

exchanges. The Exchange believes that extending the Pilot will allow for continued competition between market participants on the Exchange trading similar products as their counterparts on other exchanges, while at the same time allowing the Exchange to continue to compete for order flow with other exchanges in option issues trading as part of the Pilot.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

No written comments were either solicited or received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Because the foregoing proposed rule change does not: (i) Significantly affect the protection of investors or the public interest; (ii) impose any significant burden on competition; and (iii) become operative for 30 days from the date on which it was filed, or such shorter time as the Commission may designate, it has become effective pursuant to Section 19(b)(3)(A) ⁷ of the Act and subparagraph (f)(6) of Rule 19b-4 thereunder.⁸

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is: (i) Necessary or appropriate in the public interest; (ii) for the protection of investors; or (iii) otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings to determine whether the proposed rule should be approved or disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act.

Comments may be submitted by any of the following methods:

Electronic Comments

- Use the Commission's Internet comment form (<http://www.sec.gov/rules/sro.shtml>); or
- Send an email to rule-comments@sec.gov. Please include File Number SR-BX-2014-057 on the subject line.

Paper Comments

- Send paper comments in triplicate to Brent J. Fields, Secretary, Securities

and Exchange Commission, Station Place, 100 F Street NE., Washington, DC 20549-9303.

* * * * *

All submissions should refer to File Number SR-BX-2014-057. This file number should be included on the subject line if email is used. To help the Commission process and review your comments more efficiently, please use only one method. The Commission will post all comments on the Commission's Internet Web site <http://www.sec.gov/rules/sro.shtml>.

Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for Web site viewing and printing in the Commission's Public Reference Room, 100 F Street NE., Washington, DC 20549, on official business days between the hours of 10:00 a.m. and 3:00 p.m. Copies of the filing also will be available for inspection and copying at the principal office of BX. All comments received will be posted without change; the Commission does not edit personal identifying information from submissions. You should submit only information that you wish to make available publicly.

All submissions should refer to File Number SR-BX-2014-057 and should be submitted on or before December 23, 2014.

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.⁹

Kevin M. O'Neill,

Deputy Secretary.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-73683; File No. SR-NASDAQ-2014-110]

Self-Regulatory Organizations; The NASDAQ Stock Market LLC; Notice of Filing of a Proposed Rule Change To Adopt NASDAQ Rule 7015(i) To Offer the New IPO Workstation

November 25, 2014.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act"),¹ and Rule 19b-4 thereunder,² notice is hereby given that on November 14, 2014 The NASDAQ Stock Market LLC ("NASDAQ" or the "Exchange") filed with the Securities and Exchange Commission ("Commission") a proposed rule change as described in Items I, II and III below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of the Substance of the Proposed Rule Change

NASDAQ proposes to adopt NASDAQ Rule 7015(i) to offer the new IPO Workstation.

The text of the proposed rule change is available at <http://nasdaq.cchwallstreet.com/>, at NASDAQ's principal office, and at the Commission's Public Reference Room.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, NASDAQ included statements concerning the purpose of, and basis for, the proposed rule change and discussed any comments it received on the proposed rule change. The text of those statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant parts of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

NASDAQ recently filed a proposed rule change to offer the IPO Indicator as an enhancement to NASDAQ Workstation subscription at no

⁷ 15 U.S.C. 78s(b)(3)(A).

⁸ 17 CFR 240.19b-4(f)(6).

² 17 CFR 240.19b-4.

additional cost.³ The IPO Indicator is designed to assist member firms in monitoring their orders in the NASDAQ Halt Cross process leading up to the launch of an initial public offering (“IPO”). NASDAQ is now proposing to adopt Rule 7015(i) to offer the new IPO Workstation, which will provide subscribing member firms with stand-alone access to the IPO Indicator service, at no cost at this time.

Halt Cross Process

The NASDAQ Halt Cross is designed to provide for an orderly, single-priced opening of securities subject to an intraday halt, including securities that are the subject of an IPO. Prior to the Cross execution, market participants enter quotes and orders eligible for participation in the Cross, and NASDAQ disseminates certain information regarding buying and selling interest entered and the indicative execution price information, known as the Net Order Imbalance Indicator or NOII. The NOII is disseminated every five seconds during a designated period prior to the completion of the Halt Cross, in order to provide market participants with information regarding the possible price and volume of the Cross. The information provided in the NOII message includes the Current Reference Price,⁴ which is the price at which the Cross would occur if it executed at the time of the NOII’s dissemination, and the number of shares of Eligible Interest,⁵ which is defined as any quotation or any order that may be entered into the system and designated with a time-in-force that would allow the order to be in force at the time of the Halt Cross, that would be paired at that price.

