SUPPLEMENTARY INFORMATION:

- II. Description of the Proposed Amendment
- III. Public Comment Procedures
- IV. Procedural Determinations

I. Background on the Mississippi Plan

The Abandoned Mine Land Reclamation Program was established by Title IV of the Act, (30 U.S.C. 1201 *et seq.*) in response to concerns over extensive environmental damage caused by past coal mining activities. The program is funded by a reclamation fee collected on each ton of coal that is produced. The money collected is used to finance the reclamation of abandoned

coal mines and for other authorized activities. Section 405 of the Act allows States and Indian tribes to assume exclusive responsibility for reclamation activity within the State or on Indian lands if they develop and submit to the Secretary of the Interior for approval, a program (often referred to as a plan) for the reclamation of abandoned coal mines. On September 27, 2007, the Secretary of the Interior approved the Mississippi plan. You can find background information on the Mississippi Plan, including the Secretary's findings, the disposition of comments, and the approval of the plan in the September 27, 2007, **Federal Register** (72 FR 54832). No amendments have previously been made to the Mississippi Plan.

II. Description of the Proposed Mississippi Amendment

By letter dated August 11, 2014 (Administrative Record No. MS-0424), Mississippi indicated to OSMRE that it has instituted the necessary processes to reclaim the remaining coal related problems within the State. As such, Mississippi seeks certification of completion of all coal-related problems. If this request is approved by OSMRE, it will mark the addressing, for the present, of all known existing coal-related problems within the State that are eligible for funding under Mississippi's AMLR Program.

If approved, the certificate of completion will be codified at 30 CFR 924.25. In accordance with 30 CFR 875.13(c), Mississippi may then implement a program under Section 411 of SMCRA.

OSMRE is seeking public comment on the adequacy of Mississippi's certification that it has addressed all reclamation relating to abandoned coal mine lands. In addition, OSMRE is aware of the potential for problems to occur in the future related to pre-August 3, 1977, coal mining. In accordance with 30 CFR 875.13(a)(3), Mississippi agrees to acknowledge and give top priority to any coal-related problem(s) that may be found or occur after submission of the certificate of completion.

The full text of the plan amendment is available for you to read at the locations listed above under **ADDRESSES** or at www.regulations.gov.

III. Public Comment Procedures

Under the provisions of 30 CFR 884.15(a), we are seeking your comments on whether Mississippi's proposed amendment satisfies the applicable reclamation plan approval criteria of 30 CFR 884.14. If we approve

the amendment, it will become part of the Mississippi Plan.

Electronic or Written Comments

If you submit written comments, they should be specific, confined to issues pertinent to the proposed regulations, and explain the reason for any recommended change(s). We appreciate any and all comments, but those most useful and likely to influence decisions on the final regulations will be those that either involve personal experience or include citations to and analyses of SMCRA, its legislative history, its implementing regulations, case law, other pertinent State or Federal laws or regulations, technical literature, or other relevant publications.

We cannot ensure that comments received after the close of the comment period (see **DATES**) or sent to an address other than those listed (see **ADDRESSES**) will be included in the docket for this rulemaking and considered.

Public Availability of Comments

Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment including your personal identifying information may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Public Hearing

If you wish to speak at the public hearing, contact the person listed under **FOR FURTHER INFORMATION CONTACT** by 4:00 p.m., c.d.t. on November 28, 2014. If you are disabled and need reasonable accommodations to attend a public hearing, contact the person listed under **FOR FURTHER INFORMATION CONTACT**. We will arrange the location and time of the hearing with those persons requesting the hearing. If no one requests an opportunity to speak, we will not hold a hearing.

To assist the transcriber and ensure an accurate record, we request, if possible, that each person who speaks at the public hearing provide us with a written copy of his or her comments. The public hearing will continue on the specified date until everyone scheduled to speak has been given an opportunity to be heard. If you are in the audience and have not been scheduled to speak and wish to do so, you will be allowed to speak after those who have been scheduled. We will end the hearing after everyone scheduled to speak and others

present in the audience who wish to speak, have been heard.

Public Meeting

If only one person requests an opportunity to speak, we may hold a public meeting rather than a public hearing. If you wish to meet with us to discuss the amendment, please request a meeting by contacting the person listed under **FOR FURTHER INFORMATION CONTACT**. All such meetings are open to the public; if possible, we will post notices of meetings at the locations listed under **ADDRESSES**. We will make a written summary of each meeting a part of the administrative record.

IV. Procedural Determinations

Executive Order 12866—Regulatory Planning and Review

This rule is exempted from review by the Office of Management and Budget (OMB) under Executive Order 12866.

Other Laws and Executive Orders Affecting Rulemaking

The Federal regulations at 30 CFR 884.14(a) list the requirements that must be met in order for OSMRE to approve a State reclamation plan amendment or revision if it changes the objectives, scope, or major policies followed by the State in the conduct of its reclamation program. Following our review of the proposed amendment or revision, we will also make the determinations and certifications required by the various laws and executive orders governing the rulemaking process and include them in the final rule.
