Animal and Plant Health Inspection Service

Title: Foot-and-Mouth Disease; Prohibition on Importation of Farm Equipment.

OMB Control Number: 0579–0195.

Summary of Collection: The Animal Health Protection Act of 2002 is the primary Federal law governing the protection of animal health. Regulations contained in 9 CFR chapter 1, subchapter D, parts 91 through 99 prohibits the importation of used farm equipment into the United States from regions in which foot-and-mouth disease or rinderpest exist, unless the equipment has been stream-cleaned prior to export to the United States so that it is free of exposed dirt and other particulate matter. Disease prevention is the most effective method for maintaining a healthy animal population and enhancing the Animal and Plant Health Inspection Service (APHIS) ability to compete in exporting animals and animal products.

Need and Use of the Information: APHIS will collect information through the use of a certification statement completed by the farm equipment exporter and signed by an authorized official of the national animal health service of the region of origin, stating

that the steam-cleaning of the equipment has been done. This is necessary to help prevent the introduction of food-and-mouth disease into the United States. If the information were not collected APHIS would be forced to discontinue the importation of any used farm equipment from FMD affected regions, a development that could have a damaging financial impact on exporters and importers of this equipment.

Description of Respondents: Business or other for-profit; Federal Government.

Number of Respondents: 132.

Frequency of Responses: Reporting: On occasion.

Total Burden Hours: 182.

Ruth Brown,

Departmental Information Collection Clearance Officer.
