SUPPLEMENTARY INFORMATION: The Northwest Mountain Region of the Federal Aviation Administration (FAA) as lead agency and the National Park Service (NPS) and Bureau of Land Management (BLM) as cooperating agencies have prepared a Draft Supplemental Environmental Impact

Statement (Draft SEIS) and Section 4(f) Evaluation to address issues arising from the 1993 10th Circuit U.S. Court of Appeals Decision concerning the development of Cal Black Memorial Airport. The U.S. National Park Service (NPS) and Bureau of Land Management (BLM) are cooperating agencies, by virtue of their jurisdictional authority and/or resource management responsibilities. This Draft SEIS and Section 4(f) Evaluation does not involve any new development or project at the airport. The Cal Black Memorial Airport opened in April 1992.

Halls Crossing Airport was located within the boundary of the Glen Canyon National Recreation Area, a unit of the National Park Service (NPS). Due to safety issues with that airport, an Environmental Impact Statement (EIS) was prepared concerning the development of a replacement airport. In 1990, the FAA issued a Draft and Final EIS for the development of a replacement Airport. In August 1990, the FAA issued a record of decision approving the development of Cal Black Memorial Airport. The FAA determined in the record of decision that the use of the BLM lands upon which the airport was built was reasonably necessary for the project. Accordingly, the BLM issued a Patent for the airport land to San Juan County on September 25, 1990. In reaching its approval, the FAA determined that no significant impacts would result from the new airport to the recreational experience of visitors to the recreational area.

In 1990, the National Parks and Conservation Association (NPCA), et al. brought suit against the FAA concerning the adequacy of the EIS and the adequacy of the BLM Plan Amendment and land transfer process. In its July 7, 1993, decision, the U.S. Court of Appeals, 10th Circuit, remanded the EIS decision back to the FAA and BLM for further environmental analysis of aircraft noise impacts to the recreational use of public lands and the BLM's plan amendment and transfer of land.

On November 17, 2008 the BLM issued the Monticello Field Office Record of Decision and Approved Resource Management Plan. The document provides guidance for the management of Federal lands administered by the BLM in San Juan County and a small portion of Grant County in southeast Utah and includes provisions for the disposal of the Cal Black Memorial Airport property.

Thus, the purpose of the Draft SEIS and Section 4(f) Evaluation is to address the requirements of the U.S. Court of Appeals findings. The scope of the Draft SEIS and Section 4(f) Evaluation

includes: (1) The measurement of actual aircraft noise levels in GCNRA and visitor survey, (2) an updated evaluation of existing and future aircraft noise levels; (3) a Section 4(f) evaluation using the updated noise analysis; and (4) an analysis on potential cumulative effects.

The FAA encourages all interested parties to provide comments concerning the scope and content of the Draft SEIS. Comments should be as specific as possible and address the analysis of potential environmental impacts and the adequacy of the proposed action. Reviewers should organize their participation so that it is meaningful and makes the agency aware of the viewer's interests and concerns using quotations and other specific references to the text of the Draft SEIS and related documents. Matters that could have been raised with specificity during the comment period on the Draft SEIS may not be considered if they are raised for the first time later in the decision process. This commenting procedure is intended to ensure that substantive comments and concerns are made available to the FAA in a timely manner so that the FAA has the opportunity to address them.

Before including your address, phone number, email address, or other personal identifying information in your comment, be advised that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold from public review your personal identifying information, we cannot guarantee that we will be able to do so.

Issued in Renton, Washington, on December 3, 2014.

Carol Suomi,

Acting Division Manager, Airports Division, Northwest Mountain Region.

Those actions grant licenses, permits, and approvals for the project.

DATES: By this notice, the FHWA, on behalf of Caltrans, is advising the public of final agency actions subject to 23 U.S.C. 139(l)(1). A claim seeking judicial review of the Federal agency actions on the highway project will be barred unless the claim is filed on or before May 11, 2015. If the Federal law that authorizes judicial review of a claim provides a time period of less than 150 days for filing such claim, then that shorter time period still applies.

FOR FURTHER INFORMATION CONTACT: Yolanda Rivas, District Branch Chief, Caltrans District 4 Office of Environmental Analysis, 111 Grand Avenue, P.O. Box 23660, Oakland, CA 94623-0660, 8:00 a.m.–5:00 p.m., Pacific Standard Time, Telephone (510) 286-6216, email yolanda.rivas@dot.ca.gov.

The purpose of the project is to improve traffic operations by decreasing traffic congestion and improving peak-period travel times along a congested segment of State Route 1 within the city of Pacifica. Construction of the project is estimated to commence in spring of 2014 and is anticipated to take approximately two years. The actions by the Federal agencies, and the laws under which such actions were taken, are described in the Environmental

Impact Report/Environmental Assessment (EIR/EA) for the project, approved on August 2, 2013, in the Finding of No Significant Impact (FONSI) issued on August 2, 2013, and in other documents in the FHWA project records. The EIR/EA, FONSI, and other project records are available by contacting Caltrans at the address provided above.
