The NRC will post all comment submissions at <http://www.regulations.gov> as well as enters the comment submissions into ADAMS. The NRC does not routinely edit comment submissions to remove identifying or contact information.

If you are requesting or aggregating comments from other persons for submission to the NRC, then you should inform those persons not to include identifying or contact information that they do not want to be publicly disclosed in their comment submission. Your request should state that the NRC does not routinely edit comment submissions to remove such information before making the comment submissions available to the public or entering the comment submissions into ADAMS.

II. Additional Information

The NRC is issuing for public comment a DG in the NRC's "Regulatory Guide" series. This series was developed to describe and make available to the public such information as methods that are acceptable to the NRC staff for implementing specific parts of the NRC's regulations, techniques that the staff uses in evaluating specific problems or postulated accidents, and data that the staff needs in its review of applications for permits and licenses.

The DG, entitled, "Fitness-for-Duty Programs at New Reactor Construction Sites," is temporarily identified by its task number, DG-5036. This guidance is provided to ensure the effective and consistent implementation of the requirements in subpart K, "FFD Programs for Construction," of part 26, "Fitness-for-Duty Programs," in Title 10 of the *Code of Federal Regulations* (10 CFR). Part 26 requires certain individuals involved in the construction of nuclear power plants to be fit-for-duty. The requirements in part 26 are prescriptive in a number of areas, such as drug and alcohol testing; however, in other areas, such as those associated with subpart K, "FFD Program for Construction," the regulations contain less prescriptive, performance-based requirements. The performance-based regulations in subpart K enable licensees, applicants, and other entities to develop, implement, and/or maintain site-specific (or fleet-wide) FFD programs in a manner that best suits their needs while still meeting regulatory requirements. However, this flexibility, without regulatory guidance,

can challenge consistent and effective rule implementation. For example, a licensee can implement sanctions for FFD policy violations that are markedly more or less severe than sanctions for an equivalent violation at another licensee's construction site. This DG endorses the methodologies described in industry guidance document Nuclear Energy Institute (NEI) 06-06, "Fitness for Duty Program Guidance for New Nuclear Power Plant Construction Sites," revision 6, dated April 2013 (ADAMS Accession No. ML13093A340).

III. Backfitting and Issue Finality

This DG, if finalized, would provide guidance on the methods acceptable to the NRC staff for complying with the NRC's regulations associated with FFD programs of licensees or other entities during construction of new power reactors. The guide would apply to certain current and future applicants for, and holders of, power reactor licenses and construction permits under 10 CFR part 50 and power reactor licenses and early site permits under 10 CFR part 52. Issuance of DG-5036, if finalized, would not constitute backfitting under 10 CFR part 50 and would not otherwise be inconsistent with the issue finality provisions in 10 CFR part 52. As discussed in the "Implementation" section of DG-5036, the NRC has no current intention to impose the DG, if finalized, on current holders of 10 CFR part 50 operating licenses or 10 CFR part 52 combined licenses.

This DG, if finalized, could be applied to applications for certain 10 CFR part 50 operating licenses or construction permits and 10 CFR part 52 combined licenses and early site permits. Such action would not constitute backfitting as defined in 10 CFR 50.109 or be otherwise inconsistent with the applicable issue finality provision in 10 CFR part 52, inasmuch as such applicants are not within the scope of entities protected by 10 CFR 50.109 or the relevant issue finality provisions in 10 CFR part 52.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-73671; File No. SR-NYSEMKT-2014-97]

Self-Regulatory Organizations; NYSE MKT LLC; Notice of Filing of Proposed Rule Change Amending Rules 311—Equities and 313—Equities To Add Limited Liability Companies as Eligible Member Organizations and Delineate the Information Limited Liability Companies Must Submit to the Exchange as Part of the Membership Process; Eliminate the Requirement That a Member Corporation Be Created or Organized, and Maintain Its Principal Place of Business, in the United States; and Make Additional Related Amendments To Update Its Membership Rules

November 21, 2014.

Pursuant to Section 19(b)(1)¹ of the Securities Exchange Act of 1934 (the “Act”)² and Rule 19b-4 thereunder,³ notice is hereby given that, on November 12, 2014, NYSE MKT LLC (the “Exchange” or “NYSE MKT”) filed with the Securities and Exchange Commission (the “Commission”) the proposed rule change as described in Items I and II below, which Items have been substantially prepared by the self-regulatory organization. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to amend Rules 311—Equities and 313—Equities to add limited liability companies as eligible member organizations and delineate the information limited liability companies must submit to the Exchange as part of the membership process; eliminate the requirement that a member corporation be created or organized, and maintain its principal place of business, in the United States; and make additional related amendments to update its membership rules. The text of the proposed rule

change is available on the Exchange's Web site at www.nyse.com, at the principal office of the Exchange, and at the Commission's Public Reference Room.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of, and basis for, the proposed rule change and discussed any comments it received on the proposed rule change. The text of those statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant parts of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and the Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange proposes to amend Rules 311—Equities (“Rule 311”) and 313—Equities (“Rule 313”) to add limited liability companies (“LLCs”) to the types of eligible member organizations and delineate the information LLCs must submit to the Exchange as part of the membership process; eliminate the requirement that a member corporation be created or organized, and maintain its principal place of business, in the United States; and make additional related amendments to update its membership rules.

Rule 311

NYSE MKT Rule 311 governs the formation and approval of member organizations. The Exchange proposes to revise Rule 311 to explicitly provide for LLCs to apply to become member organizations and eliminate the requirement that a member corporation be created or organized, and maintain its principal place of business, in the United States.

First, the Exchange's membership rules currently provide for member organizations to be corporations or partnerships, but have not explicitly provided for LLCs.⁴ The Exchange proposes to add LLCs to the types of potential member organizations and require LLCs to meet the same

⁴ Current Rule 311(f) permits the Exchange to approve “entities that have characteristics essentially similar to corporations, partnerships, or both” as a member organization “on such terms and conditions as the Exchange may prescribe.”
