SUPPLEMENTARY INFORMATION: This direct final rule makes nonsubstantive changes to the OSD Privacy Program rules. These changes will allow the Department to add an exemption rule to the OSD Privacy Program rules that will exempt applicable Department records and/or material from certain portions of the Privacy Act. This is being published as a direct final rule as the Department of Defense does not expect to receive any adverse comments, and so a proposed rule is unnecessary.

Direct Final Rule and Significant Adverse Comments

DoD has determined this rulemaking meets the criteria for a direct final rule because it involves nonsubstantive changes dealing with DoD's management of its Privacy Programs. DoD expects no opposition to the changes and no significant adverse comments. However, if DoD receives a significant adverse comment, the Department will withdraw this direct final rule by publishing a notice in the **Federal Register**. A significant adverse comment is one that explains: (1) Why the direct final rule is inappropriate, including challenges to the rule's underlying premise or approach; or (2) why the direct final rule will be ineffective or unacceptable without a change. In determining whether a comment necessitates withdrawal of this direct final rule, DoD will consider whether it warrants a substantive response in a notice and comment process.

Executive Order 12866, "Regulatory Planning and Review" and Executive Order 13563, "Improving Regulation and Regulatory Review"

It has been determined that this rule is not a significant rule. This rule does not (1) Have an annual effect on the economy of \$100 million or more or adversely affect in a material way the economy; a sector of the economy; productivity; competition; jobs; the environment; public health or safety; or State, local, or tribal governments or communities; (2) Create a serious inconsistency or otherwise interfere with an action taken or planned by another Agency; (3) Materially alter the budgetary impact of entitlements, grants, user fees, or loan programs, or the rights and obligations of recipients thereof; or (4) Raise novel legal or policy issues arising out of legal mandates, the President's priorities, or the principles set forth in these Executive orders.

Public Law 96-354, "Regulatory Flexibility Act" (5 U.S.C Chapter 6)

It has been certified that this rule does not have a significant economic impact on a substantial number of small entities because it is concerned only with the administration of Privacy Act systems of records within DoD. A Regulatory Flexibility Analysis is not required.

Public Law 96-511, "Paperwork Reduction Act" (44 U.S.C. Chapter 35)

It has been determined that this rule does not impose additional information collection requirements on the public under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 et seq.).

Section 202, Public Law 104-4, "Unfunded Mandates Reform Act"

It has been determined that this rule does not involve a Federal mandate that may result in the expenditure by State, local and tribal governments, in the aggregate, or by the private sector, of \$100 million or more and that it will not significantly or uniquely affect small governments.

Executive Order 13132, "Federalism"

It has been determined that this rule does not have federalism implications. This rule does not have substantial direct effects on the States, on the relationship between the National Government and the States, or on the distribution of power and responsibilities among the various levels of government.

List of Subjects in 32 CFR Part 311

Privacy.

Accordingly, 32 CFR part 311 is amended as follows:

PART 311—OFFICE OF THE SECRETARY OF DEFENSE AND JOINT STAFF PRIVACY PROGRAM

- 1. The authority citation for part 311 continues to read as follows:

Authority: 5 U.S.C. 522a.

- 2. Section 311.8 is amended by adding paragraph (c)(23) to read as follows:

§ 311.8 Procedures for exemptions.

* * * * *

(c) * * *

(23) System identifier and name: DMDC 17 DoD, Continuous Evaluation Records for Personnel Security.

(i) Exemption: In the course of carrying out records checks for continuous evaluation, exempt records from other systems of records may in turn become part of the case records maintained in this system. To the extent that copies of exempt records from those

'other' systems of records are maintained into this system, OSD claims the same exemptions for the records from those 'other' systems that are entered into this system, as claimed for the original primary system of which they are a part.

(ii) Authority: 5 U.S.C. 552a(j)(2), (k)(1), (k)(2), (k)(3), (k)(5), (k)(6), and (k)(7).

(iii) Reasons: Records are only exempt from pertinent provisions of 5 U.S.C. 552a to the extent that such provisions have been identified and an exemption claimed for the original record and the purposes underlying the exemption for the original record still pertain to the record which is now maintained in this system of records. In general, the exemptions were claimed in order to protect properly classified information relating to national defense and foreign policy; to avoid interference during the conduct of criminal, civil, or administrative actions or investigations; to ensure protective services provided the President and others are not compromised; to protect the identity of confidential sources incident to Federal employment, military service, contract, and security clearance determinations; to preserve the confidentiality and integrity of Federal testing materials; and to safeguard evaluation materials used for military promotions when furnished by a confidential source. The exemption rule for the original records will identify the specific reasons why the records are exempt from specific provisions of 5 U.S.C. 552a.

40 CFR Part 52

[EPA-R10-OAR-2014-0343; FRL-9918-84-Region 10]

Approval and Promulgation of Implementation Plans; Washington: Nonattainment New Source Review

AGENCY: Environmental Protection Agency.

ACTION: Final rule.

SUMMARY: The Environmental Protection Agency (EPA) is approving revisions to the Washington State Implementation Plan (SIP) that were submitted by the Department of Ecology (Ecology) on

January 27, 2014. These revisions update the preconstruction permitting regulations for large industrial (major source) facilities located in designated nonattainment areas, referred to as the Nonattainment New Source Review (major nonattainment NSR or major NNSR) program. While these revisions update Ecology's major NNSR program generally, the most significant change is the incorporation of regulations to implement major NNSR for fine particulate matter, particles with an aerodynamic diameter less than or equal to a nominal 2.5 micrometers (PM_{2.5}). The major NNSR program is designed to ensure that major stationary sources of air pollution are constructed or modified in a manner that is consistent with attainment and maintenance of the National Ambient Air Quality Standards (NAAQS).

DATES: This final rule is effective on December 8, 2014.

ADDRESSES: The EPA has established a docket for this action under Docket ID No. EPA-R10-OAR-2014-0343. All documents in the docket are listed on the www.regulations.gov Web site. Although listed in the index, some information is not publicly available, e.g., Confidential Business Information (CBI) or other information the disclosure of which is restricted by statute. Certain other material, such as copyrighted material, is not placed on the Internet and will be publicly available only in hard copy form. Publicly available docket materials are available either electronically through www.regulations.gov or in hard copy at the Air Programs Unit, Office of Air Waste and Toxics, EPA Region 10, 1200 Sixth Avenue, Seattle, WA, 98101. The EPA requests that if at all possible, you contact the individual listed in the **FOR FURTHER INFORMATION CONTACT** section to view the hard copy of the docket. You may view the hard copy of the docket

I. Background Information

On January 27, 2014, Washington submitted revisions updating the general air quality regulations that apply to sources within Ecology's jurisdiction, including the major nonattainment NSR permitting program. On July 25, 2014, the EPA proposed to approve the major nonattainment NSR-related provisions contained in the submittal (79 FR 43345). An explanation of the CAA requirements, a detailed explanation of the revisions, and the EPA's reasons for approval were provided in the notice of proposed rulemaking, and will not be restated here. The public comment period for this proposed rule ended on August 25, 2014. We did not receive any comments on the proposal.

II. Final Action

The EPA is approving the major nonattainment NSR-related provisions

listed in the table below. As discussed in the proposed rulemaking, the EPA intends to take action on the remaining provisions included in Ecology's January 27, 2014 submittal, related to the Prevention of Significant Deterioration and visibility permitting requirements for major stationary sources, in a separate, future action. The EPA is also approving the general air quality regulations contained in Washington Administrative Code (WAC) 173-400-110 through-112 and WAC 173-400-171, which were previously approved by the EPA for purposes of minor new source review, as consistent with the EPA's requirements for major nonattainment NSR. For more information see 79 FR 59653, October 3, 2014.

At this time, the EPA's approval of the major nonattainment NSR-related provisions listed in the table below is limited to only those counties or sources where Ecology has direct jurisdiction. This approval excludes sources subject to Energy Facility Site Evaluation Council (EFSEC) or local clean air agency jurisdiction, as described in the proposed rulemaking. The counties where Ecology has direct jurisdiction are: Adams, Asotin, Chelan, Columbia, Douglas, Ferry, Franklin, Garfield, Grant, Kittitas, Klickitat, Lincoln, Okanogan, Pend Oreille, San Juan, Stevens, Walla Walla, and Whitman. The EPA also notes that under the SIP-approved provisions of WAC 173-405-012, WAC 173-410-012, and WAC 173-415-012, Ecology has statewide, direct jurisdiction for kraft pulping mills, sulfite pulping mills, and primary aluminum plants, including the RockTenn facility located in the Tacoma-Pierce County fine particulate matter nonattainment area.

