

tribal consultation policy is not required. Affiliated Native American tribes were contacted by letters sent in June, 2012 and May, 2013 to solicit any interests or concerns with the proposed action. No responses were received by the Park.

*Paperwork Reduction Act (PRA)*

This rule does not contain information collection requirements, and a submission to the Office of Management and Budget under the PRA is not required.

*National Environmental Policy Act (NEPA)*

We have prepared an environmental impact statement and have determined that this rule will not have a significant effect on the quality of the human environment under the NEPA of 1969. The Plan/EIS for the Park and ROD that included an evaluation of bicycling within the proposed areas may be viewed online at <http://parkplanning.nps.gov/cuyahogatrailplan>.

*Effects on the Energy Supply (Executive Order 13211)*

This rule is not a significant energy action under the definition in Executive Order 13211. A statement of Energy Effects is not required.

**Clarity of This Regulation**

We are required by Executive Orders 12866 and 12988 and by the Presidential Memorandum of June 1, 1998, to write all rules in plain language. This means that each rule we publish must:

- (a) Be logically organized;
- (b) Use the active voice to address readers directly;
- (c) Use clear language rather than jargon;
- (d) Be divided into short sections and sentences; and
- (e) Use lists and tables wherever possible.

If you feel that we have not met these requirements, send us comments by one of the methods listed in the ADDRESSES section. To better help us revise the rule, your comments should be as specific as possible. For example, you should tell us the numbers of the sections or paragraphs that you find unclear, which sections or sentences are too long, the sections where you feel lists or tables would be useful, etc.

**Drafting Information**

The primary authors of this regulation are Lynn Garrity, Outdoor Recreation Planner, Cuyahoga Valley National Park, and C. Rose Wilkinson and A.J. North, NPS Regulations Program, Washington, DC.

**Public Participation**

It is the policy of NPS, whenever practicable, to afford the public an opportunity to participate in the rulemaking process. Accordingly, interested parties may submit written comments, suggestions, or objections regarding this proposed rule only as noted at the beginning of this rule. We will not accept comments by fax, email, or any other methods.

**Public Availability of Comments**

Before including your address, phone number, email address, or other personal identifying information in your comments, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

## ENVIRONMENTAL PROTECTION AGENCY

### 40 CFR Part 228

[EPA-R02-OW-2014-0587, FRL-9917-51-Region-2]

#### Modification of the Designations of the Caribbean Ocean Dredged Material Disposal Sites (San Juan Harbor, PR; Yabucoa Harbor, PR; Ponce Harbor, PR; Mayaguez Harbor, PR; Arecibo Harbor, PR)

**AGENCY:** Environmental Protection Agency.

**ACTION:** Proposed rule.

**SUMMARY:** The Environmental Protection Agency (EPA) is proposing to modify the designations for the five Ocean Dredged Material Disposal Sites (ODMDS) around Puerto Rico (San Juan Harbor, PR ODMDS; Yabucoa Harbor, PR ODMDS; Ponce Harbor, PR ODMDS; Mayaguez Harbor, PR ODMDS; Arecibo Harbor, PR ODMDS). Currently, each of the ODMDS is restricted to only allow disposal of dredged material from the specific harbor for which it is named. The proposed modification would remove the restriction that limits eligibility for disposal at each of the disposal sites based solely on the geographic origin of the dredged material. The proposed modifications to the site designations do not actually authorize the disposal of any particular dredged material at any site. All proposals to dispose of dredged material at any of the designated sites will continue to be subject to project-specific reviews and must still be demonstrated to satisfy the criteria for ocean dumping before any material is authorized for disposal. This action is necessary to provide long-term flexibility for management of any dredged material that may potentially be derived from maintenance, development, or emergency activities in areas outside those harbors currently
