0651—New.
Form Number(s): No form numbers.
Type of Review: New collection.

Affected Public: Individuals or households; businesses or other for-profits; and not-for-profit institutions.
Estimated Number of Respondents: 1,100 responses per year. A final respondent pool from approximately 3,000 inquiries would likely be around 1,800 unique customers. Assuming a 60% response rate, 1,100 of the 1,800 unique users will respond which should ensure adequate representation across all Technology Centers.

Estimated Time per Response: The USPTO estimates that it will take the public approximately 5 minutes (.083 hours) to submit the information in this collection, including the time to gather the necessary information, prepare the

appropriate form or document, and submit the completed request to the USPTO.

Estimated Total Annual Respondent Burden Hours: 91.67 hours.

Estimated Total Annual Respondent Cost Burden: \$29,608.33. The USPTO believes that both professionals and para-professionals will complete these surveys, at a rate of 75% of the current professional rate of \$389 per hour and 25% of the para-professional rate of \$125 per hour. The professional hourly rate used for the calculation is the median rate for attorneys in private firms as published in the 2013 AIPLA Economic Survey. This report summarized the results of a survey with data on hourly billing rates. The para-professional hourly rate comes from 2013 report published by the National Association of Legal Assistants.

The hourly rate for professionals, calculating 75% of \$389, totals \$291.75, while the hourly rate for the para-professionals, calculating 25% of \$125, totals \$31.25, for a combined hourly rate of \$323. The USPTO estimates that the respondent cost burden for this collection will be \$29,608.33 per year (1,100 responses * .083 hours * \$323).

Item	Estimated time for response (minutes)	Estimated annual responses	Estimated annual burden hours
Ombudsman Survey	5	1,100	91.67
Totals	1,100	91.67

Estimated Total Annual Non-Hour Respondent Cost Burden: \$0. There are no capital start-up, maintenance, postage, or recordkeeping costs associated with this information collection.

IV. Request for Comments

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden (including hours and cost) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, e.g., the use of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized or included in the request for OMB

approval of this information collection; they also will become a matter of public record.

SUPPLEMENTARY INFORMATION:

Title of Collection: Financial Coaching Program for Veterans and Low-income Consumers.

OMB Control Number: 3170-XXXX.

Type of Review: New collection (Request for a new OMB control number).

Affected Public: Individuals.

Estimated Number of Respondents: 10,000.

Estimated Total Annual Burden Hours: 3,792.

Abstract: Beginning in late 2014, CFPB will launch a Financial Coaching project to provide direct financial coaching services to transitioning veterans and economically vulnerable consumers nationwide. Over three years, it is estimated that tens of thousands of consumers will be served. In order for CFPB to understand whether the program is effective and for the financial coaches to be able to deliver efficient services and track clients over time, CFPB will need to take steps to evaluate the program. This will include a process evaluation to examine program implementation and an outcomes evaluation to examine program effects on clients. The process and outcome evaluations will involve three key data collection efforts: Administrative data collected about clients by financial coaches for programmatic purposes; interview data collected by evaluators from key informants such as coaching clients, financial coaches and program administrators; and self-reported survey data from coaches and coaching clients. The information to be collected from clients will likely include a combination of personal information (basic contact and demographic information), performance metrics (outputs), client-level outcomes (progress towards financial goals or other relevant outcomes) and programmatic and organizational outcomes.

Request for Comments: Comments are invited on: (a) Whether the collection of information is necessary for the proper performance of the functions of the Bureau, including whether the information will have practical utility; (b) The accuracy of the Bureau's estimate of the burden of the collection of information, including the validity of the methods and the assumptions used; (c) Ways to enhance the quality, utility, and clarity of the information to be collected; and (d) Ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques
