SUPPLEMENTARY INFORMATION:

OMB Control Number: 1010–0151.
Title: 30 CFR 550, Subpart B, Plans and Information.

Forms: BOEM–0137, BOEM–0138, BOEM–0139, BOEM–0141, BOEM–0142.

Abstract: The Outer Continental Shelf (OCS) Lands Act, as amended (43 U.S.C. 1331 *et seq.* and 43 U.S.C. 1801 *et seq.*), authorizes the Secretary of the Interior to prescribe rules and regulations to administer leasing of mineral resources on the OCS. Such rules and regulations apply to all operations conducted under a lease, right-of-use and easement, or unit. The OCS Lands Act, at U.S.C. 1340 and 1351, requires the holders of OCS oil and gas or sulphur leases to submit exploration plans (EPs) and development and production plans (DPPs) to the Secretary for approval prior to commencing these activities. Also, as a Federal agency, we have a continuing affirmative duty to comply with the National Environmental Policy Act (NEPA), Endangered Species Act (ESA), and the Marine Mammal Protection Act (MMPA). This includes a substantive duty to carry out any agency action in a manner that is not likely to jeopardize protected species as well as a procedural duty to consult with the U.S. Fish and Wildlife Service (FWS) and National Oceanic and Atmospheric Administration Fisheries (NOAA Fisheries) before engaging in a discretionary action that may affect a protected species.

These authorities and responsibilities are among those delegated to BOEM. The regulations at 30 CFR 550, Subpart B, concern plans and information that must be submitted to conduct activities on a lease, right-of-use and easement, or unit and are the subject of this collection. The collection also covers the related Notices to Lessees and Operators (NTLs) that BOEM issues to clarify, supplement, or provide additional guidance on some aspects of our regulations.

BOEM geologists, geophysicists, and environmental scientists and other Federal agencies (e.g., FWS, NOAA Fisheries) analyze and evaluate the

information and data collected under Subpart B to ensure that planned operations are safe; will not adversely affect the marine, coastal, or human environment; and will conserve the resources of the OCS. We use the information to (a) make an informed decision on whether to approve the proposed exploration or development and production plan as submitted, or whether modifications are necessary without the analysis and evaluation of the required information. The affected States also review the information collected to determine consistency with approved Coastal Zone Management (CZM) plans and (b) report annually to NOAA Fisheries the effectiveness of mitigation, any adverse effects of the proposed action, and any incidental take, in accordance with 50 CFR 402.14(i)(3).

The following forms are submitted to BOEM under Subpart B.

BOEM-0137—Plan Information Form is submitted to summarize plan information. BOEM uses the information to review and evaluate submitted OCS plans. In this renewal, BOEM is modifying the form to clarify the wording of some fields, remove redundant fields, and make some minor formatting adjustments. We do not expect any change in the hour burden as a result.

BOEM-0138—Gulf of Mexico Air Emission Calculations for Exploration Plans; BOEM-0139—Gulf of Mexico Air Emission Calculations for Development and Production Plans (DPPs)/ Development Operations Coordination Documents (DOCDs) are submitted to standardize the way potential air emissions are estimated and approved as part of the OCS plan. BOEM uses the data from these forms to determine the effect of air emissions on the environment.

BOEM-0141—ROV Survey Report is submitted to report the observations and information recorded from two sets of remotely operated vehicle (ROV) monitoring surveys to identify high-density benthic communities that may occur on the seafloor in deep water. BOEM uses the information to help design mitigation measures to avoid these areas and to help assess the effectiveness of avoidance criteria.

BOEM-0142—Environmental Impact Analysis Worksheet identifies the environmental impact-producing factors for the listed environmental resources. BOEM uses the information to help assess impacts and determine compliance with NEPA.

We will protect information considered proprietary under the Freedom of Information Act (5 U.S.C. 552) and its implementing regulations (43 CFR 2), 30 CFR 550.197, “Data and information to be made available to the public or for limited inspection,” and 30 CFR part 552, “Outer Continental Shelf (OCS) Oil and Gas Information Program.” No items of a sensitive nature are collected. Responses are mandatory.

Frequency: On occasion, semi-monthly, or varies by section.

Description of Respondents: Potential respondents comprise Federal OCS oil, gas, or sulphur lessees and operators.

Estimated Reporting and Recordkeeping Hour Burden: We expect the estimated annual reporting burden for this collection to be 432,512 hours. The following table details the individual components and respective hour burden estimates of this ICR. In calculating the burdens, we assumed that respondents perform certain requirements in the normal course of their activities. We consider these to be usual and customary and took that into account in estimating the burden.

Estimated Reporting and Recordkeeping Non-Hour Cost Burden: We have identified three non-hour costs associated with this information collection that are cost recovery fees. They consist of fees being submitted with EP's (\$3,673), DPP's or DOC'D's (\$4,238), and CID's (\$27,348).

There is also one non-hour cost burden associated with the Protected Species Observer Program. The cost associated with this program is due to observation activities that are usually subcontracted to other service companies with expertise in these areas (see above table). The total non-hour cost burden for this collection is \$3,939,435.

AGENCY: Bureau of Ocean Energy Management (BOEM), Interior.

ACTION: Notice of Availability (NOA) of a Draft Supplemental Environmental Impact Statement and Notice of Public Hearings.

SUMMARY: BOEM is announcing the availability of a Draft Second Supplemental Environmental Impact Statement (SEIS) for the Chukchi Sea Planning Area, OCS Oil and Gas Lease Sale 193 (Lease Sale 193). The Draft Second SEIS (OCS EIS/EA BOEM 2014-653) provides new analysis in accordance with the United States District Court for the District of Alaska (District Court) Order remanding Lease Sale 193 to BOEM. The District Court's order instructs BOEM to address the deficiency in the 2007 Final EIS (OCS EIS/EA MMS 2007-026) identified by the U.S. Court of Appeals for the Ninth Circuit (Ninth Circuit). The Ninth Circuit Court held that the Environmental Impact Statement supporting the decision to hold Lease
