B. Regulatory History and Information

The Old Port Tampa Exercise 2014 is a one-time, unique event. Therefore, temporary safety zones are more conducive than establishing a permanent regulation.

C. Basis and Purpose

The legal basis for this proposed rule is the Coast Guard’s authority to establish safety zones: 33 U.S.C. 1225, 1231; 33 CFR 1.05–1, 6.04–1, 160.5; Department of Homeland Security Delegation No. 0170.1.

The purpose of the regulation is to provide for the safety of life on the navigable waters in the Captain of the Port St. Petersburg Zone during the Old Port Tampa Exercise 2014 while oil spill response operations are being conducted.

D. Discussion of Proposed Rule

The Coast Guard will be conducting an oil spill response equipment deployment exercise in Tampa Bay for the purpose of testing deployment techniques, procedures, and accuracy of the Geographical Response Plan oil spill boom deployment recommendations. The areas are: (1) Directly off of the Picnic Island boat ramp, (2) directly south of Picnic Island, and (3) north of Picnic Island. Equipment deployment vessels will avoid impacting commercial traffic and will coordinate with the Cooperative Vessel Traffic Service to operate while no commercial traffic is expected to transit near the operational area. The nature of the exercise and accompanying equipment pose a potential danger to mariners. The Coast Guard is proposing these safety zones to protect mariners on the navigable waters of the United States. The Coast Guard Sector St. Petersburg will give notice of the safety zones by issuing a Broadcast Notice to Mariners, and by placing Coast Guard vessels on-scene.

The proposed safety zones will encompass all waters within the following three areas.

1. Area 1—all waters within the following: 27°52′18″ N 082°33′02″ W, 27°52′11″ N 082°32′48″ W, 27°51′46″ N 082°33′06″ W, 27°51′55″ N 082°33′21″ W.

2. Area 2—all waters within the following: 27°51′30″ N 082°33′10″ W, 27°51′30″ N 082°33′08″ W, 27°51′29″ N 082°33′08″ W, 27°51′28″ N 082°33′10″ W.

3. Area 3—all waters within the following: 27°50′51″ N 082°33′39″ W, 27°50′51″ N 082°33′06″ W, 27°50′29″ N 082°32′43″ W, 27°50′14″ N 082°33′10″ W.

The proposed safety zones will be enforced only while Coast Guard and environmental response vessels are on-scene during actual equipment deployment operations of the exercise. Vessels will be prohibited from anchoring, mooring, or transiting within the zones unless authorized by the Captain of the Port St. Petersburg or a designated representative.

E. Regulatory Analyses

We developed this proposed rule after considering numerous statutes and executive orders related to rulemaking. Below we summarize our analyses based on a number of these statutes or executive orders.

1. Regulatory Planning and Review

This proposed rule is not a significant regulatory action under section 3(f) of Executive Order 12866, Regulatory Planning and Review, as supplemented by Executive Order 13563, Improving Regulation and Regulatory Review, and does not require an assessment of potential costs and benefits under section 6(a)(3) of Executive Order 12866 or under section 1 of Executive Order 13563. The Office of Management and Budget has not reviewed it under those Orders.

This regulation is not a significant regulatory action because this proposed rule establishes safety zones in areas with minimum commercial and recreational traffic.

2. Impact on Small Entities

Under the Regulatory Flexibility Act (5 U.S.C. 601–612), we have considered the impact of this proposed rule on small entities. The Coast Guard certifies under 5 U.S.C. 605(b) that this proposed rule will not have a significant economic impact on a substantial number of small entities.

If you think that your business, organization, or governmental jurisdiction qualifies as a small entity and that this rule would have a significant economic impact on it, please submit a comment (see **ADDRESSES**) explaining why you think it qualifies and how and to what degree this rule would economically affect it.

3. Assistance for Small Entities

Under section 213(a) of the Small Business Regulatory Enforcement Fairness Act of 1996 (Pub. L. 104–121), we want to assist small entities in understanding this proposed rule. If the rule would affect your small business, organization, or governmental jurisdiction and you have questions concerning its provisions or options for compliance, please contact the person

listed in the **FOR FURTHER INFORMATION CONTACT** section above. The Coast Guard will not retaliate against small entities that question or complain about this proposed rule or any policy or action of the Coast Guard.

