Coalition Online Management and Evaluation Tool (COMET) and the Coalition Classification Tool (CCT), to gather information from DFC grantees. The COMET data collection system will be used for FY 2014 DFC grantees and SAMHSA CSAP's Sober Truth on Preventing Underage Drinking Reauthorization Act ("STOP Act") grantees. (STOP Act data collection is authorized and required by 42 U.S.C. 290bb–35b and Section 519B of the Public Health Service Act).

ONDCP will be awarding a contract for a DFC grant oversight system at the end of 2014, following a competitive request for proposals process. Currently, DFC grantees interact with multiple separate systems. ONDCP plans to have a newly improved grant oversight system with a data collection platform, which will replace the current COMET system. The development and implementation of the DFC grant system will strengthen ONDCP's continued oversight of the DFC program. The data collected will have minimal substantive changes compared to what is currently collected and the system for data collection is intended to be more user friendly to reduce the burden on grantees. For FY 2015 and 2016 grantees, ONDCP/DFC expects a similar data collection system to be fully functional for DFC data collection and STOP Act data collection.

ONDCP's Drug Free Communities office will continue to utilize the case study protocols previously approved by OMB to document coalition practices,

successes and challenges.

Approximately nine DFC grantees are selected each year to highlight in the case studies. The information from the case studies will be used to illustrate not only what works to reduce drug use in a community setting, but also how and why it works.

Type of Information Collection: Webbased data collection, surveys and interviews of DFC and Sober Truth on Preventing Underage Drinking (STOP)

Act grantees.

Title: Drug-Free Communities (DFC) Support Program National Evaluation.

Frequency: Semi-annually by DFC and STOP Act Program Directors via COMET, and annually for DFC Program Directors and selected coalition members via the CCT. Case study interviews and electronic surveys of Program Directors and electronic surveys of selected coalition members will be accomplished one time. ONDCP plans to award a contract for the new data collection system at the end of 2014. For FY 2015 and 2016 grantees, ONDCP/DFC expects a similar data collection system to be fully functional

for DFC data collection and STOP Act data collection.

Affected Public: DFC and STOP Act grantees.

Estimated Burden: ONDCP expects that the time required to complete each semi-annual report via COMET will be approximately five hours, and each CCT report will take approximately one hour to complete. Face to face interviews will take 1.5-2 hours and surveys will take approximately .25 hours each to complete. The estimated total amount of time required by all respondents over one year, including Program Directors and grantees to complete COMET, CCT, surveys, and interviews, is 9,680 hours. ONDCP estimates that DFC grantees will spend approximately the same amount or less when using the new DFC data collection system.

Goals: ONDCP intends to use the data of the DFC National Evaluation to assess the DFC Program's effectiveness in preventing and reducing youth substance use. Two primary objectives of the evaluation are to: (1) Regularly monitor, measure and analyze data in order to report on the progress of the DFC program and its grantees on program goals, and (2) providing technical assistance support to DFC grantees in effectively collecting and submitting data and in understanding the role of data in driving local coalition efforts

Comment Request: ONDCP especially invites comments on: Whether the proposed data are proper for the functions of the agency; whether the information will have practical utility; the accuracy of ONDCP's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions; ways to enhance the quality, utility, and clarity of the information to be collected; and, ways to ease the burden on proposed respondents, including the use of automated collection techniques or other forms of information technology. Comments will be accepted for sixty days.

Dated: November 25, 2014.

Daniel S. Rader,

 $Deputy\ General\ Counsel.$

BILLING CODE 3280-F5-P

NUCLEAR REGULATORY COMMISSION

[Docket No. NRC-2014-0188]

Agency Information Collection Activities: Submission for the Office of Management and Budget (OMB) Review; Comment Request

AGENCY: Nuclear Regulatory Commission.

ACTION: Notice of the OMB review of information collection and solicitation of public comment.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) has recently submitted to OMB for review the following proposal for the collection of information under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35). The NRC hereby informs potential respondents that an agency may not conduct or sponsor, and that a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The NRC published a Federal Register notice with a 60-day comment period on this information collection on August 12, 2014.

- 1. Type of submission, new, revision, or extension: Revision.
- 2. The title of the information collection: Reports Concerning Possible Non-Routine Emergency Generic Problems.
- 3. Current OMB approval number: 3150–0012.
- 4. The form number if applicable: N/A
- 5. How often the collection is required: On occasion.
- 6. Who will be required or asked to report: Nuclear power reactor licensees, nonpower reactors, and materials applicants and licensees.
- 7. An estimate of the number of annual responses: 231
- 8. The estimated number of annual respondents: 231
- 9. An estimate of the total number of hours needed annually to complete the requirement or request: 83,100 hours annually.
- approval authority to collect information concerning possible nonroutine generic problems which would require prompt action from the NRC to preclude potential threats to public health and safety. During the conduct of normal program activities, the NRC becomes aware of an emergent event or issue that may be identified in its licensing, inspection, and enforcement programs. In addition, reportable occurrences, or unusual events, equipment failures, construction

problems, and issues discovered or raised during safety reviews are brought to the attention of the NRC through licensee reporting procedures and the safety review process. The emergent event or issue may present a situation in which the NRC does not have enough information to support regulatory decision making regarding an appropriate course of action to address the event or issue.