NASDAQ also disseminates a Market Order Imbalance, which is defined as the number of shares of Eligible Interest entered through market orders that would not be matched with other order shares at the time of the dissemination of an NOII, if in fact there are such unexecutable market order shares. When there is a Market Order Imbalance, NASDAQ disseminates the imbalance and the buy/sell direction of the imbalance. For example, if a buy-direction Market Order Imbalance is disseminated, potential sellers in the Cross would know that buy liquidity is available at a market price, potentially encouraging them to enter additional sell orders to allow the Cross to proceed.

In addition to disseminating information about Market Order Imbalances, NASDAQ also disseminates information about the size and buy/sell direction of an Imbalance. An Imbalance is defined as the number of shares of Eligible Interest with a limit price equal to the Current Reference Price that may not be matched with other order shares at a particular price at any given time.⁶ As noted above, Eligible Interest is defined as any quotation or any order that may be entered into the system and designated with a time-in-force that would allow the order to be in force at the time of the Halt Cross. Thus, the provided information reflects all shares eligible for participation in the Cross, regardless of time-in-force, and includes non-displayed shares and reserve size. As such, the Imbalance information indicates the degree to which available liquidity on one or the other side of the market would not be executed if the Cross were to occur at that time.

Generally, a Halt in a security is terminated when NASDAQ determines to release a security, at which time the Display Only Period begins, culminating in the Halt Cross whereby the security is released for regular hours trading at the price that maximizes the number of shares of trading interest eligible for participation in the Cross to be executed.⁷ In the case of an IPO, underwriters to an IPO make a determination to launch an IPO during the Pre-Launch Period⁸ when they believe the security is ready to trade. When the underwriter informs NASDAQ that it is ready to launch the IPO, the NASDAQ system will calculate the Current Reference Price at that time (the “Expected Price”) and display it to the underwriter. If the underwriter then approves proceeding, the NASDAQ system will conduct two validation checks. Specifically, the NASDAQ system will determine whether all market orders will be executed in the cross, and whether the Expected Price and the price calculated by the Cross differ by an amount in excess of the price band selected by the underwriter.⁹ If either of the validation checks fail, the security will not be released for trading and the Pre-Launch Period will continue seamlessly until all requirements are met. Alternatively, the

underwriter may, with the concurrence of NASDAQ, determine to postpone and reschedule the IPO.

IPO Indicator and IPO Workstation

The IPO Indicator service will provide member firms with more information about interest in an IPO security. Specifically, the IPO Indicator will provide information about the number and price at which shares of a member firm’s orders entered for execution in an IPO Halt Cross (“IPO shares”) would execute in an IPO if it were to price at the present time. The IPO Indicator uses the NOII information of an IPO security together with information about the subscribing member firm’s orders on NASDAQ in the IPO security.¹⁰ As noted above, NASDAQ has separately proposed¹¹ to offer the IPO Indicator as an enhancement to the NASDAQ Workstation. Similar to accessing the IPO Indicator from the NASDAQ Workstation, subscribing member firms will access the IPO Indicator from the main IPO Workstation screen, which will allow the subscriber to select an IPO security by ticker and see the Current Reference Price,¹² the number of paired shares, and the number of imbalance shares during the Display Only and Pre-Launch Periods. The screen will also provide the total number of IPO shares the member firm has entered for execution in the IPO Halt Cross, the nature of such shares (buy or sell), and the number of IPO shares that would be executed in the Halt Cross at that time for each of those categories. A subscribing member firm will also be able to access further detail on its IPO shares presented by individual order or order block, which will include the number of IPO shares in a particular order or order block, the number and percentage of IPO shares of the order or order block that would be executed in the Halt Cross if it occurred at any given time in the process, based on the NOII disseminated every five seconds, and the price at which the order or order block was submitted. As such, the IPO Indicator will provide member firms with information consistent with what NASDAQ currently disseminates during the IPO launch process, but as it relates to a

⁶ See Rule 4753(a)(1).

⁷ See Rule 4753(b) for a description of the processing of the Halt Cross.

⁸ The Pre-Launch Period is the second phase of a two-phase process that NASDAQ uses for launching IPOs. The Pre-Launch Period follows a 15-minute Display Only Period and is of no fixed duration. During both periods, the NOII is disseminated every five seconds.

⁹ See Rule 4120(c)(8)(B).

¹⁰ The information provided by the IPO Indicator is limited to the subscribing member firm’s orders.

¹¹ *Supra* note 3.

¹² The Exchange notes that, in situations where there is a Market Order Imbalance, the NOII does not provide a Current Reference Price, since not all market orders could be executed in the cross and therefore there is no price at which the IPO cross could occur.

³ See Securities Exchange Act Release No. 73574 (November 12, 2014) (awaiting publication in the *Federal Register*) (SR-NASDAQ-2014-100).

