(1) *Reporting waiver.* In light of the unique business and operational circumstances with respect to Noncommercial Educational Webcasters, and for the purposes of this subpart only, a Noncommercial Educational Webcaster that did not exceed 80,000 total ATH for any individual channel or station for more than one calendar month in the immediately preceding calendar year and that does not expect to exceed 80,000 total ATH for any individual channel or station for any calendar month during the applicable calendar year may elect to pay to the Collective a nonrefundable, annual Proxy Fee of \$100 in lieu of providing reports of use for the calendar year pursuant to the regulations § 370.4 of this chapter. In addition, a Noncommercial Educational Webcaster that unexpectedly exceeded 80,000 total ATH on one or more channels or stations for more than one month during the immediately preceding calendar year may elect to pay the Proxy Fee and receive the reporting waiver described in paragraph (g)(1) of this section during a calendar year, if it implements measures reasonably calculated to ensure that it will not make Eligible Transmissions exceeding 80,000 total ATH during any month of that calendar year. The Proxy Fee is intended to defray the Collective's costs associated with this reporting waiver, including development of proxy usage data. The Proxy Fee shall be paid by the date specified in paragraph (c) of this section for paying the Minimum Fee for the applicable calendar year and shall be accompanied by a certification on a form provided by the Collective, signed by a duly authorized representative of the applicable educational institution, stating that the Noncommercial Educational Webcaster is eligible for the Proxy Fee option because of its past and expected future usage and, if applicable, has implemented measures to ensure that it will not make excess Eligible Transmissions in the future.

(3) *Census-basis reports.* If any of the following three conditions is satisfied, a Noncommercial Educational Webcaster must report pursuant to paragraph (g)(3) of this section:

(i) The Noncommercial Educational Webcaster exceeded 159,140 total ATH for any individual channel or station for more than one calendar month in the immediately preceding calendar year;

National Oil and Hazardous Substances Pollution Contingency Plan; Technical Amendment To Update Data Management System Nomenclature

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: Effective January 31, 2014 the EPA Superfund program decommissioned the Comprehensive Environmental Response Compensation and Liability Act Information System (CERCLIS) and adopted a new, more comprehensive data management system. The new data management system, the Superfund Enterprise Management System (SEMS), serves as a more powerful, integrated platform.

Consistent with this action, this proposed rule proposes to make appropriate conforming terminological changes to our regulations. This proposed rule also proposes to add a minor clarification to the description of the remedial preliminary assessment.

SUPPLEMENTARY INFORMATION:

I. Why is EPA issuing this proposed rule?

This document proposes to amend the National Oil and Hazardous Substances Pollution Contingency Plan (NCP) to make nonsubstantive changes to reflect new data management system nomenclature resulting from the Superfund program's transition from CERCLIS to SEMS. This document also adds minor clarifying text to a description in the NCP that will make the regulations more accurate. We have published a direct final rule to promulgate the above changes in the "Rules and Regulations" section of today's **Federal Register** because we view this as a noncontroversial action and anticipate no adverse comment. We have explained our reasons for this action in the preamble to the direct final rule.

If we receive no adverse comment, we will not take further action on this proposed rule. If we receive adverse comment, we will issue a timely withdrawal of the direct final rule and it will not take effect. We would address all relevant public comments in any subsequent final rule based on this proposed rule. We do not intend to

institute a second comment period on this action. Any parties interested in commenting must do so at this time. For further information, please see the information provided in the **ADDRESSES** section of this document. Comments are only being solicited on the deletion of reference to CERCLIS and the addition of clarifying text to the remedial preliminary assessment description. Therefore, comments are not being requested on other unmodified sections of the NCP nor on EPA's internal agency management decision to update the Superfund data management system, and such comments will not be considered if submitted.

II. What does this amendment do?

This rule proposes to revise the Operational Abbreviations section (40 CFR 300.4(b)) and the Definitions section (40 CFR 300.5) of the NCP to reflect terminological changes necessary for consistency with EPA's transition from CERCLIS as the Superfund program's planning and tracking data management system to SEMS. This rule also amends the Remedial preliminary assessment description (40 CFR 420(b)) to clarify that the Preliminary Assessment (PA) is performed on only those sites that have been entered into the SEMS remedial assessment active inventory.

III. Statutory and Executive Order Reviews

For a complete discussion of all of the administrative requirements applicable to this action, see the discussion in the "Statutory and Executive Order Reviews" section to the preamble for the direct final rule that is published in the Rules and Regulations section of this **Federal Register**.

Under Executive Order 12866 (58 FR 51735, October 4, 1993) and Executive Order 13563 (76 FR 3821, January 21, 2011), this proposed action is not a "significant regulatory action" and is therefore not subject to OMB review. This action merely deletes an obsolete reference to a retired information system and adds minor clarifying text to a description in the NCP. This action does not impose any requirements on any entity, including small entities. Therefore, pursuant to the Regulatory Flexibility Act (5 U.S.C. 601 et seq.), after considering the economic impacts of this action on small entities, I certify that this action will not have a significant economic impact on a substantial number of small entities.