4. Collection of Information

This proposed rule will not call for a new collection of information under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501–3520).

5. Federalism

A rule has implications for federalism under Executive Order 13132, Federalism, if it has a substantial direct effect on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government. We have analyzed this proposed rule under that Order and determined that this rule does not have implications for federalism.

6. Protest Activities

The Coast Guard respects the First Amendment rights of protesters. Protesters are asked to contact the person listed in the **FOR FURTHER INFORMATION CONTACT** section to coordinate protest activities so that your message can be received without jeopardizing the safety or security of people, places or vessels.

7. Unfunded Mandates Reform Act

The Unfunded Mandates Reform Act of 1995 (2 U.S.C. 1531–1538) requires federal agencies to assess the effects of their discretionary regulatory actions. In particular, the Act addresses actions that may result in the expenditure by a State, local, or tribal government, in the aggregate, or by the private sector of \$100,000,000 (adjusted for inflation) or more in any one year. Though this proposed rule would not result in such expenditure, we do discuss the effects of this rule elsewhere in this preamble.

8. Taking of Private Property

This proposed rule would not cause a taking of private property or otherwise have taking implications under Executive Order 12630, Governmental Actions and Interference with Constitutionally Protected Property Rights.

9. Civil Justice Reform

This proposed rule meets applicable standards in sections 3(a) and 3(b)(2) of Executive Order 12988, Civil Justice Reform, to minimize litigation, eliminate ambiguity, and reduce burden.

10. Protection of Children From Environmental Health Risks

We have analyzed this proposed rule under Executive Order 13045, Protection of Children from Environmental Health Risks and Safety Risks. This rule is not an economically significant rule and would not create an environmental risk to health or risk to safety that might disproportionately affect children.

11. Indian Tribal Governments

This proposed rule does not have tribal implications under Executive Order 13175, Consultation and Coordination with Indian Tribal Governments, because it would not have a substantial direct effect on one or more Indian tribes, on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes.

12. Energy Effects

This proposed rule is not a “significant energy action” under Executive Order 13211, Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use.

13. Technical Standards

This proposed rule does not use technical standards. Therefore, we did not consider the use of voluntary consensus standards.

14. Environment

We have analyzed this proposed rule under Department of Homeland Security Management Directive 023–01 and Commandant Instruction M16475.ID, which guide the Coast Guard in complying with the National Environmental Policy Act of 1969 (NEPA) (42 U.S.C. 4321–4370f), and have made a preliminary determination that this action is one of a category of actions that do not individually or cumulatively have a significant effect on the human environment. This proposed rule is categorically excluded from further review under paragraph 34(g) of Figure 2–1 of the Commandant Instruction. A preliminary environmental analysis checklist supporting this determination is available in the docket where indicated under **ADDRESSES**. We seek any comments or information that may lead to the discovery of a significant environmental impact from this proposed rule.

has responded to a petition for reconsideration and amended rulemaking of certain provisions of the final rule, “Prevention of Significant Deterioration (PSD) for Particulate Matter Less Than 2.5 Micrometers (PM_{2.5})—Increments, Significant Impact Levels (SILs) and Significant Monitoring Concentration (SMC),” published on October 20, 2010. The final rule set forth provisions identifying the maximum allowable increases in ambient pollutant concentrations (“increments”) for PM_{2.5}, modifying the definitions for the baseline dates and the baseline area, and adding two screening tools known as SILs and an SMC for PM_{2.5}. On December 23, 2013, the EPA received a petition for reconsideration pursuant to the Clean Air Act (CAA) and for an amended rulemaking pursuant to the Administrative Procedures Act, from the state of North Carolina. The EPA Administrator Gina McCarthy denied the petition for reconsideration and amended rulemaking in a letter to the Attorney General of North Carolina dated August 28, 2014. The letter documents the EPA’s reasons for the denial and can be found in the rulemaking docket.

DATES: The EPA’s response to this petition was signed on August 28, 2014. Any petitions for review of the final

letter denying the petition for reconsideration and amended rulemaking of certain provisions of the final rule published in the **Federal Register** on October 20, 2010 (75 FR 64864) must be filed in the Court of Appeal for the District of Columbia Circuit on or before November 17, 2014.
