

351.106(c)(2), we will instruct CBP to liquidate without regard to antidumping duties any entries for which the assessment rate is *de minimis* (*i.e.*, less than 0.50 percent).

The Department recently announced a refinement to its assessment practice in NME cases. Pursuant to this refinement in practice, for entries that were not reported in the U.S. sales databases submitted by companies individually examined during this review, the Department will instruct CBP to liquidate such entries at the NME-wide rate. In addition, if the Department determines that an exporter under review had no shipments of subject merchandise, any suspended entries that entered under that exporter's case number (*i.e.*, at that exporter's rate) will be liquidated at the NME-wide rate. For a full discussion of this practice, see *NME Antidumping Proceedings*.

Cash Deposit Requirements

Because the antidumping duty order on frontseating service valves from the PRC has been revoked,¹⁷ the Department will not issue cash deposit instructions at the conclusion of this administrative review.

Notification to Importers

This notice also serves as a final reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of the antidumping duties occurred and the subsequent assessment of double antidumping duties.

Notification to Interested Parties

In accordance with 19 CFR 351.305(a)(3), this notice serves as a reminder to parties subject to administrative protective order ("APO") of their responsibility concerning the disposition of proprietary information disclosed under the APO. Timely written notification of the return or destruction of APO materials, or conversion to judicial protective order, is hereby requested. Failure to comply with the regulations and terms of an APO is a sanctionable violation.

These final results of review and notice are published in accordance with

sections 751(a)(1) and 777(i)(1) of the Act.

Dated: November 24, 2014.

Paul Piquado,

Assistant Secretary for Enforcement and Compliance.

BILLING CODE 3510-DS-P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

RIN 0648-XD648

Pacific Island Fisheries; Stock Assessment Review; Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of public meeting.

SUMMARY: NMFS will convene a meeting to review a draft 2014 stock assessment update for main Hawaiian (MHI) Deep 7 bottomfish.

DATES: The meeting will be held on Tuesday, December 9, through Friday, December 12, 2014, starting at 9 a.m. each day. The meeting will conclude each day at 4 p.m., or when business for the day has been completed. See **SUPPLEMENTARY INFORMATION** for the daily meeting agenda.

ADDRESSES: On Tuesday, December 9, and Wednesday, December 10, 2014, the meeting will be held at the NMFS Honolulu Service Center at Pier 38, 1129 N. Nimitz Hwy., Suite 220, Honolulu, HI 96817. On Thursday, December 11, and Friday, December 12, 2014, the meeting will be held at the University of Hawaii Campus Center, 2465 Campus Road, Honolulu, HI 96822.

FOR FURTHER INFORMATION CONTACT: Gerard Dinardo, NMFS Pacific Islands Fisheries Science Center, telephone: (808) 725-5397.

SUPPLEMENTARY INFORMATION: The purpose of this meeting is to review a draft 2014 stock assessment update for MHI Deep 7 bottomfish, which uses up-to-date re-audited bottomfish catch and effort data from Hawaii state commercial catch reports for the years 1948-2013. This assessment update used the previous benchmark assessment data analysis, modeling, and stock projection approaches with improved CPUE standardization.

At this meeting, a team of reviewers provided by the Center for Independent Experts or CIE (www.ciereviews.org) will review the assessment methods, input data and parameters, including the adequacy of the model and model outputs, and suggest research priorities to improve understanding of essential population and fishery dynamics. We invite the public to attend this meeting to provide information and clarification if requested by the CIE reviewers.

Meeting Agenda

Tuesday, December 9, 2014

1. Introduction
2. Background Information—Objectives and Terms of Reference
3. Fishery
 - a. Fishery Operations
 - b. Fishery Management
4. Data
 - a. State of Hawaii System
 - b. Biological Data
 - c. Other Data

Wednesday, December 10, 2014

5. Review of Stock Assessment

Thursday, December 11, 2014

6. Continue Review of Assessment
7. Panel Discussions (session closed to public)

Friday, December 12, 2014

8. Panel Discussions (session closed to public)
9. Review Panel Reports on Findings and Recommendations
10. Adjourn

The order in which agenda items are addressed may change. The meetings will run as late as necessary to complete scheduled business.

Special Accommodations

This meeting is physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to Gerard Dinardo, NMFS Pacific Islands Fisheries Science Center, (808) 725-

Takes of Marine Mammals Incidental to Specified Activities; Taking Marine Mammals Incidental to Rocky Intertidal Monitoring Surveys on the South Farallon Islands, California

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; proposed incidental harassment authorization; request for comments.

SUMMARY: NMFS has received an application from the National Ocean Service's Office of National Marine Sanctuaries Gulf of the Farallones National Marine Sanctuary (GFNMS) for an Incidental Harassment Authorization (IHA) to take marine mammals, by harassment, incidental to rocky intertidal monitoring work and searching for black abalone, components of the Sanctuary Ecosystem Assessment Surveys. Pursuant to the Marine Mammal Protection Act (MMPA), NMFS is requesting comments on its proposal to issue an IHA to GFNMS to incidentally take, by Level B harassment only, marine mammals during the specified activity.

