staff has prepared this final General Conformity Determination (GCD) for the Freeport LNG Liquefaction and Phase II Modification Projects (collectively called Projects) to ensure that the Projects do not violate the Texas State Implementation Plan and address the potential air quality impacts associated with the construction and operation of liquefied natural gas facilities proposed by Freeport LNG Development, L.P., FLNG Liquefaction, LLC, FLNG Liquefaction 2, LLC, and FLNG Liquefaction 3, LLC (collectively known as Freeport LNG).

The FERC staff concludes that the Projects will achieve conformity with the Texas State Implementation Plan and has received concurrence from the Texas Commission on Environmental Quality.

Freeport LNG's development is composed of multiple components in Brazoria County, Texas. The main Liquefaction Plant, located on Quintana Island, will be three propane pre-cooled mixed refrigerant trains, each with a capacity of 4.4 million metric tons per year of liquefied natural gas (LNG) for export, which equates to a total liquefaction capacity of approximately 1.8 billion cubic feet per day of natural gas. The trains and their support facilities are collectively referred to as the Liquefaction Plant.

In addition to the Liquefaction Plant described above, Freeport LNG proposes to construct various facilities, both at and adjacent to the Quintana Island Terminal and beyond Quintana Island, to support the liquefaction and export operation. These facilities include a natural gas Pretreatment Plant located about 3.5 miles north of the Terminal, and several interconnecting pipelines and utility lines called the Pipeline/ Utility Line System.

In addition, for additional information on the Projects, the public can view the final environmental impact statement on our Web site at *http://www.ferc.gov/ industries/gas/enviro/eis/2014/06-16-14-eis.asp.* The full final General Conformity Determination, and response to comments, may be found on FERC's elibrary system under the above references Docket numbers.

[Docket No. ER14-2858-000]

Origin Wind Energy, LLC; Supplemental Notice That Initial Market-Based Rate Filing Includes Request for Blanket Section 204 Authorization

This is a supplemental notice in the above-referenced proceeding, of Origin Wind Energy, LLC's application for market-based rate authority, with an accompanying rate schedule, noting that such application includes a request for blanket authorization, under 18 CFR part 34, of future issuances of securities and assumptions of liability.

Any person desiring to intervene or to protest should file with the Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and *Procedure* (18 CFR 385.211 and 385.214). Anyone filing a motion to intervene or protest must serve a copy of that document on the Applicant.

Notice is hereby given that the deadline for filing protests with regard to the applicant's request for blanket authorization, under 18 CFR Part 34, of future issuances of securities and assumptions of liability is October 6, 2014.

The Commission encourages electronic submission of protests and interventions in lieu of paper, using the FERC Online links at *http:// www.ferc.gov.* To facilitate electronic service, persons with Internet access who will eFile a document and/or be listed as a contact for an intervenor must create and validate an eRegistration account using the eRegistration link. Select the eFiling link to log on and submit the intervention or protests.

Persons unable to file electronically should submit an original and 5 copies of the intervention or protest to the Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426.

The filings in the above-referenced proceeding(s) are accessible in the Commission's eLibrary system by clicking on the appropriate link in the above list. They are also available for review in the Commission's Public Reference Room in Washington, DC. There is an eSubscription link on the Web site that enables subscribers to receive email notification when a document is added to a subscribed docket(s). For assistance with any FERC Online service, please email *FERCOnlineSupport@ferc.gov.* or call (866) 208–3676 (toll free). For TTY, call (202) 502–8659.

[Project No. 14630-000]

Chugach Electric Association, Inc.; Notice of Preliminary Permit Application Accepted for Filing and Soliciting Comments, Motions To Intervene, and Competing Applications

On September 2, 2014, Chugach Electric Association, Inc. filed an application for a preliminary permit, pursuant to section 4(f) of the Federal Power Act (FPA), proposing to study the feasibility of the Fourth of July Project (Fourth of July Creek Project or project) to be located on Godwin and Fourth of July Creeks, near Seward in Kenai Peninsula Borough, Alaska. The sole purpose of a preliminary permit, if issued, is to grant the permit holder priority to file a license application during the permit term. A preliminary permit does not authorize the permit holder to perform any land-disturbing activities or otherwise enter upon lands or waters owned by others without the owners' express permission.

