[EPA-R10-OAR-2010-1071; FRL-9919-37-Region 10]

Approval and Promulgation of Implementation Plans; State of Washington; Regional Haze State Implementation Plan; Federal Implementation Plan for Best Available Retrofit Technology for Alcoa Intalco Operations, Tesoro Refining and Marketing, and Alcoa Wenatchee

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: On June 11, 2014, the Environmental Protection Agency (EPA) published a final rule in the **Federal Register** concerning, in part, promulgation of a Federal Implementation Plan (FIP) provision for regional haze in the State of Washington. This action identifies and corrects an error in that action by adding the factor to convert from tons of sulfur dioxide (SO₂) to pounds of SO₂ that was inadvertently left out of the amendatory instructions for the FIP for the Alcoa Wenatchee Works.

DATES: Comments must be received on or before December 24, 2014.

SUPPLEMENTARY INFORMATION: For further information, please see the direct final action, of the same title, which is located in the Rules section of this **Federal Register**. The EPA is correcting an error made in a final rule (79 FR 33438, June 11, 2014) by adding the conversion factor from tons to pounds of SO₂ to 40 CFR 52.2502(b)(1)(i). The EPA is making this correction without prior proposal because the EPA views this as a noncontroversial revision and anticipates no adverse comments. A detailed rationale for the action is set forth in the preamble to the direct final rule. If the EPA receives no adverse comments, the EPA will not take further action on this proposed rule.

If the EPA receives adverse comments, the EPA will withdraw the direct final rule and it will not take effect. The EPA will address all public comments in a subsequent final rule based on this proposed rule. The EPA will not institute a second comment period on this action. Any parties interested in commenting on this action should do so at this time. Please note that if we receive adverse comment on an amendment, paragraph, or section of this rule and if that provision may be severed from the remainder of the rule, the EPA may adopt as final those provisions of the rule that are not the subject of an adverse comment.

Dated: October 27, 2014.

Acting Regional Administrator, Region 10.

Approval and Promulgation of Implementation Plans; Mississippi; Infrastructure Requirements for the 2008 8-Hour Ozone National Ambient Air Quality Standards

AGENCY: Environmental Protection Agency.

ACTION: Proposed rule.

SUMMARY: The Environmental Protection Agency (EPA) is proposing to approve in part and disapprove in part, the May 29, 2012, and July 26, 2012, State Implementation Plan (SIP) submissions, provided by the Mississippi Department of Environmental Quality (MDEQ) for inclusion into the Mississippi SIP. This proposal pertains to the Clean Air Act

(CAA or the Act) infrastructure requirements for the 2008 8-hour ozone national ambient air quality standards (NAAQS). The CAA requires that each state adopt and submit a SIP for the implementation, maintenance, and enforcement of each NAAQS promulgated by EPA, which is commonly referred to as an “infrastructure” SIP. MDEQ certified that the Mississippi SIP contains provisions that ensure the 2008 8-hour ozone NAAQS is implemented, enforced, and maintained in Mississippi (hereafter referred to as an “infrastructure SIP submissions”). With the exception of provisions pertaining to prevention of significant deterioration (PSD) permitting, interstate transport, visibility protection requirements and the state board majority requirements respecting significant portion of income, EPA is proposing to determine that Mississippi’s infrastructure SIP submissions, provided to EPA on May 29, 2012, and July 26, 2012, address the required infrastructure elements for the 2008 8-hour ozone NAAQS.
