

SUPPLEMENTARY INFORMATION: Several agencies and individuals notified the U.S. Fish and Wildlife Service (Service) that a suspected gray wolf (*Canis lupus*) was wandering in the area of the North Rim of the Grand Canyon in Arizona. Without being able to trap and identify the animal, it is unknown as to whether it is a gray wolf or some type of wolf-dog hybrid. We believe it is in the animal's best interest, with the upcoming deer hunting season opening in this area of Arizona, to capture, affix a brightly colored radio collar (if it is found to be a gray wolf), and draw blood (to identify the species), to help protect the animal from harm. We, the Service, under an Endangered Species Act (16 U.S.C. 1531 *et seq.*) permit, have authorized the following researchers to conduct the above-mentioned activities for gray wolf in the North Rim of the Grand Canyon, Arizona.

Permit TE-676811

Applicant: U.S. Fish and Wildlife Service, Region 2, Regional Director Blanket Permit, Albuquerque, New Mexico.

We approved the applicant's request for an amendment to a current permit for research and recovery purposes to survey for, locate, capture, temporarily hold, draw blood, and radio collar, a gray wolf (*Canis lupus*) within the area of the North Rim of the Grand Canyon, Arizona.

This emergency permit is issued for the sole purpose of protecting the suspected gray wolf in Arizona. Any further authorization for surveys or research of the gray wolf will be processed separately.

Authority: 16 U.S.C. 1531 *et seq.*

Dated: October 30, 2014.

Joy E. Nicholopoulos,

Deputy Regional Director, Southwest Region, U.S. Fish and Wildlife Service.
