The lands will remain open to leasing under the mineral and geothermal leasing laws, and disposal under the Materials Act of 1947.

DATES: The BLM must receive comments and requests for a public meeting by December 22, 2014.

ADDRESSES: Comments and meeting requests should be sent to Lane Cowger, BLM Project Manager, One North Central Avenue, Suite 800, Phoenix, AZ 85004.

The lands are described as follows:

The areas described aggregate approximately 2,560 acres, more or less, in Yuma County.

The Assistant Secretary of the Interior for Land and Minerals Management approved the BLM's application; therefore, the application constitutes a withdrawal proposal of the Secretary of the Interior (43 CFR 2310.1-3(e)).

The purpose of the proposed withdrawal is to protect and preserve the Agua Caliente SEZ for a 20-year period in anticipation that it will be available for solar energy development.

The use of a right-of-way, interagency or cooperative agreement, or discretionary surface management by the BLM under 43 CFR 3715 or 43 CFR 3809 regulations will not adequately constrain nondiscretionary uses, which could result in loss of adequate protection and preservation of the subject lands for future solar energy development. There are no suitable alternative sites for the withdrawal.

No water rights would be needed to fulfill the purpose of the requested withdrawal.

Records relating to the application for the proposed withdrawal may be examined by contacting Lane Cowger at the above address.

The application for the proposed withdrawal will be processed in accordance with the regulations set forth in 43 CFR 2300.

For a period until December 22, 2014, all persons who wish to submit comments, suggestions, or objections in connection with the proposed withdrawal may present their views in writing to the BLM at the address noted above.

If a public meeting is requested in connection with the proposed withdrawal, information about the date, time, and location of the meeting will be provided to news outlets in Arizona at least 30 days prior to the meeting. At the meeting, the public would have an opportunity to provide oral and written comments.

All comments received will be considered before any recommendation concerning the proposed withdrawal is submitted to the Secretary of the Interior for final action.

For a period until September 21, 2016, the public lands described in this

notice will be segregated from location or entry under the United States mining laws, but not from leasing under the mineral or geothermal leasing laws, or disposal under the Materials Act of 1947, unless the application is denied or canceled or the withdrawal is approved prior to that date.

Comments including names and street addresses of respondents will be available for public review at the BLM Arizona State Office at the address noted above, during regular business hours 9 a.m. to 4 p.m., Monday through Friday, except Federal holidays. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Authority: 43 CFR 2310.3-1.

SUMMARY: Regulations for geothermal, solid minerals, and Indian oil and gas leases authorize the Office of Natural Resources Revenue (ONRR) to assess payors for failure to submit payments of the same amount as the royalty or bill document or to provide adequate information. The amount assessed for each mismatched or inadequately identified payment will be \$243.00, effective on the date below.

SUPPLEMENTARY INFORMATION: On March 26, 2008, ONRR published a final rule titled "Reporting Amendments" (73 FR 15885), with an effective date of April 25, 2008. This rule revised 30 CFR 1218.41 to comply with the Federal Oil and Gas Royalty Simplification and Fairness Act of 1996. The regulations authorize ONRR to assess payors for failure to submit payments of the same amount as the royalty or bill document, or to provide adequate information. Section 1218.41(f) requires ONRR to publish the assessment amount and the effective date in the **Federal Register**.

ONRR bases the amount of the assessment on ONRR's cost experience with improper payment and identification. ONRR increased the assessment due to Federal employee pay raises and minor adjustments in correction time. The assessment allows ONRR to recover the associated costs and provides industry with incentives to improve the efficiency of payment processing.

DEPARTMENT OF JUSTICE

Notice of Lodging of Proposed Consent Decree Under the Clean Air Act

On September 16, 2014, the Department of Justice lodged a proposed Consent Decree with the United States District Court for the Eastern District of Michigan in the lawsuit entitled *United States v. Consumers Energy Company*, Civil Case. No. 14-13580 (E.D. Mich.).

In this civil enforcement action under the federal Clean Air Act ("Act"), the United States alleges that Consumers Energy Co. ("Defendant"), failed to comply with certain requirements of the Act intended to protect air quality at five Michigan power plants: The J.H. Campbell Plant in West Olive, Michigan; the B.C. Cobb Plant in Muskegon, Michigan; the D.E. Karn Plant in Essexville, Michigan; and the J.C. Weadock Plant in Essexville, Michigan. The complaint seeks injunctive relief and civil penalties for violations of the Act's Prevention of Significant Deterioration ("PSD")

provisions, 42 U.S.C. 7470-92, the Act's Title V permit provisions ("Title V"), 42 U.S.C. 7661a-76661f, and certain visible air pollutant ("opacity") and particulate matter ("PM") limitations contained in Defendant's Title V permits and as set forth in various implementing regulations. The complaint alleges that Defendant failed to obtain appropriate permits and failed to install and operate required pollution control devices to reduce emissions of sulfur dioxide ("SO₂") and/or nitrogen oxides ("NO_x") at the Campbell, Cobb, Karn, and Weadock plants, and that Defendant has operated certain units at the plants while exceeding opacity and PM limitations.

The proposed Consent Decree would resolve violations for certain provisions of the Act at the Campbell, Cobb, Karn, and Weadock plants, as well as the Whiting Plant in Luna Pier, Michigan, through December 31, 2017, and would require the Defendant to reduce harmful SO₂, NO_x, and PM emissions, at the five power plants. The emission reductions would be achieved through emission control requirements and limitations specified by the proposed consent decree, including installation and operation of pollution controls; retirement or refueling of certain generating units; and annual emission caps at the power plants. The Defendant will also spend \$7.7 million to fund environmental mitigation projects that will further reduce emissions and benefit communities adversely affected by the pollution from the five plants, and pay a civil penalty of \$2.75 million.

The publication of this notice opens a period for public comment on the proposed Consent Decree. Comments should be addressed to the Assistant Attorney General, Environment and Natural Resources Division, and should refer to *United States v. Consumers Energy Company*, Civil Case.
