In accordance with Section 223 of the Trade Act of 1974, as amended (“Act”), 19 U.S.C. 2273, the Department of Labor issued a Certification of Eligibility to Apply for Worker Adjustment Assistance on April 2, 2013, applicable to workers of Ericsson Inc., Wireline Network Ops Building Maintenance and Engineering Group (BME), including on-site leased workers from J.M. Neil & Associates, Inc., Overland Park, Kansas (TA-W-82,557) and Ericsson Inc., Network Platforms Group, Overland Park, Kansas (TA-W-82,557A). The Department’s Notice of Determination was published in the **Federal Register** on April 30, 2013 (Volume 78 FR Page 25305).

At the request of a state workforce office, the Department reviewed the certification for workers of the subject firm. Workers of Ericsson Inc., Wireline Network Ops Building Maintenance and Engineering Group (BME), including on-site leased workers from J.M. Neil & Associates, Inc., Overland Park, Kansas (TA-W-82,557) are engaged in activities related to the supply of management of

network operations and related telecommunications operators, including proactive alarm monitoring of HVAC, power, building door, halon, and fire detection alarms. Workers of Ericsson Inc., Network Platforms Group, Overland Park, Kansas (TA-W-82,557A) are engaged in activities related management of network operations and related telecommunications operators including wireless and wireline network services such as ticket triage, testing, alarm response, monitoring, verification, and referral to local exchange carriers for routing trouble failures. Workers of Ericsson Inc., Wireless Core, including on-site leased workers from J.M. Neil & Associates, Inc., Apeiron, Convergencz LLC, and HL Yoh, Overland Park, Kansas (TA-W-82,557B) are engaged in activities related to the supply of technical support of wireless core network elements and routine break/fix and preventative maintenance activities. The investigation confirmed that worker separations in the Wireless Core Group and NCDC are attributable to the shift of services to a foreign country that was the basis for the original certification.

All workers of Ericsson Inc., Wireline Network Ops Building Maintenance and Engineering Group (BME), including on-site leased workers from J.M.
