

2189–2204 (2008), the Commodity Futures Trading Commission promulgated a comprehensive set of rules applicable to intermediaries and counterparties engaged in the offer and sale of off-exchange forex contracts to retail customers. New requirements under Part 5 included reporting by retail foreign exchange dealers who fail to maintain required capital, reporting to customers, risk assessment filings and recordkeeping requirements.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for the CFTC's regulations were published on December 30, 1981. See 46 FR 63035 (Dec. 30, 1981). The **Federal Register** notice with a 60-day comment period soliciting comments on this collection of information was published on September 30, 2014 (79 FR 58751).

Burden Statement: The respondent burden for this collection is estimated to average 0.87 hours per response. The total annual cost burden per respondent is estimated to be \$2,075. The Commission based its calculation on an

hourly wage rate of \$44.01 for a Compliance Officer.²

Respondents/Affected Entities: Retail Foreign Exchange Dealers, Futures Commission Merchants, Introducing Brokers, and other counterparties to forex transactions.

Estimated Number of Respondents: 60.

Estimated Total Annual Burden on Respondents: 2,830 hours.

Frequency of Collection: Annual and on occasion.

Authority: 44 U.S.C. 3501 *et seq.*

Dated: November 26, 2014.

Christopher J. Kirkpatrick,
Secretary of the Commission.

POLICY JUSTIFICATION

Greece—F-16 Sustainment

The Government of Greece has requested the continuation of sustainment support for the Hellenic Air Force's F-16 aircraft, which includes the Electronic Combat International Security Assistance Program; International Engine Management Program; F-16 Technical Coordination Program; and Aircraft Structural Integrity Program; aircraft hardware and software support; repair and return; spare and repair parts; publications and technical documentation; support equipment; minor modifications; U.S. government and contractor technical and engineering support services; and other related elements of logistics and program support. The estimated cost is \$188 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a North Atlantic Treaty Organization (NATO) ally.

The Government of Greece needs this aircraft support to ensure its F-16 fleet is properly sustained and modernized to maintain interoperability with the United States and other NATO countries. The continued support and maintenance of Greece's F-16 fleet will ensure the effectiveness of its capabilities and ability to support future contributions to NATO operations.

The proposed sale of this support will not alter the basic military balance in the region.

The principal contractors will be Lockheed Martin in Ft Worth, Texas; and Northrup Grumman in Baltimore, Maryland. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to Greece.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

SUPPLEMENTARY INFORMATION:

Title: Fast Track Generic Clearance for the Collection of Qualitative Feedback on Agency Service Delivery—Defense Centers of Excellence Products.

Abstract: The proposed information collection activity provides a means to garner qualitative customer and stakeholder feedback in an efficient, timely manner, in accordance with the Administration's commitment to improving service delivery. By qualitative feedback we mean information that provides useful insights on perceptions and opinions, but are not statistical surveys that yield quantitative results that can be generalized to the population of study. This feedback will provide insights into customer or stakeholder perceptions, experiences and expectations, provide an early warning of issues with service, or focus attention on areas where communication, training or changes in operations might improve delivery of products or services. These collections will allow for ongoing, collaborative and actionable communications between the Agency and its customers and stakeholders. It will also allow feedback to contribute directly to the improvement of program management.

The solicitation of feedback will target areas such as: Timeliness, appropriateness, accuracy of information, courtesy, efficiency of service delivery, and resolution of issues with service delivery. Responses will be assessed to plan and inform efforts to improve or maintain the quality of service offered to the public. If this information is not collected, vital feedback from customers and stakeholders on the Agency's services will be unavailable.

The Agency will only submit a collection for approval under this generic clearance if it meets the following conditions:

- The collections are voluntary;
- The collections are low-burden for respondents (based on considerations of
