Piñon Canyon Maneuver Site Training and Operations Environmental Impact Statement

AGENCY: Department of the Army, DoD.

ACTION: Notice of availability.

SUMMARY: The Department of the Army announces the availability of the draft Environmental Impact Statement (EIS) for proposed training and operations at Piñon Canyon Maneuver Site (PCMS), CO. PCMS is the maneuver site for Fort Carson and is located near Trinidad, CO, approximately 150 miles southeast of Fort Carson. The draft EIS evaluates the environmental impacts associated with the proposed action, which is to conduct realistic, coordinated, large-scale training that integrates the ground and air resources of Fort Carson's mechanized, infantry, support, and combat aviation units.

In addition to the No Action Alternative, the draft EIS considers the two alternatives: Alternative 1A—would establish and use new brigade-level training intensity measures; update brigade training period equipment compositions and training methods relative to the 1980 Final EIS for the PCMS Training Land Acquisition; and enable the Stryker family of vehicles to train at PCMS. Alternative 1B—would include Alternative 1A and add enhanced readiness training using new training activity and infrastructure components at PCMS. Alternative 1B infrastructure components include airspace reclassification and drop zone development. The proposed action is composed of numerous components and the decision-maker may elect not to select every component. The proposed action does not include, nor would it require, expansion of PCMS.

ADDRESSES: Written comments should be sent to the Fort Carson NEPA Program Manager, Directorate of Public Works, Environmental Division, 1626 Evans Street, Building 1219, Fort Carson, CO 80913-4362, or call (719) 526-4666.
