FEDERAL RESERVE SYSTEM

12 CFR Part 204

[Regulation D; Docket No. R-1501]

RIN 7100 AE-23

Reserve Requirements of Depository Institutions

AGENCY: Board of Governors of the Federal Reserve System.

ACTION: Final rule.

SUMMARY: The Board is amending Regulation D, Reserve Requirements of Depository Institutions, to reflect the annual indexing of the reserve requirement exemption amount and the low reserve tranche for 2015. The Regulation D amendments set the amount of total reservable liabilities of each depository institution that is subject to a zero percent reserve requirement in 2015 at \$14.5 million (from \$13.3 million in 2014). This amount is known as the reserve requirement exemption amount. The Regulation D amendments also set the amount of net transaction accounts at each depository institution (over the reserve requirement exemption amount) that is subject to a three percent reserve requirement in 2015 at \$103.6 million (from \$89.0 million in 2014). This amount is known as the low reserve tranche. The adjustments to both of these amounts are derived using statutory formulas specified in the Federal Reserve Act.

The Board is also announcing changes in two other amounts, the nonexempt deposit cutoff level and the reduced reporting limit, that are used to determine the frequency at which depository institutions must submit deposit reports.

DATES: *Effective date:* December 17, 2014.

Compliance dates: The new low reserve tranche and reserve requirement

exemption amount will apply to the fourteen-day reserve maintenance period that begins January 22, 2015. For depository institutions that report deposit data weekly, this maintenance period corresponds to the fourteen-day computation period that begins December 23, 2014. For depository institutions that report deposit data quarterly, this maintenance period corresponds to the seven-day computation period that begins December 16, 2014. The new values of the nonexempt deposit cutoff level, the reserve requirement exemption amount, and the reduced reporting limit will be used to determine the frequency at which a depository institution submits deposit reports effective in either June or September 2015.

SUPPLEMENTARY INFORMATION: Section 19(b)(2) of the Federal Reserve Act (12 U.S.C. 461(b)(2)) requires each depository institution to maintain reserves against its transaction accounts and nonpersonal time deposits, as prescribed by Board regulations, for the purpose of implementing monetary policy. Section 11(a)(2) of the Federal Reserve Act (12 U.S.C. 248(a)(2)) authorizes the Board to require reports of liabilities and assets from depository institutions to enable the Board to conduct monetary policy. The Board's actions with respect to each of these provisions are discussed in turn below.

Reserve Requirements

Pursuant to section 19(b) of the Federal Reserve Act (Act), transaction account balances maintained at each depository institution are subject to reserve requirement ratios of zero, three, or ten percent. Section 19(b)(11)(A) of the Act (12 U.S.C. 461(b)(11)(A)) provides that a zero percent reserve requirement shall apply at each depository institution to total reservable liabilities that do not exceed a certain amount, known as the reserve requirement exemption amount. Section 19(b)(11)(B) provides that, before

December 31 of each year, the Board shall issue a regulation adjusting the reserve requirement exemption amount for the next calendar year if total reservable liabilities held at all depository institutions increase from one year to the next. No adjustment is made to the reserve requirement exemption amount if total reservable liabilities held at all depository institutions should decrease during the applicable time period. The Act requires the percentage increase in the reserve requirement exemption amount to be 80 percent of the increase in total reservable liabilities of all depository institutions over the one-year period that ends on the June 30 prior to the adjustment.

Total reservable liabilities of all depository institutions increased by 11.1 percent, from \$6,317 billion to \$7,020 billion between June 30, 2013, and June 30, 2014. Accordingly, the Board is amending Regulation D to set the reserve requirement exemption amount for 2015 at \$14.5 million, an increase of \$1.2 million from its level in 2014.¹

Pursuant to Section 19(b)(2) of the Act (12 U.S.C. 461(b)(2)), transaction account balances maintained at each depository institution over the reserve requirement exemption amount and up to a certain amount, known as the low reserve tranche, are subject to a three percent reserve requirement. Transaction account balances over the low reserve tranche are subject to a ten percent reserve requirement. Section 19(b)(2) also provides that, before December 31 of each year, the Board shall issue a regulation adjusting the low reserve tranche for the next calendar year. The Act requires the adjustment in the low reserve tranche to be 80 percent of the percentage increase or decrease in total transaction accounts of all depository institutions over the one-year period that ends on the June 30 prior to the adjustment.