DATES: Comments and information must be received no later than January 2, 2015.

ADDRESSES: Comments on the application should be addressed to Jolie Harrison, Chief, Permits and Conservation Division, Office of Protected Resources, National Marine Fisheries Service, 1315 East-West Highway, Silver Spring, MD 20910. The mailbox address for providing email comments is ITP.Pauline@noaa.gov. NMFS is not responsible for email comments sent to addresses other than the one provided here. Comments sent via email, including all attachments, must not exceed a 25-megabyte file size.

Instructions: All comments received are a part of the public record and will

generally be posted to <http://www.nmfs.noaa.gov/pr/permits/incidental/> without change. All Personal Identifying Information (*e.g.*, name, address) voluntarily submitted by the commenter may be publicly accessible. Do not submit Confidential Business Information or otherwise sensitive or protected information.

An electronic copy of the application containing a list of the references used in this document may be obtained by writing to the address specified above, telephoning the contact listed below (see **FOR FURTHER INFORMATION CONTACT**), or visiting the internet at: <http://www.nmfs.noaa.gov/pr/permits/incidental/>. Documents cited in this notice may also be viewed, by appointment, during regular business hours, at the aforementioned address.

FOR FURTHER INFORMATION CONTACT: Rob Pauline, Office of Protected Resources, NMFS, (301) 427-8401.

SUPPLEMENTARY INFORMATION:

Background

Sections 101(a)(5)(A) and (D) of the MMPA (16 U.S.C. 1361 *et seq.*) direct the Secretary of Commerce to allow, upon request, the incidental, but not intentional, taking of small numbers of marine mammals by U.S. citizens who engage in a specified activity (other than commercial fishing) within a specified geographical region if certain findings are made and either regulations are issued or, if the taking is limited to harassment, a notice of a proposed authorization is provided to the public for review.

Authorization for incidental takings shall be granted if NMFS finds that the taking will have a negligible impact on the species or stock(s), will not have an unmitigable adverse impact on the availability of the species or stock(s) for subsistence uses (where relevant), and if the permissible methods of taking, other means of effecting the least practicable impact on the species or stock and its habitat, and requirements pertaining to the mitigation, monitoring and reporting of such takings are set forth. NMFS has defined "negligible impact" in 50 CFR 216.103 as ". . . an impact resulting from the specified activity that cannot be reasonably expected to, and is not reasonably likely to, adversely affect the species or stock through effects on annual rates of recruitment or survival."

Except with respect to certain activities not pertinent here, the MMPA defines "harassment" as: "Any act of pursuit, torment, or annoyance which (i) has the potential to injure a marine mammal or marine mammal stock in the wild [Level A harassment]; or (ii) has

the potential to disturb a marine mammal or marine mammal stock in the wild by causing disruption of behavioral patterns, including, but not limited to, migration, breathing, nursing, breeding, feeding, or sheltering [Level B harassment]."

Summary of Request

On August 18, 2014, NMFS received an application from GFNMS for the taking of marine mammals incidental to rocky intertidal monitoring work and searching for black abalone. NMFS determined that the application was adequate and complete on August 29, 2014.

GFNMS proposes to continue rocky intertidal monitoring work and the search for black abalone in areas previously unexplored for black abalone from January 16 through January 23, 2015. All work will be done only during daylight minus low tides. This is a long-term study that began in 1992. This IHA, if issued, would be effective from January 10 through January 30, 2015, to allow for flexibility in the sampling schedule. Twelve sites are proposed for sampling. The following specific aspects of the proposed activities are likely to result in the take of marine mammals: Presence of survey personnel near pinniped haulout sites and approach of survey personnel towards hauled out pinnipeds. Take, by Level B harassment only, of individuals of five species of marine mammals is anticipated to result from the specified activity.

NMFS previously issued an IHA to GFNMS for this activity on November 8, 2012. The IHA was effective from November 8, 2012, through November 7, 2013. However, GFNMS did not conduct any abalone sampling during this time period. Therefore, no take occurred. NMFS subsequently issued a **Federal Register** Notice on November 27, 2013 for a proposed incidental harassment authorization for GFNMS to conduct monitoring activities from January 20 to February 8, 2014. GFNMS determined that it would be unable to undertake the described monitoring activities during that period. Therefore, an IHA was not issued, and no take occurred because the project did not go forward.

Description of the Specified Activity

Overview

Since the listing of black abalone as "endangered" under the U.S. Endangered Species Act (ESA; 16 U.S.C. 1531 *et seq.*), NMFS has requested that GFNMS explore as much of the shoreline as possible, as well as document and map the location of