⁴ See Rule 4753(a)(3)(A).

⁵ See Rule 4753(a)(5).

member firm's orders and in greater detail.

NASDAQ notes that the IPO Indicator will provide member firms with more information on their orders for participation in an IPO Halt Cross, which will, in turn, allow them to make better informed investment decisions. Although, NASDAQ believes the functionality provided by the IPO Indicator will be useful to all member firms seeking to participate in the IPO Halt Cross process, underwriters to an IPO may find the functionality particularly useful as they will have current and ongoing information on the nature of their order book in the IPO shares relative to the orders that would be executed at any given time, thus allowing them to make better informed decisions on the timing of the IPO's launch. In this regard, the IPO Indicator may help an underwriter to make a determination to launch an IPO at a time most likely to avoid an order imbalance,¹³ thus increasing the likelihood of a fair and orderly launch of the IPO when the underwriter informs NASDAQ that it is prepared to launch the IPO security.

The proposed IPO Workstation will provide member firms with another means to access IPO Indicator, as an alternative to a full NASDAQ Workstation subscription. The Exchange notes that not all member firms subscribe to the NASDAQ Workstation and prospective users of the IPO Indicator may not desire to pay for a full Workstation subscription for the sole purpose of accessing the IPO Indicator. Accordingly, the Exchange is proposing to offer the IPO Indicator functionality through a stand-alone "Workstation light" subscription, the IPO Workstation. The IPO Indicator functionality is unchanged from the enhancement that is proposed for a NASDAQ Workstation subscription. Unlike a NASDAQ Workstation subscription, however, the IPO Workstation subscription will provide only the IPO Indicator service and the NOII data for IPO securities.¹⁴

2. Statutory Basis

The Exchange believes the proposed rule change is consistent with Section 6(b) of the Act¹⁵ in general, and furthers the objectives of Section 6(b)(5) of the

Act,¹⁶ in particular, in that it is designed to promote just and equitable principles of trade, remove impediments to and perfect the mechanisms of a free and open market and a national market system and, in general, to protect investors and the public interest. The proposal is consistent with these requirements because it will expand the information made available to market participants about their orders and the interplay of supply and demand of buy and sell orders leading up to the completion of an IPO Halt Cross. The information provided by the proposed IPO Indicator may be particularly useful to underwriters of IPOs, who ultimately make the decision to launch an IPO or to postpone it. In this regard, the IPO Indicator will provide underwriters with a near real time assessment of the number and price at which their IPO shares will execute at any given time, consequently allowing them to make better informed decisions with regard to the timing of an IPO's launch. The proposed change will thereby perfect the mechanisms of a free and open market by helping ensure the security price is reasonably stable at the time the underwriter determines to launch the IPO. Moreover, the proposed change will protect investors and the public interest by providing additional transparency regarding the IPO Halt Cross, helping market participants to understand the degree of supply and demand for the security that is the subject of the IPO Halt Cross and the nature of the execution of IPO orders that they would receive at any given time in the IPO launch process. Offering the IPO Indicator through the IPO Workstation ensures that all member firms that are interested in subscribing to the IPO Indicator have a no cost means to access it, in lieu of a paying for a full NASDAQ Workstation subscription.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act. Specifically, the proposed change serves merely to increase the information provided by NASDAQ regarding the nature of the execution they would receive in an IPO at any given time in the process, thereby assisting market participants in making informed investment decisions regarding their participation in the IPO Halt Cross. The proposed change also expands access to this information by

offering the service through a no cost alternative to a full NASDAQ Workstation subscription. The proposed change does not restrict the ability of market participants to participate in the IPO Halt Cross in any respect, and therefore does not impose any burden on competition.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

The Exchange has neither solicited nor received written comments on the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Within 45 days of the date of publication of this notice in the **Federal Register** or within such longer period (i) as the Commission may designate up to 90 days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the Exchange consents, the Commission shall: (a) By order approve or disapprove such proposed rule change, or (b) institute proceedings to determine whether the proposed rule change should be disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

Electronic Comments

- Use the Commission's Internet comment form (<http://www.sec.gov/rules/sro.shtml>); or
- Send an email to rule-comments@sec.gov. Please include File Number SR-NASDAQ-2014-110 on the subject line.

Paper Comments

- Send paper comments in triplicate to Brent J. Fields, Secretary, Securities and Exchange Commission, 100 F Street NE., Washington, DC 20549-1090. All submissions should refer to File Number SR-NASDAQ-2014-110. This file number should be included on the subject line if email is used. To help the Commission process and review your comments more efficiently, please use only one method. The Commission will post all comments on the Commission's Internet Web site (<http://www.sec.gov/rules/sro.shtml>). Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule

¹³ As defined by Rules 4120(c)(7)(C)(2) and (3).

