Under the *Puyallup Tribe of Indians Settlement Act of 1989*, 25 U.S.C. 1773, Congress explicitly provided state and local agencies in Washington authority over activities on non-trust lands within the 1873 Survey Area. Consistent with EPA policy, the EPA nonetheless provided a consultation opportunity to the Puyallup Tribe in a letter dated September 3, 2013. The EPA did not receive a request for consultation.

Approval and Promulgation of Air Quality Implementation Plans; Illinois; Amendments to Gasoline Vapor Recovery Requirements for Illinois

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: The Environmental Protection Agency (EPA) is approving a state implementation plan (SIP) revision submitted by the Illinois Environmental Protection Agency on January 17, 2014, concerning the state's gasoline vapor recovery requirements. The SIP revision phases out the Stage II vapor recovery program requirements in the Illinois portion of the Chicago ozone nonattainment area as a component of the Illinois ozone SIP. The SIP revision also includes amendments to the state's permitting regulations applicable to storage tanks and fuel dispensing, including repealing the Stage I vapor recovery registration provisions due to overlapping Federal notification requirements and state tracking systems for gasoline dispensing operations. Finally, the SIP revision includes other clarifying and clean-up amendments at 35 Ill. Adm. Code Parts 201, 218, and 219. The submittal also includes a demonstration under section 110(l) of

the Clean Air Act that shows there are no emissions impacts associated with the removal of the program.

Approval and Promulgation of Implementation Plans; Washington: Infrastructure Requirements for the 2008 Ozone and 2010 Nitrogen Dioxide National Ambient Air Quality Standards

AGENCY: Environmental Protection Agency.

ACTION: Proposed rule.

SUMMARY: The Environmental Protection Agency (EPA) is proposing to partially approve and partially disapprove the State Implementation Plan (SIP) submittal from Washington, received September 22, 2014, demonstrating that the SIP meets the infrastructure requirements of the Clean Air Act (CAA) for the National Ambient Air Quality Standards (NAAQS) promulgated for ozone on March 12, 2008, and nitrogen dioxide (NO₂) on January 22, 2010. The CAA requires that each state, after a new or revised NAAQS is promulgated, review their SIP to ensure that it meets the infrastructure requirements necessary to implement the new or revised NAAQS. Washington certified that the Washington SIP meets the infrastructure requirements of the CAA for the ozone and NO₂ NAAQS, except for those requirements related to the Prevention of Significant Deterioration (PSD) permitting program currently operated under a Federal Implementation Plan (FIP), certain elements of the regional haze program currently operated under a FIP, and

specific requirements related to interstate transport which will be addressed in a separate submittal. The EPA is proposing to find that Washington’s SIP is adequate for purposes of the infrastructure SIP requirements of the CAA with the exceptions noted above. The EPA is proposing to find that the SIP deficiencies related to PSD permitting and regional haze, however, have been adequately addressed by the existing EPA FIPs and, therefore, no further action is required by Washington or the EPA for those elements. The EPA will address the remaining interstate transport requirements in a separate action.
