

- The collections are low-burden for respondents (based on considerations of total burden hours, total number of respondents, or burden-hours per respondent) and are low-cost for both the respondents and the Federal Government;

- The collections are non-controversial and do not raise issues of concern to other Federal agencies;

- Any collection is targeted to the solicitation of opinions from respondents who have experience with the program or may have experience with the program in the near future;

- Personally identifiable information (PII) is collected only to the extent necessary and is not retained;

- Information gathered will be used only internally for general service improvement and program management purposes and is not intended for release outside of the agency;

- Information gathered will not be used for the purpose of substantially informing influential policy decisions; and

- Information gathered will yield qualitative information; the collections will not be designed or expected to yield statistically reliable results or used as though the results are generalizable to the population of study.

Feedback collected under this generic clearance provides useful information, but it does not yield data that can be generalized to the overall population. This type of generic clearance for qualitative information will not be used for quantitative information collections that are designed to yield reliably actionable results, such as monitoring

trends over time or documenting program performance. Such data uses require more rigorous designs that address: The target population to which generalizations will be made, the sampling frame, the sample design (including stratification and clustering), the precision requirements or power calculations that justify the proposed sample size, the expected response rate, methods for assessing potential non-response bias, the protocols for data collection, and any testing procedures that were or will be undertaken prior to fielding the study. Depending on the degree of influence the results are likely to have, such collections may still be eligible for submission for other generic mechanisms that are designed to yield quantitative results.

As a general matter, information collections will not result in any new system of records containing privacy information and will not ask questions of a sensitive nature, such as sexual behavior and attitudes, religious beliefs, and other matters that are commonly considered private.

Request for Comments: Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval. Comments are invited on: (a) Whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the collection of information; (c) ways to enhance the quality, utility, and clarity

of the information to be collected; (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology; and (e) estimates of capital or start-up costs and costs of operation, maintenance, and purchase of services to provide information. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; to develop, acquire, install and utilize technology and systems for the purpose of collecting, validating and verifying information, processing and maintaining information, and disclosing and providing information; to train personnel and to be able to respond to a collection of information, to search data sources, to complete and review the collection of information; and to transmit or otherwise disclose the information.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid Office of Management and Budget control number.

OMB approval is requested for 3 years. There are no costs to respondents other than their time. The total estimated annualized burden hours are 4,358.

RIN 1615-ZB33

Designation of Liberia for Temporary Protected Status

AGENCY: U.S. Citizenship and Immigration Services, Department of Homeland Security.

ACTION: Notice.

SUMMARY: Through this Notice, the Department of Homeland Security (DHS) announces that the Secretary of Homeland Security (Secretary) has designated Liberia for Temporary Protected Status (TPS) for a period of 18

months, effective November 21, 2014 through May 21, 2016. Under section 244(b)(1)(C) of the Immigration and Nationality Act (INA), 8 U.S.C. 1254a(b)(1)(C), the Secretary is authorized to designate a foreign state (or any part thereof) for TPS upon finding that the foreign state is experiencing extraordinary and temporary conditions that prevent its nationals from returning in safety and that permitting such aliens to remain temporarily in the United States is not contrary to the national interest.

This designation allows eligible Liberian nationals (and aliens having no nationality who last habitually resided in Liberia) who have continuously resided in the United States since November 20, 2014 and been continuously physically present in the United States since November 21, 2014 to be granted TPS. This Notice also describes the other eligibility criteria applicants must meet.

Individuals who believe they may qualify for TPS under this designation may apply within the 180-day registration period that begins on November 21, 2014 and ends on May 20, 2015. They may also apply for Employment Authorization Documents (EADs) and for travel authorization. Through this Notice, DHS also sets forth the procedures for nationals of Liberia (or aliens having no nationality who last habitually resided in Liberia) to apply for TPS, EADs, and travel authorization with U.S. Citizenship and Immigration Services (USCIS).

Given the Ebola Virus Disease (EVD)-related basis for the designations of Liberia, Guinea, and Sierra Leone for TPS and ongoing efforts to prevent the spread of EVD, requests for advance travel authorization (“advance parole”) for travel to one or more of these three countries will not be approved, as a matter of discretion, absent extraordinary circumstances. If you depart from the United States without obtaining advance parole or you do not comply with any conditions that may be placed on your advance parole document, you may not be permitted to re-enter the United States. TPS beneficiaries who are granted advance parole to travel to Liberia, Guinea or Sierra Leone are advised that they, like other aliens granted advance parole, are not guaranteed parole into the United States. A separate decision regarding your ability to enter will be made when you arrive at a port-of-entry upon your return. Individuals considering travel outside the United States should visit the Department of State’s Web site for the most up-to-date information in

Travel Alerts and Warnings and in the Ebola Fact Sheet for Travelers.

DATES: This designation of Liberia for TPS is effective on November 21, 2014 and will remain in effect through May 21, 2016. The 180-day registration period for eligible individuals to submit TPS applications begins November 21, 2014, and will remain in effect through May 20, 2015.

FOR FURTHER INFORMATION CONTACT:

- For further information on TPS, including guidance on the application process and additional information on eligibility, please visit the USCIS TPS Web page at <http://www.uscis.gov/tps>.

You can find specific information about this designation of Liberia for TPS by selecting “TPS Designated Country: Liberia” from the menu on the left of the TPS Web page.

- You can also contact the TPS Operations Program Manager at the Family and Status Branch, Service Center Operations Directorate, U.S. Citizenship and Immigration Services, Department of Homeland Security, 20 Massachusetts Avenue NW., Washington, DC 20529-2060; or by phone at (202) 272-1533 (this is not a toll-free number). **Note:** The phone number provided here is solely for questions regarding this TPS Notice. It is not for individual case status inquiries.
