A. NTSB Training Center Evaluation Forms Are Appropriate for Generic Approval

On May 28, 2010, Administrator, Office of Information and Regulatory Affairs (OIRA), OMB, issued a memorandum to the Heads of Executive Departments and Agencies, and Independent Regulatory Agencies, providing instructions concerning how agencies can obtain generic OMB clearances for information collections in certain circumstances. Paperwork Reduction Act—Generic Clearances, available at http://www.whitehouse.gov/ sites/default/files/omb/assets/inforeg/ PRA Gen ICRs 5-28-2010.pdf. The memorandum states as follows concerning the appropriateness of obtaining such clearances:

A generic ICR is a request for OMB approval of a plan for conducting more than one information collection using very similar methods when (1) the need for and the overall practical utility of the data collection can be evaluated in advance, as part of the review of the proposed plan, but (2) the agency cannot determine the details of the specific individual collections until a later time.

The NTSB's desire to obtain information immediately following a training course will assist the NTSB Training Center in developing courses to achieve the NTSB's objective of improving investigators' and transportation industry peers' practices of accident investigation. The mission of the NTSB Training Center, in accordance with 49 U.S.C. 1113(b)(1)(I), is to promote safe transport by:

- Ensuring and improving the quality of accident investigation through critical thought, instruction, and research;
- Communicating lessons learned, fostering the exchange of new ideas and new experience, and advocating operational excellence;
- Providing a modern platform for accident reconstruction and evaluation; and
- Utilizing its high-quality training resources to facilitate family assistance and first responder programs, sister agency instruction, and other compatible federal activity.

In administering training courses designed to achieve these objectives, the NTSB seeks to maintain a standard of excellence. The NTSB's goal of providing materials, instructors, methods of instruction, and facility arrangements that are a worthy expenditure of Federal funds will
