

Administrator's need to acquire resources from conservation. BPA's existing Billing Credits Policy interprets the Billing Credits provisions in the Northwest Power Act, prescribes criteria for customer and resource eligibility, and establishes procedures for granting Billing Credits. With the proposed revision of BPA's Billing Credits Policy, BPA would consider customer requests for Billing Credits in exchange for a customer's independent acquisition of conservation performed during the FY2016–2017 rate period and throughout the duration of customers' existing Regional Dialogue contracts.

#### Billing Credit Amount

BPA proposes to develop a formula for determining the Billing Credit amount based on the costs that BPA avoids by not providing the customer Energy Efficiency Incentive (EEI) funding under Energy Conservation Agreements (ECA). The formula would be designed with the intent to reasonably assure rate neutrality for all customers, whether or not they choose to participate in the Billing Credit program.

The formula would be constructed as follows. BPA would determine the average annual incremental cost that BPA would incur by borrowing for, and managing the distribution of, EEI funds for the participating customers. In making that determination, BPA would use a comparable amortization period and interest rates matching those forecast in the rate case for the initial years the Billing Credit would be granted. The average annual incremental cost over the amortization period would represent the annual Billing Credit amount that a participating customer is expected to receive.

BPA's final rates would be updated to account for customer choices to forego the EEI and to include the costs of customer Billing Credits. A participating customer would agree to a Billing Credits special provision in its Regional Dialogue Contract that would define the amount of forecasted conservation savings the customer is obligated to achieve, which is expected to be the same amount that would have been achieved under the ECA.

#### Public Involvement

BPA has established a 30-day comment period during which customers, stakeholders, and any other interested parties are invited to comment on the proposed policy revision. This comment period will help BPA ensure that a full range of issues related to this proposal is addressed in

an Administrator's Record of Decision. BPA will consider and respond to comments received on the proposed policy revision. BPA's subsequent decision will be documented in an Administrator's Record of Decision.

#### National Environmental Policy Act

BPA is in the process of assessing the potential environmental effects of the proposed billing credits policy revision consistent with the National Environmental Policy Act. Comments regarding the potential environmental effects of the proposal may be submitted to Katherine Pierce, NEPA Compliance Officer, KEC-4, Bonneville Power Administration, 905 NE 11th Avenue, Portland, OR 97232. Any such comments received by the comment deadline will be considered by BPA's NEPA compliance staff in the NEPA process that will be conducted for this proposal.

Issued in Portland, Oregon, on October 1, 2014.

## ENVIRONMENTAL PROTECTION AGENCY

[EPA–HQ–OPPT–2014–0597; FRL–9917–00]

### Agency Information Collection Activities; Proposed Collection; Comment Request

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice.

**SUMMARY:** In compliance with the Paperwork Reduction Act (PRA), this document announces that EPA is planning to submit an Information Collection Request (ICR) to the Office of Management and Budget (OMB). The ICR, entitled: PCBs, Consolidated Reporting and Record Keeping Requirements and identified by EPA ICR No. 1446.11 and OMB Control No. 2070–0112, represents the renewal of an existing ICR that is scheduled to expire on August 31, 2015. Before submitting the ICR to OMB for review and approval, EPA is soliciting comments on specific aspects of the proposed information collection that is summarized in this document. The ICR and accompanying material are available in the docket for public review and comment.

**DATES:** Comments must be received on or before December 9, 2014.

**ADDRESSES:** Submit your comments, identified by docket identification (ID) number EPA–HQ–OPPT–2014–0597, by one of the following methods:

- *Federal eRulemaking Portal:* <http://www.regulations.gov>. Follow the online instructions for submitting comments. Do not submit electronically any information you consider to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute.

- *Mail:* Document Control Office (7407M), Office of Pollution Prevention and Toxics (OPPT), Environmental Protection Agency, 1200 Pennsylvania Ave., NW., Washington, DC 20460–0001.

- *Hand Delivery:* To make special arrangements for hand delivery or delivery of boxed information, please follow the instructions at <http://www.epa.gov/dockets/contacts.html>.

Additional instructions on commenting or visiting the docket, along with more information about dockets generally, is available at <http://www.epa.gov/dockets>.

**FOR FURTHER INFORMATION CONTACT:** For technical information contact: Toiya Goodlow, National Program Chemicals Division (7404–T), Office of Pollution Prevention and Toxics, Environmental Protection Agency, 1200 Pennsylvania Ave., NW., Washington, DC 20460–0001; telephone number: (202) 566–2305; email address: [goodlow.toiya@epa.gov](mailto:goodlow.toiya@epa.gov).

For general information contact: The TSCA-Hotline, ABVI-Goodwill, 422 South Clinton Ave., Rochester, NY 14620; telephone number: (202) 554–1404; email address: [TSCA-Hotline@epa.gov](mailto:TSCA-Hotline@epa.gov).

