Electronic or Written Comments

If you submit written comments, they should be specific, confined to issues pertinent to the proposed regulations, and explain the reason for any recommended change(s). We appreciate any and all comments, but those most useful and likely to influence decisions on the final regulations will be those that either involve personal experience or include citations to and analyses of SMCRA, its legislative history, its implementing regulations, case law, other pertinent State or Federal laws or regulations, technical literature, or other relevant publications.

We cannot ensure that comments received after the close of the comment period (see **DATES**) or sent to an address other than those listed (see **ADDRESSES**) will be included in the docket for this rulemaking and considered.

SUPPLEMENTARY INFORMATION:

- I. Background on the Wyoming Program
- II. Description of the Proposed Amendment
- III. Public Comment Procedures
- IV. Procedural Determinations

I. Background on the Wyoming Program

Section 503(a) of the Act permits a State to assume primacy for the regulation of surface coal mining and reclamation operations on non-Federal and non-Indian lands within its borders by demonstrating that its State program includes, among other things, "a State law which provides for the regulation of surface coal mining and reclamation operations in accordance with the requirements of this Act . . . ; and rules and regulations consistent with regulations issued by the Secretary pursuant to this Act." See 30 U.S.C. 1253(a)(1) and (7). On the basis of these criteria, the Secretary of the Interior conditionally approved the Wyoming program on November 26, 1980. You can find background information on the Wyoming program, including the Secretary's findings, the disposition of comments, and the conditions of approval of the Wyoming program in the November 26, 1980, **Federal Register** (45 FR 78637). You can also find later actions concerning Wyoming's program and program amendments at 30 CFR 950.15, 950.16, and 950.20.

II. Description of the Proposed Amendment

By letter dated September 30, 2014, Wyoming sent us a proposed amendment to its approved regulatory program (Administrative Record Docket ID No. OSM-2014-0007) under SMCRA (30 U.S.C. 1201 *et seq.*). Wyoming submitted the amendment to address

deficiencies that OSMRE previously identified during its review of formal valid existing rights (WY-044-FOR; Docket ID No. OSM-2013-0001) and ownership and control (WY-045-FOR; Docket ID No. OSM-2013-0002) amendments. The amendment also revises a provision concerning periodic monitoring of blasting in response to a concern that the Casper Area Office identified during its annual oversight review of the Wyoming program.

Specifically, Wyoming proposes to amend the Land Quality Division Coal Rules and Regulations at Chapter 1, Section 2(aa) (definition of "Control or controller"); the title of Chapter 2 (permit application requirements for surface coal mining operations); Chapter 2, Section 2(a)(i)(B) (ownership and control permit application information including a complete identification of interests); Chapter 2, Section 2(a)(ii)(A)(I) (ownership and control permit application information including a complete statement of compliance); Chapter 6, Section 4(b)(i)(A) (blasting standards; periodic monitoring of blasting); Chapter 12, Section 1(a)(vii)(F) (permitting procedures; availability of records); Chapter 12, Section 1(a)(viii)(B) (permitting procedures; final compliance review); Chapter 12, Section 1(a)(x)(D)(I) (permitting procedures; unanticipated events or conditions at remining sites); Chapter 12, Section 1(a)(xiv)(C) (permitting procedures; challenges to ownership or control listings in AVS); Chapter 12, Section 1(a)(xiv)(F) (permitting procedures; written agency decision on challenges to ownership or control listings or findings); Chapter 12, Section 1(b)(ii) (permitting procedures; transfer, assignment or sale of permit rights); and Chapter 16, Section 4(c)(i)(A) (individual civil penalties; amount of civil penalty). The full text of the program amendment is available for you to read at the locations listed above under **ADDRESSES**.

III. Public Comment Procedures

Under the provisions of 30 CFR 732.17(h), we are seeking your comments on whether the amendment satisfies the applicable program approval criteria of 30 CFR 732.15. If we approve the amendment, it will become part of the Wyoming program.

Electronic or Written Comments

If you submit written comments, they should be specific, confined to issues pertinent to the proposed regulations, and explain the reason for any recommended change(s). We appreciate any and all comments, but those most

useful and likely to influence decisions on the final regulations will be those that either involve personal experience or include citations to and analyses of SMCRA, its legislative history, its implementing regulations, case law, other pertinent State or Federal laws or regulations, technical literature, or other relevant publications.

We cannot ensure that comments received after the close of the comment period (see **DATES**) or sent to an address other than those listed above (see **ADDRESSES**) will be included in the docket for this rulemaking and considered.