The proposed project would consist of two new developments using the same: (1) 70-foot long, 30-foot-wide, 30-foothigh powerhouse; (2) tailrace consisting of a concrete drop box continuing to a rip rap channel; (3) 10,900-foot-long, 69kilovolt transmission line extending from the powerhouse to an existing substation; (4) 4,300-foot-long, 16-footwide gravel access road; (5) 200-footlong bridge; and (6) appurtenant facilities.

Fourth of July Creek Development

(1) a 110-foot-long, 20-foot-wide, 18foot-high concrete intake structure located at an elevation of 790 feet mean sea level (msl) on Fourth of July Creek; (2) a 5,200-foot-long, 54-inch-diameter steel penstock from the Fourth of July Creek intake housed in a 3,460-footlong, 16-foot-diameter tunnel and a 1,670-foot-long, 54-inch-diameter steel penstock buried where feasible; and (3) a horizontal Francis turbine/generator unite rated for 6.6 megawatts (MW) at 637 feet of net head.

Godwin Creek Development

(1) a 110-foot-long, 20-foot-wide, 18foot-high concrete intake structure located at an elevation of 415 feet msl on Godwin Creek; (2) a 3,500-foot-long, 78-inch-diameter steel penstock buried where feasible from Godwin Creek; and (3) a horizontal Francis turbine/ generator unit rated for 6.1 MW at 280 feet of net head.

The estimated annual generation of the Fourth of July Creek Project would be 55,012 megawatt-hours.

Applicant Čontact: Mr. Paul R. Risse, Senior Vice President, Chugach Electric Association, Inc., 5601 Electron Drive, Anchorage, Alaska 99518; phone: (907) 563–7494.

FERC Contact: Julia Kolberg; phone: (202) 502–8261.

Deadline for filing comments, motions to intervene, competing applications (without notices of intent), or notices of intent to file competing applications: 60 days from the issuance of this notice. Competing applications and notices of intent must meet the requirements of 18 CFR 4.36.

The Commission strongly encourages electronic filing. Please file comments, motions to intervene, notices of intent, and competing applications using the Commission's eFiling system at http:// www.ferc.gov/docs-filing/efiling.asp. Commenters can submit brief comments up to 6,000 characters, without prior registration, using the eComment system at http://www.ferc.gov/docs-filing/ ecomment.asp. You must include your name and contact information at the end of your comments. For assistance, please contact FERC Online Support at FERCOnlineSupport@ferc.gov, (866) 208-3676 (toll free), or (202) 502-8659 (TTY). In lieu of electronic filing, please send a paper copy to: Secretary, Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426. The first page of any filing should include docket number P-14630-000.

More information about this project, including a copy of the application, can be viewed or printed on the "eLibrary" link of Commission's Web site at http://www.ferc.gov/docs-filing/ elibrary.asp. Enter the docket number (P-14630) in the docket number field to access the document. For assistance, contact FERC Online Support.

Dated: September 18, 2014.

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. CP14-551-000]

Texas Eastern Transmission, LP; Notice of Request Under Blanket Authorization

Take notice that on September 10, 2014, Texas Eastern Transmission, LP (Texas Eastern), pursuant to its blanket certificate authorization granted in Docket No. CP82-535-000,1 filed an application in accordance to sections 157.205 and 157.216 of the Commission's Regulations under the Natural Gas Act (NGA) as amended, requesting authority to abandon by sale certain pipeline facilities and removing related ancillary facilities, as necessary, located in Lincoln Parish, Louisiana. The proposed abandonment will enable Texas Eastern and its customers to eliminate the need for capital expenditures associated with the ongoing maintenance and repair of facilities that are no longer required for gas service, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Texas Eastern requests authorization to abandon by sale to Regency, 5.97 miles of 14-inch diameter and 2.83 miles of 12-inch diameter pipelines designated as Line 2–H, and 2.1 miles of 12-inch diameter pipeline designated a Line 2–H–1. In additional, Texas Eastern proposes to remove certain related facilities. Regency specializes in the gathering and processing, contract compression, contract treating, transportation, fractionation and storage of natural gas and natural gas liquids. Regency intends to operate the pipelines as low-pressure gathering upon acquisition. The 2-H and 2-H-1 pipelines have not provided service to customers since April 2010, and its capacity is not currently subscribed under any firm service agreements.

Any questions concerning this application may be directed to Lisa A. Connolly, General Manager, Rates & Certificates, Texas Eastern