¹⁴ IPO Workstation subscribers will not have access to various tools, functionality and data provided with a full NASDAQ Workstation subscription. For a description of NASDAQ Workstation functionality, see <http://www.nasdaqtrader.com/Trader.aspx?id=Workstation>.

¹⁵ 15 U.S.C. 78f (b).

¹⁶ 15 U.S.C. 78f(b)(5).

change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for Web site viewing and printing in the Commission's Public Reference Room, 100 F Street NE., Washington, DC 20549, on official business days between the hours of 10:00 a.m. and 3:00 p.m. Copies of such filing also will be available for inspection and copying at the principal offices of the Exchange. All comments received will be posted without change; the Commission does not edit personal identifying information from submissions. You should submit only information that you wish to make available publicly. All submissions should refer to File Number SR-NASDAQ-2014-110, and should be submitted on or before December 23, 2014.

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.¹⁷

Kevin M. O'Neill,
Deputy Secretary.

BILLING CODE 8011-01-P

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-73690; File No. SR-ICEEU-2014-24]

Self-Regulatory Organizations; ICE Clear Europe Limited; Notice of Filing and Immediate Effectiveness of Proposed Rule Change to Clearing Rules Relating to CASS Requirements

November 25, 2014.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act"),¹ and Rule 19b-4 thereunder,² notice is hereby given that on November 19, 2014, ICE Clear Europe Limited ("ICE Clear Europe" or "Clearing House") filed with the Securities and Exchange Commission ("Commission") the proposed rule change described in Items I, II and III below, which Items have been primarily prepared by ICE Clear Europe. ICE Clear Europe filed the proposal pursuant to Section 19(b)(3)(A) of the Act,³ and Rule 19b-4(f)(4)(i)⁴ thereunder, so that the proposal was

effective upon filing with the Commission. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The principal purpose of the proposed rule change is to implement certain requirements under the U.K. client money rules applicable to certain classes of customer accounts of Clearing Members.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, ICE Clear Europe included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. ICE Clear Europe has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of these statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

ICE Clear Europe submits certain proposed amendments to its Rules in connection with revised client money and client asset (collectively, "client money") requirements adopted by the U.K. Financial Conduct Authority (the "FCA") in the U.K. Client Asset Sourcebook ("CASS"). Several of the revised FCA requirements will come into effect as of December 1, 2014, including those to which the rule changes discussed herein relate.⁵ Among numerous other changes, revised CASS 7.18.4R and 7.18.6R will require ICEU Clearing Members that are subject to the CASS requirements to identify to the Clearing House those accounts that contain client money for purposes of CASS through the use of a specified form of acknowledgment letter. Such identification is intended to facilitate the proper segregation of client money at the Clearing House level.

ICE Clear Europe's existing Rules establish several categories of customer accounts for Non-FCM/BD Clearing Members. Certain account categories are

intended for use with customer property subject to the FCA client money requirements; other account categories are not intended for use with such property. For example, the Segregated Customer Omnibus Account for F&O, Segregated Customer Omnibus Account for CDS and Segregated Customer Omnibus Account for FX are to be used for customers that provide assets to their Clearing Members that are subject to the FCA client money regime. In addition, Individually Segregated Sponsored Accounts and Margin-flow Co-mingled Accounts may be used for such customers. By contrast, Segregated TTFCA Customer Omnibus Accounts are not to be used for customers whose assets are subject to the FCA client money regime. To date, the Clearing House has identified such accounts for purposes of the client money rules pursuant to a Circular. The new FCA rules require such identification to be provided by the Clearing Member in a specified form.

ICE Clear Europe proposes to adopt amendments to its Rules that implement the CASS acknowledgment letter requirement. Since the CASS rules themselves do not identify the accounts that should be subject to the requirement, the proposed amendments also specify the account categories for which acknowledgment letters should (and should not) be provided by Clearing Members. Specifically, ICE Clear Europe proposes to make amendments to Parts 1, 2 and 5 of the Rules. The proposed Rule amendments are described in detail as follows.

The relevant portion of Rule 102(q), which specifies that certain provisions and documents relating to asset and account segregation apply to customer accounts, has been revised to refer specifically to the customer account categories for customers whose assets are subject to the FCA client money requirements (specifically, the Segregated Customer Omnibus Accounts for F&O, CDS and FX, as well as Individually Segregated Sponsored Accounts and Margin-flow Co-mingled Accounts). In addition, subparagraph (viii) thereof has been revised to refer to acknowledgement letters delivered to the Clearing House under CASS 7.18 and countersigned by the Clearing House (in lieu of the prior Circular issued by the Clearing House relating to client money arrangements). The revisions also clarify that references to Rule 102(q) in the Rules and Procedures are deemed to include references to those provisions and documents referred to in subparagraphs (vii) and (viii) thereof.