Net transaction accounts of all depository institutions increased 20.5 percent, from \$1,576 billion to \$1,900 billion between June 30, 2013 and June 30, 2014. Accordingly, the Board is amending Regulation D to increase the low reserve tranche for net transaction

¹ Consistent with Board practice, the low reserve tranche and reserve requirement exemption amounts have been rounded to the nearest \$0.1 million.

accounts by \$14.6 million, from \$89.0 million for 2014 to \$103.6 million for 2015.

The new low reserve tranche and reserve requirement exemption amount will be effective for all depository institutions for the fourteen-day reserve maintenance period beginning Thursday, January 22, 2015. For depository institutions that report deposit data weekly, this maintenance period corresponds to the fourteen-day computation period that begins December 23, 2014. For depository institutions that report deposit data quarterly, this maintenance period corresponds to the seven-day computation period that begins December 16, 2014.

2. Deposit Reports

Section 11(b)(2) of the Federal Reserve Act authorizes the Board to require depository institutions to file reports of their liabilities and assets as the Board may determine to be necessary or desirable to enable it to discharge its responsibility to monitor and control the monetary and credit aggregates. The Board screens depository institutions each year and assigns them to one of four deposit reporting panels (weekly reporters, quarterly reporters, annual reporters, or nonreporters). The panel assignment for annual reporters is effective in June of the screening year; the panel assignment for weekly and quarterly reporters is effective in September of the screening year.

In order to ease reporting burden, the Board permits smaller depository institutions to submit deposit reports less frequently than larger depository institutions. The Board permits depository institutions with net transaction accounts above the reserve requirement exemption amount but total transaction accounts, savings deposits, and small time deposits below a specified level (the “nonexempt deposit cutoff”) to report deposit data quarterly. Depository institutions with net transaction accounts above the reserve requirement exemption amount and with total transaction accounts, savings deposits, and small time deposits greater than or equal to the nonexempt deposit cutoff are required to report deposit data weekly. The Board requires certain large depository institutions to report weekly regardless of the level of their net transaction accounts if the depository institution’s total transaction

accounts, savings deposits, and small time deposits exceeds or is equal to a specified level (the “reduced reporting limit”). The nonexempt deposit cutoff level and the reduced reporting limit are adjusted annually, by an amount equal to 80 percent of the increase, if any, in total transaction accounts, savings deposits, and small time deposits of all depository institutions over the one-year period that ends on the June 30 prior to the adjustment.

From June 30, 2013 to June 30, 2014, total transaction accounts, savings deposits, and small time deposits at all depository institutions increased 7.6 percent, from \$9,509 billion to \$10,234 billion. Accordingly, the Board is increasing the nonexempt deposit cutoff level by \$18.7 million to \$325.4 million in 2015 (from \$306.7 million for 2014). The Board is also increasing the reduced reporting limit by \$105 million to \$1.824 billion for 2015 (from \$1.719 billion in 2014).²

Beginning in 2015, the boundaries of the four deposit reporting panels will be defined as follows. Those depository institutions with net transaction accounts over \$14.5 million (the reserve requirement exemption amount) or with total transaction accounts, savings deposits, and small time deposits greater than or equal to \$1.824 billion (the reduced reporting limit) are subject to detailed reporting, and must file a Report of Transaction Accounts, Other Deposits and Vault Cash (FR 2900 report) either weekly or quarterly. Of this group, those with total transaction accounts, savings deposits, and small time deposits greater than or equal to \$325.4 million (the nonexempt deposit cutoff level) are required to file the FR 2900 report each week, while those with total transaction accounts, savings deposits, and small time deposits less than \$325.4 million are required to file the FR 2900 report each quarter. Those depository institutions with net transaction accounts less than or equal to \$14.5 million (the reserve requirement exemption amount) and with total transaction accounts, savings deposits, and small time deposits less than \$1.824 billion (the reduced reporting limit) are eligible for reduced reporting, and must either file a deposit report annually or not at all. Of this group, those with total deposits greater than \$14.5 million (but with total transaction accounts, savings deposits, and small time deposits less than \$1.824 billion) are required to file the Annual

Report of Deposits and Reservable Liabilities (FR 2910a) report annually, while those with total deposits less than or equal to \$14.5 million are not required to file a deposit report. A depository institution that adjusts reported values on its FR 2910a report in order to qualify for reduced reporting will be shifted to an FR 2900 reporting panel.

