

The participating vessel would fish under the EFP along the continental shelf from east of Hydrographers Canyon west to Toms Canyon, including Atlantic, Block, and Hudson Canyons along the 60 fathom shoal (all research to be done in statistical areas 616, 537, and 526). Exact locations will be determined by the captain based on knowledge of fishery and reported butterfly locations.

If approved, the applicant may request minor modifications and extensions to the EFP throughout the year. EFP modifications and extensions may be granted without further notice if they are deemed essential to facilitate completion of the proposed research and have minimal impacts that do not change the scope or impact of the initially approved EFP request. Any fishing activity conducted outside the scope of the exempted fishing activity would be prohibited.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: December 9, 2014.

Emily H. Menashes,
Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.
