

assistance; development and application of management information systems; trade show exhibitions; professional services in the area of government relations and assistance with federal and state export assistance programs (e.g., Export Enhancement and Market Promotion programs, invoicing (billing) foreign buyers; collecting (letters of credit and other financial instruments) payment for Products; and arranging for payment of applicable commissions and fees).

Export Markets

The Export Markets include all parts of the world except the United States (the fifty states of the United States, the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, American Samoa, Guam, the Commonwealth of the Northern Mariana Islands, and the Trust Territory of the Pacific Islands).

Export Trade Activities and Methods of Operations

To engage in Export Trade in the Export Markets, JDE may:

1. Provide and/or arrange for the provision of Export Trade Facilitation Services;
2. Engage in promotional and marketing activities and collect information on trade opportunities in the Export Markets and distribute such information to clients;
3. Enter into exclusive and/or non-exclusive licensing and/or sales agreements with Suppliers for the export of Products and Services, and/or Technology Rights to Export Markets;
4. Enter into exclusive and/or non-exclusive agreements with distributors and/or sales representatives in Export Markets;
5. Allocate export sales or divide Export Markets among Suppliers for the sale and/or licensing of Products and Services and/or Technology Rights;
6. Allocate export orders among Suppliers;
7. Establish the price of Products and Services and/or Technology Rights for sales and/or licensing in Export Markets; and
8. Negotiate, enter into, and/or manage licensing agreements for the export of Technology Rights.
9. JDE may exchange information with individual Suppliers on a one-to-one basis regarding that Supplier's inventories and near-term production schedules in order that the availability of Products for export can be determined and effectively coordinated by JDE with its distributors in Export Markets.

Definition

"Supplier" means a person who produces, provides, or sells Products, Services, and/or Technology Rights.

Dated: November 7, 2014.

Joseph Flynn,

Director, Office of Trade and Economic Analysis, International Trade Administration. (202) 482-5131 etca@trade.gov.

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

RIN 0648-XD596

Endangered and Threatened Species; Take of Anadromous Fish

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Issuance of a Scientific Purposes and Enhancement of Survival Permit for a Hatchery and Genetic Management Plan (HGMP).

SUMMARY: This notice announces the availability of the Final Environmental Assessment (EA) on the application from the California Department of Fish and Wildlife (CDFW), Region 1 for a Scientific Purposes and Enhancement of Survival Permit for a Hatchery and Genetic Management Plan (HGMP) for take of a threatened species in accordance with the Endangered Species Act (ESA). This notice also announces that NMFS has made a decision to issue a permit (Permit No. 15755) to CDFW for activities described in their HGMP, and has authorized the Hatchery and Genetic Management Plan (HGMP) for the Iron Gate Hatchery coho salmon program in the Klamath River watershed in California.

This notice is provided under National Environmental Policy Act (NEPA) regulations and NMFS ESA permit regulations to inform the public that the Final EA, HGMP, responses to public comments, and associated documents are available for review.

ADDRESSES: The application, permit, final HGMP, Final EA, and related documents are available for review by appointment at: California Coastal Area Office, NMFS, 1655 Heindon Road, Arcata, CA 95521 (ph: 707-825-5171, fax: 707-825-4840, email at: jim.simondet@noaa.gov).

FOR FURTHER INFORMATION CONTACT: Jim Simondet at 707-825-5171, or email: jim.simondet@noaa.gov.

SUPPLEMENTARY INFORMATION:

Authority

The issuance of Scientific Purposes and Enhancement of Survival Permit permits by NMFS, as required by the Endangered Species Act of 1973 (16 U.S.C. 1531-1543) (ESA), is based on a finding that such permits: (1) Are applied for in good faith; (2) would not operate to the disadvantage of the listed species which are the subject of the permits; and (3) are consistent with the purposes and policies set forth in section 2 of the ESA. Authority to take listed species is subject to conditions set forth in the permits. Permits and modifications are issued in accordance with and are subject to the ESA and NMFS regulations (50 CFR parts 222-226) governing listed fish and wildlife permits.

Species Covered in This Notice

This notice is relevant to federally threatened Southern Oregon/Northern California Coast coho salmon (*Oncorhynchus kisutch*).

Background

On January 8, 2013 NMFS announced in the **Federal Register** a notice of receipt of a Scientific Purposes and Enhancement of Survival Permit application and draft Hatchery and Genetic Management Plan (HGMP) from the California Department of Fish and Game, now Wildlife (CDFW), for a 10 year period (78 FR 1201). On January 30, 2013 NMFS published a corrected **Federal Register** notice with clarifications regarding the comment period (78 FR 6298) which ended March 1, 2013. The draft HGMP specified methods of operation for the Iron Gate hatchery coho salmon program located along the Klamath River, within the State of California. NMFS also announced the availability of a Draft Environmental Assessment (EA) regarding issuance of a permit authorizing take of coho salmon associated with implementation of the HGMP. Public review and comment were invited on both the draft HGMP and the draft EA. The public review and comment period ended on March 1, 2013. NMFS did not receive any comment letters on the Draft HGMP or the Draft EA during the public review period.