Public Availability of Comments:

Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available in the electronic docket for this rulemaking at www.regulations.gov. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Public Hearing

If you wish to speak at the public hearing, contact the person listed under **FOR FURTHER INFORMATION CONTACT** by 4:00 p.m., m.d.t. on November 28, 2014. If you are disabled and need reasonable accommodations to attend a public hearing, contact the person listed under **FOR FURTHER INFORMATION CONTACT**. We will arrange the location and time of the hearing with those persons requesting the hearing. If no one requests an opportunity to speak, we will not hold the hearing. If only one person expresses an interest, a public meeting rather than a hearing may be held, with the results included in the docket for this rulemaking.

To assist the transcriber and ensure an accurate record, we request, if possible, that each person who speaks at a public hearing provide us with a written copy of his or her comments. The public hearing will continue on the specified date until everyone scheduled to speak has been given an opportunity to be heard. If you are in the audience and have not been scheduled to speak and wish to do so, you will be allowed to speak after those who have been scheduled. We will end the hearing after everyone scheduled to speak and others present in the audience who wish to speak, have been heard.

Public Meeting

If only one person requests an opportunity to speak, we may hold a

public meeting rather than a public hearing. If you wish to meet with us to discuss the amendment, please request a meeting by contacting the person listed under **FOR FURTHER INFORMATION CONTACT**. All such meetings are open to the public; if possible, we will post notices of meetings at the locations listed under **ADDRESSES**. We will make a written summary of each meeting a part of the administrative record.

IV. Procedural Determinations

Executive Order 12866—Regulatory Planning and Review

This rule is exempted from review by the Office of Management and Budget (OMB) under Executive Order 12866 (Regulatory Planning and Review).

Other Laws and Executive Orders Affecting Rulemaking

When a State submits a program amendment to OSMRE for review, our regulations at 30 CFR 732.17(h) require us to publish a notice in the **Federal Register** indicating receipt of the proposed amendment, its text or a summary of its terms, and an opportunity for public comment. We conclude our review of the proposed amendment after the close of the public comment period and determine whether the amendment should be approved, approved in part, or not approved. At that time, we will also make the determinations and certifications required by the various laws and executive orders governing the rulemaking process and include them in the final rule.

I. Introduction

On November 3, 2014, the Postal Service filed a petition pursuant to 39 CFR 3050.11 requesting that the Commission initiate an informal rulemaking proceeding to consider changes to analytical principles relating to periodic reports.¹ Text attached to the Petition identifies the proposed analytical method changes filed in this docket as Proposal Ten, A Proposal to Incorporate New Field Study Data into Three Parcel Mail Processing Cost Models and the Standard Mail Destination Entry Cost Model. *Id.* Attachment at 1. The Postal Service concurrently filed two library references, along with an application for nonpublic treatment for one.²

II. Summary of Proposal

New study. Currently, the Postal Service uses productivity data from a 2009 field study to develop cost estimates in four models filed as part of its Annual Compliance Report.³ *Id.* The

² Notice of Filing of USPS—RM2015-3/1, USPS—RM2015-3/NP1, and Application for Nonpublic Treatment, November 3, 2014 (Notice). The Notice incorporates by reference the Application for Non-Public Treatment of Materials contained in Attachment Two to the December 27, 2013 United States Postal Service Fiscal Year 2013 Annual Compliance Report. Notice at 1. See 39 CFR part 3007 for information on access to nonpublic material.

³ The referenced models are the Standard Mail parcel mail processing cost model (USPS—FY13-12); the Standard Mail destination entry cost model (USPS—FY13-13); the Media Mail-Library Mail mail processing cost model (USPS—FY13-15); and the Parcel Select/Parcel Return Service mail processing cost model (USPS—FY13-NP15). Petition, Attachment at 2.

Postal Service now has productivity data from a new study (2014 Study) conducted at several types of facilities, and proposes incorporating these results into the referenced cost models.⁴ *Id.* at 3.

The Postal Service states that the proposed productivity updates affect two other models because some of the results (from two of the four models) are used as inputs to other cost studies.⁵ *Id.* All six models, as revised by the updates, appear in the library references. *Id.*

The 2014 Study also provides NDC data on postal arrival and dispatch profiles and mail piece dimension data by mail type. *Id.* at 6-7. The Postal Service also proposes incorporating these data into the relevant mail processing cost models. *Id.*

Cost impacts. The Postal Service summarizes the cost impacts of the proposed modifications on the public cost models in Tables 1 through 5. *Id.* at 8. It summarizes the cost impacts of the proposed modifications on the Parcel Select/Parcel Return Service mail processing unit cost estimates in an Excel file in the non-public library reference.⁶ Petition, Attachment at 8.

III. Initial Commission Action

The Commission establishes Docket No. RM2015-3 for consideration of matters raised by the Petition. Additional information concerning the Petition may be accessed via the Commission's Web site at <http://www.prc.gov>. Interested persons may submit comments on the Petition no later than November 26, 2014. Reply comments are due no later than December 12, 2014.
