SUPPLEMENTARY INFORMATION:
Title: Analysis to Support Electronic Funds Transfer and Remittance Mandate.

Abstract: As part of its eCollections Initiative, the Bureau of the Fiscal Service is proposing to amend Title 31 CFR Part 206 regulations governing federal payments and collections. The proposal offers significant efficiencies and cost savings to the federal government by mandating that all non-tax payments to the government and related remittance information be provided electronically. This proposed rule change is governed by the provisions of both Executive Order 12866 (EO 12866) and the Regulatory Flexibility Act (RFA) (5 U.S.C. 601–612), which require the agency to conduct a cost-benefit analysis of regulatory alternatives and assessment

of the economic impacts of the regulatory action on small entities. Fiscal Service seeks to obtain approval for a generic clearance to collect information and data from focus groups and telephone interviews to support the required economic analysis and assist in developing a Notice of Public Rulemaking.

Current Actions: No current actions are ongoing related to the collection.

Type of Review: New collection.

Affected Public: Individuals or households, business or other for-profit organizations, and farms.
