The parent company for those firms with less than \$250 billion in total consolidated assets and with less than \$10 billion of on-balance sheet foreign exposure would submit data for the following entities: The global consolidated entity and the parent only (ignoring consolidated subsidiaries). Respondents should consult their supervisory teams to determine if the parent company should also separately report any consolidated banks or non-banks that are material contributors to the firm's funding and liquidity operations.

The parent company for those firms with \$250 billion or more in total consolidated assets or \$10 billion or more of on-balance sheet foreign exposure would submit data for the following entities: The global

<sup>5</sup> For U.S. bank holidays and weekends, no positions should be reported. For data reported by entities in international locations, if there is a local bank holiday, submit data for those entities using the data from the previous business day.

<sup>6</sup> These firms must comply with the transitions set forth in the LCR, which requires an LCR calculation monthly starting in January 2015. However, these firms do not need to report on 2052a until this reporting as-of date.

<sup>7</sup> These firms must comply with the transitions set forth in the LCR, which requires an LCR calculation monthly starting in January 2015. However, these firms do not need to report on 2052a until this reporting as-of date.

<sup>8</sup> The frequency of the FR 2052a monthly report may be temporarily adjusted to daily on a case-by-case basis as market conditions and supervisory needs change to carry out effective continuous liquidity monitoring. The Federal Reserve anticipates frequency adjustments to be a rare occurrence.

<sup>9</sup> These FBOs would be required to have the ability to report on each business day. If the FBO consolidates a U.S. chartered firm that would independently have to report daily, then the FBO must report daily. The Federal Reserve would test these FBOs for their ability to report daily.

<sup>10</sup> FR 2052b will not change for U.S. BHCs (not controlled by FBOs) with total consolidated assets of between \$10 billion and \$50 billion, so the frequency and as-of date will be the same as it is currently.

consolidated entity, the parent only (ignoring consolidated subsidiaries), and, separately, each consolidated bank and non-bank entity that is a material contributor to the firm's funding and liquidity operations. For these firms, all bank entities with total consolidated assets of \$10 billion or more would be considered material legal entities. Respondents should consult their supervisory teams to determine other material legal entities that should also be reported.

FBOs with U.S. assets of \$50 billion or more would report for their consolidated U.S. assets, as well as for all material entities managed within the U.S. For FBOs that own U.S. entities subject to the LCR, material entities include at least those entities subject to the LCR. Respondents should consult their supervisory teams to determine other material entities that should also be reported.

Some firms that are currently filing on FR 2052b would be required to file on the updated 2052a, pursuant to the proposed schedule set forth in the transition table. The firms currently filing on FR 2052b would cease filing the 2052b once they begin filing the updated 2052a.

Firms currently filing the FR 2052a would be required to file the updated 2052a, pursuant to the proposed schedule set forth in the transition table. The firms currently filing on FR 2052a would cease filing on the current 2052a once they are filing daily on the updated 2052a.

Additionally, there are some firms that are not currently filing either the 2052a or 2052b, but would be required to file the updated 2052a, pursuant to the proposed schedule set forth in the transition table. Among these companies are SLHCs that are subject to the LCR and nonbank financial companies that the Financial Stability Oversight Council has determined

under section 113 of the Dodd-Frank Act (12 U.S.C. 5323) shall be supervised by the Board and for which such determination is still in effect, where the Board has applied the requirements of the LCR to such company by rule or order.

The Board consulted outside the Federal Reserve System with other U.S. regulatory authorities including the Office of the Comptroller of the Currency and Federal Deposit Insurance Corporation in the development of FR 2052a. In addition, data sharing agreements will be constituted with other U.S. regulatory agencies with supervisory responsibilities over subject institutions to monitor compliance with the LCR and to ensure there are no redundant data collections. Also, the Federal Reserve has held general discussions with financial institutions regarding the proposed revisions.

### Federal Open Market Committee; Domestic Policy Directive of October 28-29, 2014

In accordance with Section 271.25 of its rules regarding availability of information (12 CFR part 271), there is set forth below the domestic policy directive issued by the Federal Open Market Committee at its meeting held on October 28-29, 2014.<sup>1</sup>

Consistent with its statutory mandate, the Federal Open Market Committee seeks monetary and financial conditions that will foster maximum employment and price stability. In particular, the Committee seeks conditions in reserve markets consistent with federal funds

trading in a range from 0 to ¼ percent. The Committee directs the Desk to undertake open market operations as necessary to maintain such conditions. The Desk is directed to conclude the current program of purchases of longer-term Treasury securities and agency mortgage-backed securities by the end of October. The Committee directs the Desk to maintain its policy of rolling over maturing Treasury securities into new issues and its policy of reinvesting principal payments on all agency debt and agency mortgage-backed securities in agency mortgage-backed securities. The Committee also directs the Desk to engage in dollar roll and coupon swap transactions as necessary to facilitate settlement of the Federal Reserve's agency mortgage-backed securities transactions. The System Open Market Account manager and the secretary will keep the Committee informed of ongoing developments regarding the System's balance sheet that could affect the attainment over time of the Committee's objectives of maximum employment and price stability.

By order of the Federal Open Market Committee, November 20, 2014.