III. Statutory and Executive Orders Review

Under the CAA, the Administrator is required to approve a SIP submission that complies with the provisions of the Act and applicable Federal regulations. 42 U.S.C. 7410(k); 40 CFR 52.02(a). Thus, in reviewing SIP submissions, the EPA's role is to approve State choices, provided that they meet the criteria of the Clean Air Act. Accordingly, this action merely approves State law as meeting Federal requirements and does not impose additional requirements beyond those imposed by State law. For that reason, this action:

- Is not a "significant regulatory action" subject to review by the Office of Management and Budget under Executive Order 12866 (58 FR 51735, October 4, 1993);
- does not impose an information collection burden under the provisions of the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*);
- is certified as not having a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*);
- does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104-4);
- does not have Federalism implications as specified in Executive Order 13132 (64 FR 43255, August 10, 1999);
- is not an economically significant regulatory action based on health or safety risks subject to Executive Order 13045 (62 FR 19885, April 23, 1997);
- is not a significant regulatory action subject to Executive Order 13211 (66 FR 28355, May 22, 2001);
- is not subject to requirements of Section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) because this action does not involve technical standards; and
- does not provide the EPA with the discretionary authority to address, as appropriate, disproportionate human

health or environmental effects, using practicable and legally permissible methods, under Executive Order 12898 (59 FR 7629, February 16, 1994).

The SIP is not approved to apply on any Indian reservation land in Washington except for as specifically noted below and is also not approved to apply in any other area where the EPA or an Indian tribe has demonstrated that a tribe has jurisdiction. In those areas of Indian country, the rule does not have tribal implications as specified by Executive Order 13175 (65 FR 67249, November 9, 2000), nor will it impose substantial direct costs on tribal governments or preempt tribal law. Washington's SIP is approved to apply on non-trust land within the exterior boundaries of the Puyallup Indian Reservation, also known as the 1873 Survey Area. Under the *Puyallup Tribe of Indians Settlement Act of 1989*, 25 U.S.C. 1773, Congress explicitly provided state and local agencies in Washington authority over activities on non-trust lands within the 1873 Survey Area. Consistent with EPA policy, the EPA nonetheless provided a consultation opportunity to the Puyallup Tribe in a letter dated February 25, 2014. The EPA did not receive a request for consultation.

The Congressional Review Act, 5 U.S.C. 801 *et seq.*, as added by the Small Business Regulatory Enforcement Fairness Act of 1996, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. The EPA will submit a report containing this action and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of the rule in the **Federal Register**. A major rule cannot take effect until 60 days after it is published in the **Federal Register**. This action is not a "major rule" as defined by 5 U.S.C. 804(2).

Under section 307(b)(1) of the Clean Air Act, petitions for judicial review of

this action must be filed in the United States Court of Appeals for the appropriate circuit by January 6, 2015. Filing a petition for reconsideration by the Administrator of this final rule does not affect the finality of this action for the purposes of judicial review nor does it extend the time within which a petition for judicial review may be filed, and shall not postpone the effectiveness of such rule or action. This action may not be challenged later in proceedings to enforce its requirements. (See section 307(b)(2).)

SUPPLEMENTARY INFORMATION:

I. General Information

A. Does this action apply to me?

You may be potentially affected by this action if you are an agricultural producer, food manufacturer, or pesticide manufacturer. The following list of North American Industrial Classification System (NAICS) codes is not intended to be exhaustive, but rather provides a guide to help readers determine whether this document applies to them. Potentially affected entities may include:

- Crop production (NAICS code 111).
- Animal production (NAICS code 112).
- Food manufacturing (NAICS code 311).
- Pesticide manufacturing (NAICS code 32532).

B. How can I get electronic access to other related information?

You may access a frequently updated electronic version of EPA’s tolerance regulations at 40 CFR part 180 through
