

FDA will post a notice closing registration at <http://www.fda.gov/TobaccoProducts/NewsEvents/ucm238308.htm>. If you need special accommodations due to a disability, please contact Caryn Cohen (see *Contact Person*) no later than December 3, 2014.

Presenters and Panelists: FDA is interested in gathering scientific information from individuals with a broad range of perspectives on technical topics to be discussed at the workshop. To be considered to serve as a presenter, please provide the following:

- A brief abstract for each presentation. The abstract should identify the specific topic(s) to be addressed and the amount of time requested.
- A one-page biosketch that describes and supports the speaker's scientific expertise on the specific topic(s) being presented, nature of the individual's experience and research in the scientific field, positions held, and any program development activities.

Panelists will sit on a panel to discuss their scientific knowledge on the questions and presentations in each session. To be considered to serve as a panelist, please provide the following:

- A one-page biosketch that describes and supports the speaker's scientific expertise on the specific topic(s) being presented, nature of the individual's experience and research in the scientific field, positions held, and any program development activities.

If you are interested in serving as a presenter or panelist, please submit the above information, along with the topic on which you would like to speak, to workshop.CTPOS@fda.hhs.gov by November 4, 2014.

Oral Presentations by Members of the Public: This workshop includes a public comment session. Persons wishing to present during the public comment session must make this request at the time of registration and should identify the topic they wish to address from among those topics under consideration, which are identified in section II. FDA will do its best to accommodate requests to present. FDA urges individuals and organizations with common interests to consolidate or coordinate their comments, and request a single time for a joint presentation. For those requesters with Internet access, Caryn Cohen (see *Contact Person*) will email you regarding your request to speak by November 26, 2014.

Transcripts: A transcript of the proceedings will be available after the workshop at <http://www.fda.gov/TobaccoProducts/NewsEvents/ucm238308.htm> as soon as the official transcript is finalized. It will also be

posted to the docket at <http://www.regulations.gov> once the docket is opened.

SUPPLEMENTARY INFORMATION:

I. Background

FDA is announcing a public workshop to gather scientific information and stimulate discussion among scientists about electronic cigarettes (e-cigarettes). The focus of this workshop will be product science (specifically device designs and characteristics, and e-liquid and aerosol constituents), product packaging, constituent labeling, and environmental impact. FDA intends to follow this workshop with two additional workshops that will address other scientific topics related to e-cigarettes, including: (1) The impact of e-cigarettes on individual health, including clinical pharmacology, topography, abuse liability, dependence, and health effects and (2) the impact of e-cigarettes on the population, including discussions of product appeal (e.g., impact of advertising, marketing, flavorings, consumer perceptions) and product safety labeling.

On April 25, 2014, FDA published a proposed rule to extend its tobacco product authorities to additional products that meet the statutory definition of "tobacco product" (Deeming Tobacco Products to Be Subject to the Federal Food, Drug, and Cosmetic Act, as Amended by the Family Smoking Prevention and Tobacco Control Act; Regulations on the Sale and Distribution of Tobacco Products and Required Warning Statements for Tobacco Products; 79 FR 23141, April 25, 2014, Docket No. FDA-2014-N-0189) (proposed deeming rule). If the proposed deeming rule is finalized as proposed, e-cigarettes that are tobacco products would be subject to FDA regulation under the FD&C Act. As stated in the proposed deeming rule, FDA "is aware of the recent significant increase in the prevalence in e-cigarette use" (79 FR 23141 at 23152), and there is much to be learned about these relatively new entrants to the market.

These workshops are intended to better inform FDA about these products. Should the Agency move forward as proposed to regulate e-cigarettes, additional information about the products would assist the Agency in carrying out its responsibilities under the law. This would be true regardless of the details of any such final rule. Accordingly, FDA is working to obtain such information now rather than waiting for the conclusion of the deeming rulemaking.

Participants should note that this workshop is not intended to inform the Agency's deeming rulemaking. All comments regarding the proposed deeming rule were to be submitted to the Agency by August 8, 2014 (Docket No. FDA-2014-N-0189). As such, the scope of this workshop is limited to the topics presented in Section II.

At the start of this first workshop in this series, FDA will announce via a **Federal Register** notice the establishment of a docket for submission of written comments. Regardless of attendance at the public workshops, interested persons will be invited to submit comments to the docket. The forthcoming **Federal Register** notice will provide information on how to submit comments. Please note that this docket will only pertain to this workshop. Comments submitted to the docket will not be added to other dockets, such as the docket for the proposed rule deeming additional tobacco products subject to the FD&C Act.

II. Topics for Discussion

The public workshop will include presentations and panel discussion regarding e-cigarettes and the public health, specifically relating to the products themselves. Topics to be addressed include, for example: (1) Product science (including design, chemistry, and toxicology); packaging, labeling, and environmental impact assessments; (2) potential risks and benefits of product characteristics; (3) strategies to mitigate risk to users; (4) methods for evaluating product performance, constituents, stability, etc.; and (5) potential risks to the environment. Additional information related to workshop presentations and discussion topics, including specific questions to be addressed at the workshop, can be found at <http://www.fda.gov/TobaccoProducts/NewsEvents/ucm238308.htm>.

Dated: September 11, 2014.

Leslie Kux,

Assistant Commissioner for Policy.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

National Institutes of Health

National Cancer Institute; Notice of Meeting

Pursuant to section 10(a) of the Federal Advisory Committee Act, as amended (5 U.S.C. App.), notice is hereby given of a meeting of the National Cancer Institute Council of Research Advocates.

The meeting will be open to the public, with attendance limited to space available. Individuals who plan to attend and need special assistance, such as sign language interpretation or other reasonable accommodations, should notify the Contact Person listed below in advance of the meeting.

Name of Committee: National Cancer Institute Council of Research Advocates.

Date: October 21, 2014.

Time: 9:00 a.m. to 3:30 p.m.

Agenda: NCI Update, How Advocates Can Advance Cancer Immunotherapy Research, Distress Screening, Working Group Discussion.

Place: National Institutes of Health, 31 Center Drive, Building 31, C-Wing, Conference Rooms 6 & 8, Bethesda, MD 20892.

Contact Person: Kelley Landy, NCI Office of Advocacy Relations, National Cancer Institute, 31 Center Drive, Building 31, Room 10A28, Bethesda, MD 20892, 301-594-3194, Kelley.landy@nih.gov.

Any interested person may file written comments with the committee by forwarding the statement to the Contact Person listed on this notice. The statement should include the name, address, telephone number and when applicable, the business or professional affiliation of the interested person.

In the interest of security, NIH has instituted stringent procedures for entrance onto the NIH campus. All visitor vehicles, including taxicabs, hotel, and airport shuttles will be inspected before being allowed on campus. Visitors will be asked to show one form of identification (for example, a government-issued photo ID, driver's license, or passport) and to state the purpose of their visit.

Information is also available on the Institute's/Center's home page: deainfo.nci.nih.gov/advisory/ncra/ncra.htm, where an agenda and any additional information for the meeting will be posted when available.
