

C. Description of Burden

The NTSB has carefully reviewed previous questionnaires it has used to obtain information from attendees of courses the NTSB Training Center offers. The NTSB assures the public that these questionnaires have used plain, coherent, and unambiguous terminology in its requests for feedback. In addition, the questionnaires are not duplicative of other agencies' collections of information, because the NTSB maintains unique authority to offer such courses concerning investigations of transportation events. 49 U.S.C. 1113(b)(1)(I).

In general, the NTSB believes the evaluation forms will impose a minimal burden on respondents: As indicated above, the NTSB estimates that each respondent will spend approximately 11 minutes in completing the evaluation. The NTSB estimates that a maximum of 240 respondents per year would complete an evaluation. Although the NTSB may distribute evaluations to perhaps as many as 600 people, historic response rates indicate only 40 percent of the evaluations will be returned completed. However, the NTSB again notes this number will vary, given the changes in course offerings at the NTSB Training Center.

D. Request for Comments

In accordance with 44 U.S.C. 3506(c)(2)(A), the NTSB seeks feedback from the public concerning this proposed plan for information collection. In particular, the NTSB asks the public to evaluate whether the proposed collection of information is necessary; to assess the accuracy of the NTSB's burden estimate; to comment on how to enhance the quality, utility, and clarity of the information to be collected; and to comment on how the NTSB might minimize the burden of the collection of information.

The NTSB will carefully consider all feedback it receives in response to this notice. As described above, obtaining the information the NTSB seeks on these evaluations in a timely manner is important to course offerings at the NTSB Training Center; therefore, obtaining approval from OIRA for these collections of information on a generic basis is a priority for the NTSB.