Notice and Regulatory Flexibility Act. The provisions of 5 U.S.C. 553(b) relating to notice of proposed rulemaking have not been followed in connection with the adoption of these amendments. The amendments involve expected, ministerial adjustments prescribed by statute and by the Board’s policy concerning reporting practices. The adjustments in the reserve requirement exemption amount, the low reserve tranche, the nonexempt deposit cutoff level, and the reduced reporting limit serve to reduce regulatory burdens on depository institutions. Accordingly, the Board finds good cause for determining, and so determines, that notice in accordance with 5 U.S.C. 553(b) is unnecessary. Consequently, the provisions of the Regulatory Flexibility Act, 5 U.S.C. 601, do not apply to these amendments.

[Docket No. 30981 Amdt. No. 3611]

Standard Instrument Approach Procedures, and Takeoff Minimums and Obstacle Departure Procedures; Miscellaneous Amendments

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This rule establishes, amends, suspends, or revokes Standard Instrument Approach Procedures (SIAPs) and associated Takeoff Minimums and Obstacle Departure Procedures for operations at certain airports. These regulatory actions are needed because of the adoption of new or revised criteria, or because of changes occurring in the National Airspace System, such as the commissioning of new navigational facilities, adding new obstacles, or changing air traffic requirements. These changes are designed to provide safe and efficient use of the navigable airspace and to promote safe flight operations under instrument flight rules at the affected airports.

DATES: This rule is effective November 17, 2014. The compliance date for each SIAP, associated Takeoff Minimums, and ODP is specified in the amendatory provisions.

The incorporation by reference of certain publications listed in the regulations is approved by the Director of the Federal Register as of November 17, 2014.

ADDRESSES: Availability of matters incorporated by reference in the amendment is as follows:

Box 25082, Oklahoma City, OK 73125), Telephone: (405) 954-4164.

SUPPLEMENTARY INFORMATION: This rule amends Title 14 of the Code of Federal Regulations, Part 97 (14 CFR part 97), by establishing, amending, suspending, or revoking SIAPs, Takeoff Minimums and/or ODPS. The complete regulators description of each SIAP and its associated Takeoff Minimums or ODP for an identified airport is listed on FAA form documents which are incorporated by reference in this amendment under 5

U.S.C. 552(a), 1 CFR part 51, and 14 CFR part 97.20. The applicable FAA Forms are FAA Forms 8260-3, 8260-4, 8260-5, 8260-15A, and 8260-15B when required by an entry on 8260-15A.

The large number of SIAPs, Takeoff Minimums and ODPs, in addition to their complex nature and the need for a special format make publication in the **Federal Register** expensive and impractical. Furthermore, airmen do not use the regulatory text of the SIAPs, Takeoff Minimums or ODPs, but instead refer to their depiction on charts printed by publishers of aeronautical materials. The advantages of incorporation by reference are realized and publication of the complete description of each SIAP, Takeoff Minimums and ODP listed on FAA forms is unnecessary. This amendment provides the affected CFR sections and specifies the types of SIAPs and the effective dates of the, associated Takeoff Minimums and ODPs. This amendment also identifies the airport and its location, the procedure, and the amendment number.

The Rule

This amendment to 14 CFR part 97 is effective upon publication of each separate SIAP, Takeoff Minimums and ODP as contained in the transmittal. Some SIAP and Takeoff Minimums and textual ODP amendments may have been issued previously by the FAA in a Flight Data Center (FDC) Notice to Airmen (NOTAM) as an emergency action of immediate flight safety relating directly to published aeronautical charts. The circumstances which created the need for some SIAP and Takeoff Minimums and ODP amendments may require making them effective in less than 30 days. For the remaining SIAPs and Takeoff Minimums and ODPS, an effective date at least 30 days after publication is provided.

Further, the SIAPs and Takeoff Minimums and ODPS contained in this amendment are based on the criteria contained in the U.S. Standard for Terminal Instrument Procedures (TERPS). In developing these SIAPs and Takeoff Minimums and ODPs, the TERPS criteria were applied to the conditions existing or anticipated at the