The HGMP will be implemented as part of the existing coho salmon artificial propagation program at Iron Gate Hatchery. Actions taken pursuant to the permit are designed to enhance the survival of coho salmon residing in the Upper Klamath River below Iron Gate Dam. The HGMP incorporates two

main components: Artificial propagation and monitoring and evaluation (M&E). Artificial propagation activities that could lead to the take of listed coho salmon include: Adult broodstock collection, spawning, rearing, handling, evaluation, tagging and release of progeny. Once the threat of demographic extinction is reduced, the number of hatchery adult coho salmon allowed to spawn naturally in Bogus Creek may be controlled to insure that the proportionate natural influence (PNI) for spawning coho salmon exceeds 0.5 (PNI > 0.5). The purpose for controlling the PNI is to have natural environment rather than the hatchery environment drive local adaptation and selection processes to improve genetic fitness. The HGMP includes measures to increase the fertilization of eggs and survival rate for each life stage and to minimize the likelihood of genetic or ecological effects to listed natural fish resulting from the hatchery operations and propagation of hatchery fish. Monitoring and evaluation will occur by conducting coho spawning ground and carcass surveys in the mainstem Klamath River and key tributary streams that comprise habitat for the Upper Klamath River coho salmon population unit. These data will be used to estimate adult natural and hatchery escapement levels and spawn timing in key streams for the Upper Klamath population unit as a whole. M&E activities will also collect necessary data to document achievement of performance indicators specified in the HGMP.

Take of adult and juvenile coho salmon associated with Permit 15755 is described in the NMFS permit and particularly detailed in Table 1 of the permit. Permit 15755 expires on August 31, 2024.

Dated: November 17, 2014.

Angela Somma,

Chief, Endangered Species Division, Office of Protected Resources, National Marine Fisheries Service.

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

RIN 0648-XD526

Fisheries of the South Atlantic; Southeast Data, Assessment and Review (SEDAR); Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of SEDAR 40 Review Workshop for Atlantic menhaden (*Brevoortia tyrannus*).

SUMMARY: The SEDAR 40 review of the Atlantic stock of menhaden will consist of one workshop.

DATES: The SEDAR 40 Review Workshop will be held on December 9, 2014, from 9 a.m. until 6 p.m.; December 10, 2014, from 8 a.m. until 6 p.m.; and December 11, 2014, from 8 a.m. until 1 p.m. The established times may be adjusted as necessary to accommodate the timely completion of discussion relevant to the assessment process. Such adjustments may result in the meeting being extended from, or completed prior to the time established by this notice.

ADDRESSES:

Meeting address: The SEDAR 40 Review Workshop will be held at the Doubletree by Hilton Atlantic Beach Oceanfront Hotel, 2717 West Fort Macon Road, Atlantic Beach, NC 28512; telephone: (252) 240-1155.

SEDAR address: 4055 Faber Place Drive, Suite 201, North Charleston, SC 29405.

FOR FURTHER INFORMATION CONTACT: Julia Byrd, SEDAR Coordinator; telephone: (843) 571-4366; email: julia.byrd@safmnc.net.

SUPPLEMENTARY INFORMATION: The Gulf of Mexico, South Atlantic, and Caribbean Fishery Management Councils, in conjunction with NOAA Fisheries and the Atlantic and Gulf States Marine Fisheries Commissions have implemented the Southeast Data, Assessment and Review (SEDAR) process, a multi-step method for determining the status of fish stocks in the Southeast Region. SEDAR is a three step process including: (1) Data Workshop; (2) Assessment Process utilizing webinars; and (3) Review Workshop. The product of the Data Workshop is a data report which compiles and evaluates potential datasets and recommends which datasets are appropriate for assessment analyses. The product of the Assessment Process is a stock assessment report which describes the fisheries, evaluates the status of the stock, estimates biological benchmarks, projects future population conditions, and recommends research and monitoring needs. The assessment is independently peer reviewed at the Review Workshop. The product of the Review Workshop is a Summary documenting panel opinions regarding the strengths and weaknesses of the stock assessment and input data. Participants for SEDAR Workshops are appointed by the Gulf of Mexico, South

Atlantic, and Caribbean Fishery Management Councils, the Atlantic and Gulf States Marine Fisheries Commissions and NOAA Fisheries Southeast Regional Office and Southeast Fisheries Science Center. Participants include: Data collectors and database managers; stock assessment scientists, biologists, and researchers; constituency representatives including fishermen, environmentalists, and non-governmental organizations (NGOs); international experts; and staff of Councils, Commissions, and state and federal agencies.

The Review Workshop is an independent peer review of the assessment developed during the assessment process, which may include Data and Assessment Workshops. Workshop Panelists will review the assessment and document their comments and recommendations in a Review Panel Summary.

Although non-emergency issues not contained in this agenda may come before this group for discussion, those issues may not be the subject of formal action during this meeting. Action will be restricted to those issues specifically identified in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the intent to take final action to address the emergency.

Special Accommodations

This meeting is accessible to people with disabilities. Requests for auxiliary aids should be directed to the SEDAR office (see **ADDRESSES**) at least 10 business days prior to the meeting.

Note: The times and sequence specified in this agenda are subject to change.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: November 18, 2014.

Tracey L. Thompson,

Acting Deputy Director, Office of Sustainable Fisheries, National Marine Fisheries Service.
