The Exchange stated that waiver of this requirement would allow the Exchange to immediately offer Exchange Users additional variations of functionality that is already available on the Exchange. The Exchange also stated that the addition of a variation of Re-Route functionality that applies only when an order is crossed by an accessible Trading Center and the odd lot variation to the Super-Aggressive Re-Route instruction will benefit market participants and their customers by allowing them greater flexibility in their efforts to fill orders. The Commission believes that the waiver of the 30-day operative delay is consistent with the protection of investors and the public interest. Therefore, the Commission designates the proposed rule change to be operative upon filing.¹⁶

At any time within 60 days of the filing of such proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings under Section 19(b)(2)(B)¹⁷ of the Act to determine whether the proposed rule change should be approved or disapproved.
