

described below) and subsequently authorized by the FTZ Board.

Production under FTZ procedures could exempt MHWI from customs duty payments on the foreign status components used in export production. On its domestic sales, MHWI would be able to choose the duty rate during customs entry procedures that applies to offshore drilling risers, telescopic joints, test equipment and tools (free) for the foreign status inputs noted below. Customs duties also could possibly be deferred or reduced on foreign status production equipment.

The components and materials sourced from abroad include: Rubber seals/o-rings/composite sheets; anodes; riser tool elastomers/test plugs/cylinders; riser telescopic joint packers/sleeves; riser fins; Kevlar straps; riser joint piping protectors; fasteners (bolts, screws, nuts, lock washers); riser fin bolt tensioners; hydraulic pipe/receptacles; choke and kill line receptacles; booster receptacles; riser clip connectors; steel pins; welding wire rods; and, paper documents (duty rate ranges from free to 9.0%).

Public comment is invited from interested parties. Submissions shall be addressed to the FTZ Board's Executive Secretary at the address below. The closing period for their receipt is January 5, 2015.

A copy of the notification will be available for public inspection at the Office of the Executive Secretary, Foreign-Trade Zones Board, Room 21013, U.S. Department of Commerce, 1401 Constitution Avenue NW., Washington, DC 20230-0002, and in the "Reading Room" section of the FTZ Board's Web site, which is accessible via www.trade.gov/ftz.

7, submitted a notification of proposed production activity to the FTZ Board on behalf of IPR Pharmaceuticals, Inc. (IPR), located within FTZ 7, in Canóvanas, Puerto Rico. The notification conforming to the requirements of the regulations of the FTZ Board (15 CFR 400.22) was received on November 3, 2014.

Production under FTZ procedures could exempt IPR from customs duty payments on the microcrystalline cellulose used in export production. On its domestic sales, IPR would be able to choose the duty rates during customs entry procedures that apply to its finished Crestor® and other pharmaceutical products (duty free) for the foreign-status input, microcrystalline cellulose (duty rate, 5.2%). Customs duties also could possibly be deferred or reduced on foreign status production equipment.

meeting with the petitioners at their request.

Scope of the Order

The merchandise subject to this order is solid, fertilizer grade ammonium nitrate products. The merchandise subject to this order is classified in the Harmonized Tariff Schedule of the United States (HTSUS) at subheadings 3102.30.00.00 and 3102.290000. Although the HTSUS subheadings are provided for convenience and customs purposes, the written description of the merchandise within the scope is dispositive.²

Analysis of Comments Received

All issues raised in the case and rebuttal briefs are addressed in the Issues and Decision Memorandum. A list of the issues which parties raised and to which we respond in the Issues and Decision Memorandum is attached to this notice as Appendix I. The Issues and Decision Memorandum is a public document and is on file electronically via Enforcement and Compliance's Antidumping and Countervailing Duty Centralized Electronic Service System (IA ACCESS). IA ACCESS is available to registered users at <http://iaaccess.trade.gov>, and it is available to all parties in the Central Records Unit, Room 7046, of the main Department of Commerce building. In addition, a complete version of the Issues and Decision Memorandum can be accessed directly at <http://enforcement.trade.gov/frn/index.html>. The signed and the electronic versions of the Issues and Decision Memorandum are identical in content.

Changes Since the Preliminary Results

Based on a review of the record and comments received from interested parties regarding our *Preliminary Results*, we have made no changes to Acron's or EuroChem's margin calculations.

Period of Review

The POR is April 1, 2012, through March 31, 2013.

²For a complete description of the scope of the order, see the memorandum from Gary Taverman, Associate Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations, to Paul Piquado, Assistant Secretary for Enforcement and Compliance, entitled, "Decision Memorandum for the Final Results of the 2012–2013 Administrative Review of the Antidumping Duty Order on Solid Fertilizer Grade Ammonium Nitrate from the Russian Federation" (Issues and Decision Memorandum), dated concurrently with and hereby adopted by this notice.

Final Results of the Review

We are assigning the following dumping margins to the firms listed below as follows:

Producer/exporter	Weighted-average dumping margin (percent)
JSC Acron/JSC Dorogobuzh MCC EuroChem/OJSC NAK Azot/OJSC Nevinnomyssky Azot	0.00

Assessment Rates

Pursuant to section 751(a)(2)(C) of the Tariff Act of 1930, as amended (the Act), and 19 CFR 351.212(b)(1), the Department has determined, and CBP shall assess, antidumping duties on all appropriate entries of subject merchandise and deposits of estimated duties, where applicable, in accordance with the final results of this review. The Department intends to issue appropriate assessment instructions directly to CBP 15 days after publication of the final results of this administrative review pursuant to 19 CFR 351.356.8(a).

Pursuant to the *Final Modification for Reviews*,³ because the respondents' weighted-average dumping margins are zero, we will instruct CBP to liquidate the appropriate entries without regard to antidumping duties.⁴ The Department intends to issue assessment instructions to CBP 15 days after the date of publication of these final results of review.

Cash Deposit Requirements

The following deposit requirements will be effective upon publication of the notice of final results of administrative review for all shipments of the subject merchandise entered, or withdrawn from warehouse, for consumption on or after the date of publication as provided by section 751(a)(2)(C) of the Act: (1) The cash deposit rates for Acron and EuroChem are less than 0.50 percent and, therefore, *de minimis* within the meaning of 19 CFR 351.106(c)(1); accordingly, no cash deposits will be required; (2) for merchandise exported by manufacturers or exporters not covered in this review but covered in a prior segment of the proceeding, the cash deposit rate will continue to be the company-specific rate published for the most recently completed segment; (3) if

the exporter is not a firm covered in this review, or the original investigation, but the manufacturer is, the cash deposit rate will be the rate established for the most recently completed segment for the manufacturer of the merchandise; and (4) the cash deposit rate for all other manufacturers or exporters will continue to be 253.98 percent, the all-others rate established in the order.⁵ These cash deposit requirements, when imposed, shall remain in effect until further notice.

Notification to Importers

This notice serves as the only reminder to importers of their responsibility, under 19 CFR 351.402(f)(2), to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

Notification Regarding Administrative Protective Order

This notice serves as the only reminder to parties subject to administrative protective order (APO) of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3). Timely written notification of return/destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and the terms of an APO is a sanctionable violation.

This notice is published in accordance with section 751 of the Tariff Act of 1930, as amended, and 19 CFR 351.221(b)(5).

Dated: November 17, 2014.