If the NRC determines that an event or issue may have or has the potential for an immediate impact upon public health, safety, common defense, and/or the environment, the agency will prepare a bulletin or other form of generic communication that requires licensees and/or permit holders to respond within a specified period with information that would support agency evaluation and regulatory decision making. The bulletin may request licensees and permit holders to conduct evaluations, perform tests, and provide specified information within a prescribed time frame.

The public may examine and have copied for a fee publicly-available documents, including the final supporting statement, at the NRC's Public Document Room, Room O-1F21, One White Flint North, 11555 Rockville Pike, Rockville, Maryland 20852. The OMB clearance requests are available at the NRC's Web site: http://www.nrc.gov/ public-involve/doc-comment/omb/. The document will be available on the NRC's home page site for 60 days after the signature date of this notice.

Comments and questions should be directed to the OMB reviewer listed below by December 31, 2014. Comments received after this date will be considered if it is practical to do so, but assurance of consideration cannot be given to comments received after this date.

Vlad Dorjets, Desk Officer, Office of Information and Regulatory Affairs (3150-0012), NEOB-10202, Office of Management and Budget, Washington, DC 20503.

Comments can also be emailed to Vladik Dorjets@omb.eop.gov or submitted by telephone at 202-395-7315.

The NRC Clearance Officer is Tremaine Donnell, 301-415-6258.

Dated at Rockville, Maryland, this 25th day of November, 2014.

For the Nuclear Regulatory Commission.

Tremaine Donnell,

NRC Clearance Officer, Office of Information Services.

NUCLEAR REGULATORY COMMISSION

[Docket No. NRC-2014-0237]

Agency Information Collection **Activities: Proposed Collection; Comment Request**

AGENCY: Nuclear Regulatory Commission.

ACTION: Notice of pending NRC action to submit an information collection request to the Office of Management and Budget (OMB) and solicitation of public comment.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) invites public comment about our intention to request the OMB's approval for renewal of an existing information collection that is summarized below. We are required to publish this notice in the Federal Register under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35).

Information pertaining to the requirement to be submitted:

- 1. The title of the information collection: 10 CFR part 62, Criteria and Procedures for Emergency Access to Non-Federal and Regional Low-Level Waste Disposal Facilities.
- 2. Current OMB approval number: 3150-0143.
- 3. How often the collection is required: The collection would only be required upon application for a Commission emergency access determination when access to a non-Federal or regional Low-Level Waste Disposal facility is denied, which results in an immediate public health and safety and/or common defense and security concern.
- 4. Who is required or asked to report: Generators of low-level radioactive waste, or the Governor of a State on behalf of any generator or generators located in his or her State who are denied access to a non-Federal or regional low-level radioactive wastes and who wish to request emergency access for disposal of non-Federal or regional Low-Level Waste Disposal facility pursuant to 10 CFR part 62.
- 5. The number of annual respondents: 1 (estimate).
- 6. The number of hours needed annually to complete the requirement or request: 233 (estimate).
- 7. Abstract: 10 CFR part 62 sets out the information which must be provided to the NRC by any low-level waste generator or Governor of a State on behalf of generators seeking emergency access to an operating low-level waste disposal facility. The information is required to allow the NRC to determine

if denial of disposal constitutes a serious and immediate threat to public health and safety or common defense and security. 10 CFR part 62 also provides that the Commission may grant an exemption from the requirements in this Part upon application of an interested person or upon its own initiative.

Submit, by January 30, 2015, comments that address the following questions:

- 1. Is the proposed collection of information necessary for the NRC to properly perform its functions? Does the information have practical utility?
 - 2. Is the burden estimate accurate?
- 3. Is there a way to enhance the quality, utility, and clarity of the information to be collected?
- 4. How can the burden of the information collection be minimized. including the use of automated collection techniques or other forms of information technology?

The public may examine and have copied for a fee publicly-available documents, including the draft supporting statement, at the NRC's Public Document Room, Room O-1F21, One White Flint North, 11555 Rockville Pike, Rockville, Maryland 20852. The OMB clearance requests are available at the NRC's Web site: http://www.nrc.gov/ public-involve/doc-comment/omb/. The document will be available on the NRC's home page site for 60 days after the signature date of this notice.

Comments submitted in writing or in electronic form will be made available for public inspection. Because your comments will not be edited to remove any identifying or contact information, the NRC cautions you against including any information in your submission that you do not want to be publicly disclosed. Comments submitted should reference Docket No. NRC-2014-0237. You may submit your comments by any of the following methods: Electronic comments go to http:// www.regulations.gov and search for Docket No. NRC-2014-0237. Mail comments to NRC Clearance Officer, Tremaine Donnell (T-5 F53), U.S. Nuclear Regulatory Commission, Washington, DC 20555–0001.

Questions about the information collection requirements may be directed to the NRC Clearance Officer, Tremaine Donnell (T-5 F53), U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, by telephone at 301-415-6258, or by email to INFOCOLLECTS. Resource@NRC. GOV.

Dated at Rockville, Maryland, this 24th day of November, 2014.