#### SUPPLEMENTARY INFORMATION:

##### I. What information is EPA particularly interested in?

Pursuant to PRA section 3506(c)(2)(A) (44 U.S.C. 3506(c)(2)(A)), EPA specifically solicits comments and information to enable it to:

1. Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility.

2. Evaluate the accuracy of the Agency's estimates of the burden of the proposed collection of information, including the validity of the methodology and assumptions used.

3. Enhance the quality, utility, and clarity of the information to be collected.

4. Minimize the burden of the collection of information on those who

are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses. In particular, EPA is requesting comments from very small businesses (those that employ less than 25) on examples of specific additional efforts that EPA could make to reduce the paperwork burden for very small businesses affected by this collection.

## II. What information collection activity or ICR does this action apply to?

*Title:* PCBs, Consolidated Reporting and Record Keeping Requirements.

*ICR number:* EPA ICR No. 1446.11.

*OMB control number:* OMB Control No. 2070-0112.

*ICR status:* This ICR is currently scheduled to expire on August 31, 2015. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the Code of Federal Regulations (CFR), after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, are displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers for certain EPA regulations is consolidated in 40 CFR part 9.

*Abstract:* Section 6(e)(1) of the Toxic Substances Control Act (TSCA), 15 USC 2605(e), directs EPA to regulate the marking and disposal of polychlorinated biphenyls (PCBs). Section 6(e)(2) bans the manufacturing, processing, distribution in commerce, and use of PCBs in other than a totally enclosed manner. Section 6(e)(3) establishes a process for obtaining exemptions from the prohibitions on the manufacture, processing, and distribution in commerce of PCBs. Since 1978, EPA has promulgated numerous rules addressing all aspects of the life cycle of PCBs as required by the statute. The regulations are intended to prevent the improper handling and disposal of PCBs and to minimize the exposure of human beings or the environment to PCBs. These regulations have been codified in the various subparts of 40 CFR 761. There are approximately 100 specific reporting, third-party reporting, and recordkeeping requirements covered by 40 CFR 761.

To meet its statutory obligations to regulate PCBs, EPA must obtain sufficient information to conclude that specified activities do not result in an

unreasonable risk of injury to health or the environment. EPA uses the information collected under the 40 CFR 761 requirements to ensure that PCBs are managed in an environmentally safe manner and that activities are being conducted in compliance with the PCB regulations. The information collected by these requirements will update the Agency's knowledge of ongoing PCB activities, ensure that individuals using or disposing of PCBs are held accountable for their activities, and demonstrate compliance with the PCB regulations. Specific uses of the information collected include determining the efficacy of a disposal technology; evaluating exemption requests and exclusion notices; targeting compliance inspections; and ensuring adequate storage capacity for PCB waste. This collection addresses the several information reporting requirements found in the PCB regulations.

Responses to the collection of information are mandatory (see 40 CFR part 761). Respondents may claim all or part of a response confidential. EPA will disclose information that is covered by a claim of confidentiality only to the extent permitted by, and in accordance with, the procedures in TSCA section 14 and 40 CFR part 2.

*Burden statement:* The annual public reporting and recordkeeping burden for this collection of information is estimated to average 1.36 hours per response. Burden is defined in 5 CFR 1320.3(b).

The ICR, which is available in the docket along with other related materials, provides a detailed explanation of the collection activities and the burden estimate that is only briefly summarized here:

*Respondents/Affected Entities:* Entities potentially affected by this ICR are persons who currently possess PCB items, PCB-contaminated equipment, or other PCB waste.

*Estimated total number of potential respondents:* 548,298.

*Frequency of response:* On occasion.

*Estimated total average number of responses for each respondent:* 1.0.

*Estimated total annual burden hours:* 745,926 hours.

*Estimated total annual costs:* \$29,778,544. This includes an estimated burden cost of \$29,778,544 and an estimated cost of \$0 for capital investment or maintenance and operational costs.

## III. Are there changes in the estimates from the last approval?

There is an increase of 60,591 hours in the total estimated respondent burden compared with that identified in

the ICR currently approved by OMB. This increase reflects EPA's revisions to the estimated total number of respondents, resulting from new data gathered for this ICR effort as well as another recent PCB regulatory analysis, plus updated Agency data regarding total numbers of regulated entities. The ICR supporting statement provides a detailed analysis of the change in burden estimate. This change is an adjustment.

## IV. What is the next step in the process for this ICR?

EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval pursuant to 5 CFR 1320.12. EPA will issue another **Federal Register** document pursuant to 5 CFR 1320.5(a)(1)(iv) to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB. If you have any questions about this ICR or the approval process, please contact the technical person listed under **FOR FURTHER INFORMATION CONTACT**.

*Authority:* 44 U.S.C. 3501 *et. seq.*

Dated: October 1, 2014.
